

The Role of Human Amniotic Membrane in Regeneration after Sciatic Nerve Transection in Male Albino Rat

Thesis

Submitted for Partial Fulfillment of M.D. Degree
in Anatomy and Embryology

By

Hala Taha Abd El-Rahman Shalan

M.B., B.Ch. M.Sc. Anatomy and Embryology
Faculty of Medicine - Ain Shams University

Under Supervision of

Dr. Lucy Moris Iskandar

Professor of Anatomy and Embryology
Faculty of Medicine - Ain Shams University

Dr. Seham Hassan Refaat

Professor of Anatomy and Embryology
Faculty of Medicine - Ain Shams University

Dr. Rania Ahmed Salah

Assistant Professor of Anatomy and Embryology
Faculty of Medicine - Ain Shams University

Dr. Youssef Shokry Abdel-Al

Assistant Professor of Anatomy and Embryology
Faculty of Medicine - Ain Shams University

Dr. Asmaa Ibrahim Ahmed

Lecturer of Anatomy and Embryology
Faculty of Medicine - Ain Shams University

**Faculty of Medicine
Ain Shams University**

2017

دور الغشاء الأمنيوسي البشري في تجديد العصب الوركي بعد قطعه في ذكور الفئران البيضاء

أطروحة مقدمة توطئة للحصول على درجة الدكتوراه

في العلوم الطبية الأساسية (علم التشريح و الاجنة)

مقدمه من

الطبيبة/ هالة طه عبد الرحمن شعلان

مدرس مساعد بقسم التشريح و الاجنة

كلية الطب- جامعة عين شمس

تحت اشراف

الدكتورة / لوسى مورييس اسكندر

أستاذ التشريح و الاجنة

كلية الطب - جامعة عين شمس

الدكتورة / سهام حسن رفعت

أستاذ التشريح و الاجنة

كلية الطب - جامعة عين شمس

الدكتورة / رانيا احمد صلاح

أستاذ مساعد في علم التشريح و الاجنة

كلية الطب- جامعة عين شمس

الدكتور/ يوسف شكري عبد العال

أستاذ مساعد في علم التشريح و الاجنة

كلية الطب- جامعة عين شمس

الدكتورة / أسماء أبراهيم

مدرس في علم التشريح و الاجنة

كلية الطب- جامعة عين شمس

كلية الطب- جامعة عين شمس

• Arabic Summary	

List of Abbreviations

Abb.	Meaning
AM	: Amniotic membrane
MSCs	: Mesenchymal stromal cells
HCG	: Human chorionic gonadotropin
WAP	: Whey acidic peptide
SLPI	: Secretory leukocyte protease inhibitor
HNP	: Human neutrophil peptide
HBD	: Human b-defensins
AMT	: Amniotic membrane transplantation
MRC	: Medical Research Center
CARE	: Committee of Animal Research Ethics
PBS	: Phosphate buffer saline
SPSS	: Statistical Package for the Social Sciences
SD	: Standard deviation
ANOVA	: Analysis of variance
DPE	: Digital Picture Exchange

List of Charts

<u>No.</u>	<u>Charts</u>	<u>Page</u>
<u>1</u>	Comparison between the number of the nerve fibers in the control, the injured and the amniotic groups.	97
<u>2</u>	Comparison between the number of myelinated nerve fibers to unmyelinated nerve fibers ratio in semithin sections of the control, the injured and the amniotic groups after 12 weeks.	100
<u>3</u>	Comparison between the average thickness of the myelin sheath in semithin sections of the control, the injured and the amniotic groups after 12 weeks.	102
<u>4</u>	G ratio in the control, the injured and the amniotic groups.	104
<u>5</u>	Immunoreactivity of S-100 in the control, the injured and the amniotic groups.	107

List of Diagrams

<u>No.</u>	<u>Diagrams</u>	<u>Page</u>
<u>Fig.I</u>	The gluteus maximus and minimus have been removed to expose the sciatic nerve and underlying anatomical structures.	5
<u>Fig.II</u>	Safe intramuscular injections into the gluteal region.	7
<u>Fig.III</u>	The cutaneous innervation of the terminal branches of the sciatic nerve.	9
<u>Fig.IV</u>	Transverse section of a sciatic nerve.	13
<u>Fig.V</u>	Diagram of layers of amnion and chorion.	28

List of Tables

<u>No.</u>	<u>Tables</u>	<u>Page</u>
<u>1</u>	Number of the total nerve axons 4 weeks after the transection/microscopic field.	94
<u>2</u>	Number of the total nerve axons 8 weeks after the transection /microscopic field.	95
<u>3</u>	Number of the total nerve axons 12 weeks after the transection/microscopic field.	96
<u>4</u>	Number of myelinated nerve fibers to unmyelinated nerve fibers ratio in semithin sections after 12 weeks of transection/microscopic field.	99
<u>5</u>	The average thickness of the myelin sheath in semithin sections after 12 weeks of the transaction.	101
<u>6</u>	G ratio in the control, the injured and the amniotic groups after 12 weeks of the transaction.	103
<u>7</u>	S-100 immunoreactivity 4 weeks after the transaction.	105
<u>8</u>	S-100 immunoreactivity 8 weeks after the transaction.	106
<u>9</u>	S-100 immunoreactivity 12 weeks after the transaction.	107
