## **ACKNOWLEDGEMENT**

I would like to express my gratitude to **Prof. Dr. M.F. El-Shahat**, Professor of Inorganic and Analytical Chemistry, Faculty of Science, Ain Shams University for his sponsorship, constructive criticism and deep concern in this work.

I am cordially indebted and grateful to **Dr. M.A. Barakat**, Associated Professor of Chemical Metallurgy Dept., CMRDI for suggesting the problem of this thesis, his direct supervision, and for his valuable discussion and constructive criticism during the course of the work.

The continuous support of **Dr. M.H.H. Mahmoud**, Associated Professor of Chemical Metallurgy Dept., CMRDI, for his continuous guidance, discussion and unfailing support are deeply appreciated.

Thanks should be forwarded to all colleagues and technical staff elsewhere who helped me throughout the work and support me to issue this thesis.

إلى كل من أراد لي النجاح دائماً
