Thesis

Submitted for requirements of M.Sc.
(Home Economics-Textile and Clothing)

entitled

''Novel program to enhance production data management (PDM) system in clothing manufacture mills''

By

Shaimaa Hassan Abdel Aziz

Supervised By

Prof . Dr. Wafaa A.El-Sayed
Prof. of Applied Textile Chemistry and Dyeing,
Home Economics Dept.
Women's College,
Ain Shams University

Dr. Nagah .S . Ashour
Lecturer of Textile and Clothing,
Home Economics Dept.
Women's College,
Ain Shams University

Dr.Maha.T. Eladawi
Assistant professor of Textile And Clothing,
Home Economics Dept.
Women's College,
Ain Shams University

2013

Acknowledgment

No one walks alone on the journey of life. just where do you start to thank those that joined you, walked beside you, and helped you along the way. continuously urged me to write a book, to put my thoughts down on Over the years, those that I have met and worked with have paper, and to share my insights together with the secrets to my continual, positive approach to life and all that life throws at us. So at last, here it is. So, perhaps this book and its pages will be seen as "thanks" to the tens of thousands of you who have helped make my life what is today.

I would like to express my deep and sincere gratitude to Dr. Wafaa A.El-Sayed Prof. of Applied Textile Chemistry and Dyeing, Her wide knowledge and her logical way of thinking have been of great value for me and Her understanding, encouraging and personal guidance have provided a good basis for the present thesis. The guidance and support received from all the members who contributed and who are contributing to this project, was vital for the success of the project. I am grateful for her constant support and help.

I would also like to thank Dr.M.T.Eladawi for his assistance and guidance in getting my graduate career started on the right foot and providing me. I could not thank her enough for her help on my project! She was such a wonderful teacher, and she was very willing to help me. Thank you so much for being patient with all of my questions and having to explain everything to me over and over.

I would like to show my greatest appreciation to Dr. Nagah S . Ashour. I can't say thank you enough for her tremendous support and help. I feel motivated and encouraged every time I attend her meeting. Without her encouragement and guidance this project would not have materialized.

I would like to thank all of my friends and family for their patience as I complete this process. Thank you to everyone for all of your help as I have worked through my thesis and defense.

I wish to thank all those who helped me. Eng.Ahmed Zakarie, Eng.Ahmed Samy, Eng.ahmed amran Eng.Atef El- Sayed, Eng.Mahamed Yesif, Kaled El-Gharabawey,Tarek Anas,Eng.mahemed El-Gazzar.

Thanks for the factory that I take tour in it and this help me in my project Without them, I could not have completed this project , Yasmina factory, Farrantext factory , BTM factory, Raja factory, Dalydress factory, Alpha Omega Egypt factory, SHAMSI factory, Sheeba international garment company, Lonetexfor garment and textile factory, Future fashion factory, Egyptian Company for knitting factory, VF ASIA LTD factory.

Finally, I am very grateful for the friendship of all of the members of her research group, especially, with whom I worked closely and puzzled over many of the same problems. Many friends have helped me stay through these difficult years. Their support and care helped me overcome setbacks and stay focused on my graduate study. I greatly value their friendship and I deeply appreciate their belief in me.

I would like to thank my family: my Mather who support me I cannot find words to express my gratitude to her ,my sisters and my brothers thank for all.
