# MOLECULAR AND SEROLOGICAL EVIDENCE OF CHLAMYDIA TRACHOMATIS INFECTION

#### Thesis

Submitted for Partial Fulfillment of M.D. Degree in Clinical and Chemical Pathology

#### Presented by Howida Mohamed Sharaf

(M.Sc. Clinical and Chemical Pathology)

Supervised by

Ibrahim Khalil Ali Mohamed

Prof. Adel Mohamed Gamal El-Missiry

Prof. of Clinical & Chemical Pathology Faculty of Medicine Ain Shams University

Director of Medical Research Centery

#### Assist Prof. Malaka Zakaria Ibrahim Amer

Assist. Prof. of Clinical & Chemical Pathology Faculty of Medicine Ain Shams University

#### Assist Prof. Fatma El-Zahraa Hassan Bahgat

Assist. Prof. of Clinical & Chemical Pathology Faculty of Medicine Ain Shams University

Dr. Mervat Ismael Ahmed El-Borhamy

Lecturer of Clinical & Chemical Pathology

Jaculty of Medicine

Ain Shams University

﴿قَالُوا سُبْحَانَكَ لا عِلْمَ

لَنَا إِلاَّ مَا عَلَّمْ تَنَا إِنَّكَ

أَنِتَ الْعَليمُ الْحَكيمُ ﴾

صدق الله العظيم البقرة/ آية (٣٢)

#### **Dedication**

This study is dedicated to the soul of my beloved father without whom neither this study nor me could have been but nothing.

Howida Mohamed Short

### <u>Acknowledgement</u>

Thanks to God who allowed and helped me to accomplish this work.

I would like to express my deepest gratitude to Prof. Dr. Ibrahim Khalil Ali, Professor of Clinical and Chemical Pathology, Ain Shams University, for his valuable suggestions and faithful guidance that contributed to the success of this work.

My sincere appreciation to Prof. Dr. Adel El-Missiry, Director of Medical and Bilharzial Research Center, for his instructive guidance and constructive criticism, in addition to a great deal of help.

I'm also deeply indebted to Dr. Malaka Zakaria Amer, Assist. Prof. of Clinical and Chemical Pathology, Ain Shams University, for her continuous help, advice, encouragement and meticulous supervision throughout this work.

I wish to convey my appreciation to Dr. Fatma El-Zahraa Hassan Bahgat, Assist. Prof. of Clinical and Chemical Pathology, Ain Shams University, for her helpful guidance, kind care, unfailing advice and support.

I am greatly indebted to Dr. Mervat Ismael El-Borhamy, Lecturer of Clinical and Chemical Pathology, Ain Shams University, for her assistance, valuable continuous support and patience in revising the whole work.

I would like to express my deepest thanks to Prof. Dr. Mahmoud El-Shourbagy, Prof. of Gynecology and Obstetrics, Ain Shams University, who offered me great help and spent a lot of time and effort to fulfill this work.

My grateful thanks to Dr. Magda Abd El-Salam, Assist. Prof. of Pathology, Ain Shams University, for her kind care and effort to complete this work.

I would like to express my deepest gratitude and most sincere thanks to Dr. Essam Zaki, Nucleic Acid Programme Director, Mubark City, for his continuous advice, directions and patience in revising the work.

I am indebted to Dr. Gloria Sidhom and Dr. Hanaa Rasmy, for their sincere help and great encouragement.

My grateful thanks to Dr. Amany Saleh, Lecturer of Microbiology, Ain Shams University, for her kind assistance.

I would like to extend my sincere thanks to all members of the MRC and in particular Dr. Raafat Fawzy and chemist Mohamed Sharaf.

Last but not least, my grateful thanks to my mother and all my family for their support which was received in many ways.

#### **CONTENTS**

Page
Introduction and Aim of Work 1
Review of Literature
CHAPTER I: CHLAMYDIAE
A. Description and Nature of the Agent
1. History 4
2. Taxonomy 6
3. Developmental Cycle10
a. Attachment11
b. Cell entry11
c. Morphological changes and replication 12
4. Morphology and Staining Properties 14
5. Antigens 17
i. Lipopolysaccarides (LPS) 17
ii. Major outer membrane protein(MOMP) 18
iii. Other antigens
6. Nucleic Acids
7. Metabolic Properties
8. Relation to Physical and Chemical Agents 23
9. Antibiotic Susceptibility24
10. Immune Response to Chlamydia 24
B. Pathogenesis28
C. Clinical Aspects and Epidemiology31
1. Chlamydia psittaci Infection 31
2. Chlamydia pneumoniae Infection32
3. Chlamydia trachomatis Infection
a. Gynecological infection34
b. Nongonococcal urethritis & prostatitis 41
c. Neonatal infections44
d. Trachoma
e. Lymphogranuloma venereum

CHAPTER II: LABORATORY DIAGNOSIS	
Specimen Collection and Preparation	. 52
Methods of Diagnosis	. 55
I. Direct Methods	
l. Direct Cytological Examination	. 55
a. Iodine staining technique	. 55
b. Giemsa staining technique	. 56
2. Isolation of Chlamydia trachomatis in Tissu	e
Culture	
3. Antigen Detection Techniques	
a. Direct fluorescent antibody technique	. 62
b. Enzyme-linked immunoassays	. 65
4. Nucleic Acid Detection	. 69
a. Nucleic acid probing	. 69
b. Polymerase chain reaction (PCR)	
c. Ligase chain reaction (LCR)	
II. Indirect Method	. 82
1. Complement fixation	. 82
2. Microimmunofluorescence	
3. Enzyme-Linked Immunoassays (ELISA)	. 87
4. Glycogen assay	. 88
CHAPTER III: PREVENTION, CONTROL AND	
TREATMENT OF CHLAMYDIAL INFECTIONS	
A. Prevention and Control	. 90
B. Treatment	. 92
Material and Methods	97
Results	
Discussion	
Conclusion and Recommendations	
Summary	
References	
Arabic Summary
