First of all I wish to thank **God** the most compassionate and the most merciful for the will, power and patience he gave me to accomplish this thesis.

I would like to express my deep gratitude to **Professor Dr. Monir A. El Ganzouri,** Professor of Cell Biology, Faculty of Science, Ain Shams University, to whom I owe so much for his supervision, instructive criticism, invaluable assistance and meticulous revision of all details of this thesis. No words are sufficient to express my heart-felt thanks to him for his master teaching and instructive guidance. His intelligent remarks throughout the various steps of this work and his critical reading of the manuscript are highly appreciated. I am extremely indebted for him for getting me closer to the wonderful world of knowledge and imagination.

I would also like to express my sincere thanks and deep gratitude to **Professor Dr. Thanaa Helal,** Professor of Pathology, Faculty of Medicine, Ain Shams University. She willingly spared no effort or time in providing me with all necessary practical information and knowledge. She was very helpful to me in supporting lab equipment and kits. She was kind enough to revise my practical and theoretical work in details offering me her assistance and kind supervision.

I would like to express my appreciation and sincere thanks to **Professor Dr. Mohamed Tawfik,** Head of Pathology Department, National Liver Institute, Menofiya University for his effort and guidance in collecting the materials needed for performing this thesis.

I wish to introduce my deep respect and thanks to **Professor Dr. Alaa Ismail,** Professor of Surgery, Faculty of Medicine, Ain Shams University and Dr. **Medhat Hassan** Consultant of Surgery, National Hepatology and Tropical Medicine Research Institute for their kindness, encouragement and cooperation.
