**Evaluation of serum level of E-cadherin and cell membrane
expression of alpha-5 integrin in patients with acute
Leukemia.**

W. M. Meckawy

A thesis

Submitted to
Medical Research Institute
University of Alexandria
In partial fulfillment of the
requirements for the degree

of

Master

in

Immunology

By

Nada Mohammed Meckawy Mahmoud

B.Sc. of Science (Microbiology)

Faculty of Science, Alexandria University, Egypt, 2004

2011

**Evaluation of serum level of E-cadherin and cell membrane
expression of alpha-5 integrin in patients with acute
Leukemia.**

By

Acknowledgement

I am and forever will record my deepest gratitude and special appreciation to Dr. Zakia Ahmed Abd-elrahman, Professor of Immunology, Department of Immunology and Allergy, Medical research Institute, Alexandria University, to her I am truly indebted and thankful for the valuable time she devoted in supervising this work. I have enjoyed the ease of the dealing with her and her endless energy she was transmitting to me. I gratefully acknowledge her continuous encouragement, insightful guidance, support and constructive criticism she offered with the kind openhearted personality of that of a true scientist and most importantly for always being willing to listen. I do appreciate her great and valuable corrections and revision. I feel extremely fortunate to be counted as one of her candidates.

My Sincere thanks are expressed to Dr. Lobna Al-Desouky Abou-Shamaa, Professor of Immunology, Department of Immunology and Allergy, Medical Research Institute, Alexandria University, for her precious time and extreme effort she offered me as well as her advices, guidance, continuous encouragement and valuable suggestion in designing the work, and solving the research problems. I wish to express my cardinal appreciation and endless gratitude to her and I am grateful for her valuable help and supervision of this work and for her comments and gentle criticism. I would like to ensure that she has been very generous and totally patient in guiding me.

I wish to express my gratitude to Dr. Nadia Aly Sadek, Professor of Hematology, Hematology Department, Medical Research Institute, Alexandria University; I owe her a lot for her great effort and continual help in supplying me with patients needed for this study, as well as her guidance, encouragement, support and supervision of this work.

At last but not least, I would like to thank all patients and normal subjects who kindly shared in this study.

LIST OF CONTENTS

Chapter	Page
Acknowledgement	i
List of Contents	ii
List of Tables	iv
List of Figures	vii
List of Abbreviations.....	x
Introduction	1
I- Acute leukemia	1
1- Classification of Acute Leukemia.....	1
2-Etiology of Acute Leukemia.....	6
3-Incidence of Acute Leukemia.....	7
4-Clinical Presentation of Acute Leukemia.....	8
A- Clinical Presentation of AML.....	8
B- Clinical Presentation of ALL	9
5- Laboratory Diagnosis of Acute Leukemia.....	10
A- Differential cell count and morphologic features	11
B- Cytochemistry	11
C- Immunophenotyping	11
D- Cytogenetic analysis	15
II-Cell adhesion molecules.....	18
1- Basic background.....	18
2- Steps of cell migration	21
3- Cadherins	23
A- Structure of classical cadheris.....	24
B- Crosstalk between the cadherin–catenin complexes and major intracellular signaling pathways.....	25
C- Hypothetical role of cadherin–catenin complexes as biosensors of external cellular environment	32
4- Integrins	33
A- Structure of integrins.....	33
B- Signaling pathways of integrins	37
C- Integrins as multifunctional cell-matrix receptors	40
III-Adhesion molecules and cancer	41
1- Role of Cadherins in Cancer Progression	42
2- Role of Integrins In Cancer Progression.....	43

Aim of the Work.....	46
Subjects and Methods	47
Results	57
Discussion and Conclusion	84
Summary	93
Recommendations	95
References	96
Appendices	
Protocol	
Arabic summary
