Acknowledgments

All thanks to Allah, greatest of all, for the countless gifts I have been offered.

I would like to express my deep thanks and gratitude to Dr. Fathia Kh. Ibrahim, Professor of Internal Medicine, Faculty of Medicine, Assiut University, for her continuous guidance and valuable efforts in revising this study.

I wish to express my particular sincere thanks and gratitude to Dr. Mahmoud K. Farrag, Assistant Professor of Internal Medicine, Faculty of Medicine, Assiut University, whose effort is noticeable and I am deeply grateful to him for his kind helps, guidance and encouragement in all stages to achieve this study and for her support during the whole scope of the work.

I would also like to express my great thanks to Dr. Taghreed M. Kamal, Lecturer of Clinical Pathology, Faculty of Medicine, Assiut University for her help to do the laboratory part of this study and for her support during the whole scope of the work.

I am most grateful to Dr. Mahmoud A. Abd-El-Aty, Professor of Public Health and Community Medicine, Faculty of Medicine, Assiut University, who encouraged me so much and helped me to design and apply statistical analysis.

My deep thanks are due to Dr. Muhammed Hossam Magharby, Assistant Professor of Internal Medicine, Faculty of Medicine, Assiut University, for his positive help, advice and for the benefit of his experience and knowledge.

I would also like to thank the patients for their cooperation and participation in this study.
