

Effect Of Early Water Exposure On The Mini-flexural Strength Of Glass Ionomer Restoratives

Thesis

Submitted to Faculty of Dentistry

Ain Shams University

For Partial Fulfillment of the Requirements of MSc Degree in
Operative Dentistry Faculty of Dentistry

Ain Shams University

Faculty of Dentistry

2015

supervisors

Professor Dr. Mokhtar Nagy Ibrahim

Professor of Operative Dentistry, Faculty of Dentistry, Ain
Shams University

Dr. Mohammad Salah Abd El-Aziz Nassif

Associate Professor, Dental Biomaterials Department,
Faculty of Dentistry, Ain Shams University

Dr. Ahmed Ahmed Laithy Hassan

Lecturer, Department of Operative Dentistry, Faculty of
Dentistry, Ain Shams University

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالُوا سُبْحَانَ رَبِّكَ اللَّهُمَّ إِنَّا كُنَّا ظَالِمِينَ
أَنْتَ الْغَفُورُ الْكَرِيمُ

حَسْبُكَ اللَّهُ الْعَظِيمُ

(سورة البقرة – الآية 32)

First of all, thanks to **ALLAH** to whom I relate any success in achieving any work in my life.

My deepest thanks and appreciation are to **Professor Dr. Mokhtar Nagy Ibrahim**, Professor of Operative Dentistry, Faculty of Dentistry, Ain Shams University for his remarkable help and valuable advice, throughout the course of this research.

I would like to express my sincere gratitude to **Dr. Mohammad Salah Abd El-Aziz Nassif**, Associate Professor, Dental Biomaterials Department, Faculty of Dentistry, Ain Shams University for his unlimited support and cooperation spirit throughout my work.

Deep thanks and greatest appreciation to **Dr. Ahmed Ahmed Laithy Hassan**, Lecturer, Department of Operative Dentistry, Faculty of Dentistry, Ain Shams University for his meticulous supervision and his valuable guidance that helped in the completion of this work.

Many thanks would go to **My Friends**, for helped me in the completion of this work.

Last but not least, I would like to thank all **Staff Members** of Operative Dentistry Department, Ain Shams University, my Professors and my colleagues, and for their constant support and cooperation.

Ashraf Hussien Omar Tayeb

This work is dedicated to.....

Those who gave me so much care and support

My Dear Parents

(The light that leads my way)

My beloved wife and son

My brothers and sisters

**My true friends and colleagues for their support,
encouragement and cooperation**

List of tables

| Table No. | Title | Page |
|------------------|---|-------------|
| 1 | Materials, manufacturer, shade, batch number, composition, setting time, character. | 36 |
| 2 | Variables of the study. | 44 |
| 3 | Variables interaction for mini-flexural strength. | 46 |
| 4 | Two way analysis of variance for the effect of GI, exposure time and their interaction on mini-flexure strength (MPa). | 51 |
| 5 | Descriptive statistics and test of significance for the effect of GI type on mini-flexure strength (MPa) within each exposure time. | 53 |
| 6 | Descriptive statistics and test of significance for the effect of exposure time on mini-flexure strength (MPa) within each GI type. | 55 |

List of figures

| Fig. No. | Title | Page |
|-----------------|--|-------------|
| 1 | Fuji II LC resin modified glass ionomer cement. | 37 |
| 2 | Photac-Fil resin modified glass ionomer cement. | 37 |
| 3 | EQUIA Coat (GC Corp, Tokyo, Japan). | 38 |
| 4 | Stainless Steel Rod. | 38 |
| 5 | Polypropylene Ring. | 39 |
| 6 | The rod was adapted to the glass slap and surrounded by a polypropylene ring. | 39 |
| 7 | Additional silicon rubber base impression material was injected to produce the specified mold. | 40 |
| 8 | Rectangular Additional Silicone Rubber Mold. | 40 |
| 9 | 3M EPSE Aplicap TM Activator (upper) and Aplicap TM Applicator (lower). | 41 |
| 10 | Injecting the glass ionomer into rectangular additional silicone rubber mold. | 41 |
