Acknowledgement

First of all, all gratitude is due to God the almighty that guided and aided me in bringing this thesis to light which would have never been crowned by success without blessing of Allah to whom my faithful loyalty will remain however beyond any compromises .

It is of great pleasure to acknowledge my deepest thanks to Prof. El-Badry Ibrahim Abo El-Noor, Professor of Internal Medicine, Faculty of Medicine, Assiut University, for his keen supervision, kind advice, close observation, his encouragement all the time, constructive suggestions, excellent guidance, giving me unlimited time and eminent supervision which tided me over difficulties I met throughout this work .

I would like to express my deepest gratitude and sincere thanks to DR. Salwa S. Elgendy, Lecturer of Internal Medicine, Faculty of Medicine, Assiut University, for her valuable instruction, kind support, continuos help and effort for very close supervision throughout this work.

Many thanks to my colleagues in Internal Medicine Department, for their expert advice and kind help.
