

Preparation and Applications of Uniform Colloid Particles of Drugs and Bioactive Materials

A Thesis

Submitted to the Department of Chemistry,
Faculty of Science, Ain Shams University

For the award of the Ph. D. Degree
(Chemistry)

By

Amr Ali Mohamed Hassan

(M.Sc. in Chemistry)

Supervisors

Prof Egon Matijevi

The Victor K. LaMer
Professor of Colloid and
Surface Science and
Distinguished University
Professor at Clarkson
University (USA)

Prof Eglal Souaya

Professor of Inorganic
and Analytical
Chemistry
Ain Shams University
Cairo, Egypt

Chemistry Department
Faculty of Science
Ain Shams University
2013

APPROVAL SHEET

Preparation and Applications of Uniform Colloid Particles of Drugs and Bioactive Materials

By

Amr Ali Mohamed Hassan
(M.Sc. in Chemistry)

This thesis for Ph.D. Degree has been approved by:

Prof. Egon Matijevi

Prof. Eglal Souaya

Head of department

Prof. Dr. Maged Shafik Antonious

Part I

Pharmaceutical products

Part II

Natural products

Chapter 1

Introduction

Chapter Dehydrocholic acid

Chapter

Flufenamic acid

Chapter

Uric acid

Chapter 2

Literature survey on the preparation of Monodispersed particles of bioactive materials

References

Summary

Acknowledgement

I would like to thank many individuals who motivated me, encouraged me, and enriched my life with love and hope. They are too many to list, but I would like to mention those who really kept me going on this less traveled road that I have taken. I would like to thank the Almighty Allah for all his great blessing for which he provided me as well as giving me the strength to achieve my goals.

I am very thankful to my advisor and great teacher Prof Egon Matijevi . I really appreciate the care and guidance that he provided throughout my stay at Clarkson University.

I would like to thank my great supervisor prof Eglal Souaya for her support during my thesis and for her all advices.

Finally, my heartiest thanks go to my family, my father, mother, and my brothers whom I love very much.

شكر و تقدير

في البداية اود ان احمد الله و شكره علي فضله الواسع و علي كرمه
الاكثر مما استحق و ادعوه ان يعينني علي شكره و حسن عبادته كما اود ان
ر ايجون ماتيافيك علي استضافته
لي في معمله بجامعة كلاركسون و علي نصائحه و معاونته لي خلال هذه
. كما اود ان اتقدم بجزيل الشكر للاستاذة الدكتورة اجال صوايا علي كل
ما قدمته لي سواء في اثناء الماجستير او اثناء الدكتوراة و مساعدتها لي
نصح و مهما شكرتها لن اوفيها حقها ابدا.
كما اود ان اشكر عائلتي علي دعمهم الدائم لي و اتمني له الصحة و
التوفيق.

و في النهاية اود ان اتقدم بالشكر و افضل الامنيات لرئيس قسم
الكيمياء كلية العلوم جامعة عين شمس و جميع اعضاء هيئة التدريس و الهيئة
.
