COLOR DOPPLER SONOGRAPHY OF PORTAL HYPERTENSION IN CHILDREN

Thesis

Submitted in partial fulfilment for
the M.D. Degree In Radiodiagnosis

By

Mohamed Abd El Latif Ahmed Shahin

MB, B.Ch; M.Sc. Radiodiagnosis

Supervisors

Prof. Dr. Mervat Shafik El Sahragty

Professor of Radiodiagnosis
Cairo University

Prof. Dr. Nabil El Desouky

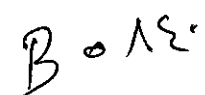

Professor of pediatric surgery
Cairo University

Prof. Dr. Ahmed Emad Mahfouz

Assistant Professor of Radiodiagnosis
Cairo University

Cairo University

2002

CONTENTS

	PAGE
INTRODUCTION AND AIM OF WORK.....	1
REVIEW OF LITERATURE.....	3
Physical Principles of Doppler Ultrasound.....	3
Historical note.....	4
Doppler effect.....	5
Doppler shift:.....	6
Doppler equations.....	8
Beam vessel angle (Doppler angle).....	11
Doppler Instruments.....	13
A) Continuous wave Doppler system.....	13
B) Pulsed wave Doppler system.....	16
C) Duplex scanning system.....	19
D) Color flow Doppler sonography system.....	21
E) Power Doppler system.....	26
Anatomy of the Portal Venous System.....	29
The portal vein.....	29
Tributaries of the portal vein.....	30
Segmental anatomy of the liver.....	32
Pathology of Portal Hypertension.....	34
Definition of portal hypertension.....	34
Pathogenesis and Haemodynamics in portal hypertension.....	35
Classification of portosystemic anastomoses.....	38
Classification and causes of portal hypertension in children.....	41
I) Pre-hepatic causes of portal hypertension.....	43
II) Intra-hepatic causes of portal hypertension.....	45
III) Post-hepatic causes of portal hypertension.....	48
Doppler Sonography in Evaluation of the Porto-Splenic Venous System.....	52
The Portal Vein.....	52
Sonographic identification.....	52
1) Portal vein diameter and cross-sectional area.....	53
2) Portal vein flow velocity.....	58
3) Portal vein flow volume.....	66
4) Portal vein patency and thrombosis.....	71
5) Portal vein blood flow direction and hepatofugal flow.....	75
6) Congestion index of portal vein.....	79

	PAGE
7) Portal vascular resistance.....	81
8) Intrahepatic portal veins.....	82
9) Portal abnormalities.....	83
The Splenic Vein	84
Sonographic identification.....	84
1) Splenic vein diameter.....	84
2) Splenic vein flow velocity.....	85
3) Splenic vein patency.....	86
4) Splenic vein flow direction.....	87
5) Splenic vein flow volume.....	88
The Portosystemic Collaterals	88
A) The left gastric vein and gastro-oesophageal collaterals.....	90
B) Paraumbilical vein.....	92
C) Splenorenal collaterals (spontaneous splenorenal shunt).....	94
Clinical Utility of Duplex and Color Doppler in Children with Chronic Liver Disease and Portal Hypertension	95
I) Diagnosis of portal hypertension.....	95
II) Evaluation of oesophago-gastric varices.....	97
III) Prediction of variceal hemorrhage.....	98
IV) Evaluation of portal venous system after experimental and therapeutic measures.....	101
V) Role of Doppler in endosonography in portal hypertension.....	106
VII) Evaluation of other abdominal vessels in patients with liver diseases.....	107
Evaluation of Doppler Sonography as a Technique	112
I) Non-invasiveness.....	112
II) Reliability of qualitative information.....	113
III) Comparison with other techniques.....	113
IV) Accuracy and errors of duplex-Doppler flowmetry.....	115
Methods suggested to minimize errors in duplex-Doppler flowmetry.....	116
PATIENTS AND METHODS	122

ARABIC SUMMARY	

ACKNOWLEDGEMENT

Before all, I should express my deep thanks to **GOD**, without his great blessings I would never accomplish my work.

I would like to express my sincere appreciation and deep gratitude to **Prof. Dr. Mervat Shafik El Sahragty**, Professor of Radiodiagnosis, Cairo University, for her helpful supervision and valuable instructions through this work. It was a pleasure and privilege to work under her guidance and supervision. I learned from her, her perfectionism, many of her humanistic attitude and thoughts.

My special thanks and appreciation to **Prof. Dr. Naibl El Desouky**, Professor of Pediatric Surgery, Cairo University, I would like to express my deep gratitude for his kind guidance and encouragement to accomplish this work.

I am deeply grateful to **Dr. Ahmed Emad Mahfouz**, Assistant Professor of Radiodiagnosis, Cairo University, every word and every step in this work have been kindly arranged by his sincere effort, care, and continuous encouragement.

I am also thankful to all the staff of the Radiodiagnosis Department, my colleagues and everyone who contributed to this work and helped in its final accomplishment .

I am grateful to Prof.
Dr. Abdel-Hakim El-Sayed
of Radiodiagnosis, Cairo University
for his continuous
help and support.

ACKNOWLEDGEMENT

Before all, I should express my deep thanks to Allah, without his great blessings I would never accomplish my work.

I would like to express my sincere appreciation and deep gratitude to Prof. Dr. Mervat Shafik El Sahragty, Professor of Radiodiagnosis, Cairo University, for her helpful supervision and valuable instructions through this work. It was a pleasure and privilege to work under her guidance and supervision. I learned from her, her perfectionism, many of her humanistic attitude and thoughts.

My special thanks and appreciation to Prof. Dr. Naibl El Desouky, Professor of Pediatric Surgery, Cairo University, I would like to express my deep gratitude for his kind guidance and encouragement to accomplish this work.

I am deeply grateful to Dr. Ahmed Emad Mahfoz, Assistant Professor of Radiodiagnosis, Cairo University, every word and every step in this work have been kindly arranged by his sincere effort, care, and continuous encouragement.

Many thanks to Dr. Mona El Lawendy, Assistant Professor of Community Medicine Cairo University in helping me and giving her valuable time during preparation of this work.

My friends and my family attended the accomplishment of this work with a concern even greater than mine. I hope I can pay them back, even partially, the love and care they deserve.

I am also thankful to all the staff of the Radiodiagnosis Department, my colleagues and everyone who contributed to this work and helped in its final accomplishment.
