Diagnostic value of Interleukin-6 in acute pelvic inflammatory disease (P.I.D)

Thesis

For partial fulfillment of Master degree
in Obstetrics & Gynecology

B7651

Submitted by

SANAA SAMY RAGAB

M.B., Bch

Faculty of medicine, Ain Shams University

Under supervision of

Prof. Dr./JEHAN ALLAM HAMED SAAD

Professor of Obstetrics and Gynecology
Faculty of medicine, Ain Shams University

Assist. Prof. Dr./HASSAN TAWFIK KHAIRY

Assistant Professor of Obstetrics and Gynecology
Faculty of medicine, Ain Shams University

Dr./HELMY MOTAWA ELSAYED

Lecturer of Obstetrics and Gynecology
Faculty of medicine, Ain Shams University

Faculty of medicine,
Ain Shams University
2002

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿ الرحمن * علم القراءان *
خلق الإنسان * علمه البيان ﴾

صدق الله العظيم

(سورة الرحمن _ الآيات من ١ - ٤)

Acknowledgement

It is a pleasant obligation to express my indebtedness to ***Professor Dr. Jehan Allam Hamed Saad***, Professor of Obstetric & Gynecology, Ain Shams University for her sincere guidance, meticulous supervision and continuous encouragement throughout this work.

I would like to express my thanks and deepest gratitude to ***prof. Dr. Mona Mohammed Rafeek***, professor of clinical pathology, Ain Shams University for her sincere guidance, and meticulous care.

I would like to express my thanks and deepest gratitude to Assist. ***Prof. Dr. Hassan Tawfik Khairy***, Assistant Professor of Obstetric & Gynecology, Ain Shams University for his valuable introductions, kindness supervision, helpful criticism and suggestions.

I would like to express my thanks ***Dr. Helmy Motawe Elsayed***, Lecturer of Obstetric & Gynecology, Ain Shams University for his continuous advice and his effort.

List of contents

Subjects	Page
• Introduction	1
• Aim of the work	4
• Review	5
Chapter I: Acute pelvic inflammatory disease.	
- Introduction	5
- Classification	7
Chapter II: Pathology	
- Acute salpingitis	10
- Cronic salpingitis	13
Chapter III: Diagnosis of pelvic inflammatory disease	
- Serum C-reactive protein	27
- Laparoscopic diagnosis	28
- Endometrial biopsy	30
- Trans vaginal sonography	35
Chapter IV: Complication of pelvic inflammatory disease	
- Chronic pelvic pain	38
- Infertility	39
- Ectopic pregnancy	41
- Recurrent pelvic inflammatory disease	42

Subjects	Page
- Death	43
Chapter V : Cytokines	44
Chapter VI: Interleukin –6	
- Molecular biology and structure of interleukin – 6	51
- Gene and protein	52
- I.L – 6 producers and inducers	52
- Biological activities of I.L – 6	53
- Effect of I.L – 6	55
- Clinical significance of I.L – 6	57
• Patients and methods	67
• Results	77
• Discussion	91
• Summary and conclusion	103
• References	109
• Arabic summary	

LIST OF FIGURES

	Subject	Page
Figure (1)	Acute salpingitis	11
Figure (2)	Bilateral hydrosalpinx, a probable end stage and pyosalpinx	14
Figure (3)	A retort-shaped pyosalpinx	14
Figure (4)	Hydrosalpinx simplex (microscopic) (bottom). Wall of large hydrosalpinx simplex showing persistence of stunted tubal folds	16
Figure (5)	Microscopic appearance of chronic interstitial salpingitis	17
Figure (6)	Salpingitis isthmica nodosa	19
Figure (7)	Microscopic appearance of salpingitis isthmica nodosa	19
Figure (8)	Bilateral tuboovarian abscess.	28

	Subject	Page
Figure (9)	Mild endometritis. Scattered plasma cells (arrow) in the stroma of proliferative endometrium.	30
Figure (10)	Moderate endometritis. Increased stromal density with focuslike aggregates of plasma cells and lymphocytes.	31
Figure (11)	Severe endometritis. Follicular collection (arrows) to transformed lymphocytes surrounded by dense infiltrate of plasma cells.	31
Figure (12)	Inflamed peritoneal fluid. An admixture of mesothelial cells, polymorphonuclear leukocytes, histocytes, and monocytoïd cells.	32
Figure (13)	Cross-section of an adnexal mass suggestive of tuboovarian complex.	37
Figure (14)	Cross-section of a dilated and fluid-	37
