Acknowledgment

Praise to **Allah**, the merciful, the Compassionate for all the countless gifts I have been offered. Of these gifts, those persons who were assigned to give me a precious hand so as to be able to fulfill this study.

I am much indebted to **professor Ahmed Mohamad Abd El-warith**, professor of Medical Oncology , National Cancer Institute, Cairo University, for his kind supervision, generous advice, clarifying, suggestions and support during the whole scope of this work. His endless help was an excellent guide to me. He always tries to give his all experience with great kindness and pleasure to all his students considered them as his sons.

No words can be sufficient to express my gratitude and indebtedness to **professor Ashraf Zedan Abd Alla**, professor and the head of Medical Oncology, South Egypt Cancer Institute, Assiut University I would like to express my immense gratitude and appreciation to him for his continuous encouragement and support. I also express my sincere gratefulness to him for his advice and help in all my practical life including this work.

I would like to express all my thanks to **Dr. Mahmoud Aly Mahmoud Ashry** , assistant professor of Internal Medicine, Faculty of Medicine, Assiut University, who spent great deal of time in preparation and revision of this work. He was superhuman in his patience during the endless repetitive revisions, suggestions with significant opinions, alterations and continuous encouragement largely needed till the work came in its present form.

I am greatly indebted to **professor Mahmoud Kamel Frag** professor of Internal Medicine, Faculty of Medicine, Assiut University, for his cooperation , encouragement and support during starting this work .

I would like to express my deep thanks to **Dr. Ashraf Mohamad El-Yamany**, assistant lecture of Medical Oncology, South Egypt Cancer Institute, Assiut University, for his kind and sincere guide throughout the study.
