***EFFECT OF RADIATION ON SOME
PHYSICAL AND CHEMICAL
PROPERTIES OF SOME GLASSES***

B5712 *A Thesis Submitted*
To

**The Chemistry Department
Faculty of Girls Arts, Science, and Education
Ain Shams University**

By

Hanaa Hanafy Mahmoud Mahamed

B. Sc. (1981)

In Partial Fulfillment

of

**The Requirements for
The Degree of Master of Science**

In

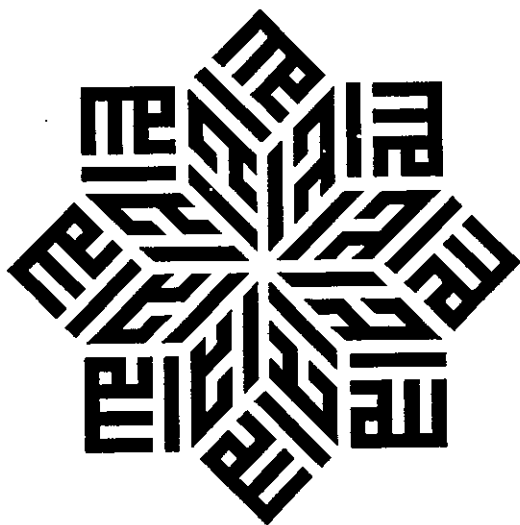

Chemistry

1999

Approval Sheet

Name : Hanaa HnaFy Mahmoud Mahmed
Title : Effect of radiation on some physical properties of
some glasses.

Supervisors

- 1- Dr. Zainab Abd El-Hadi
- 2- Prof. Dr. Abd El-Hamid Zahran
- 3- Dr. Nagia El - Alaily.

Approval

Head of Chemistry Department

Acknowledgments

The author of this thesis wishes to express his gratitude to *Dr. Z. A. El-Hadi* Assistant Professor of Physical Chemistry, Department of Chemistry, University College for Girls, Ain-Shams University, Heliopolis, Cairo, Egypt, for her supervision valuable guidance and continuous encouragements in the course of this work.

Thanks are indebted to *Dr. A. H. Zahran*, Chairman of the National Center for Radiation Research and Technology, for his valuable help and continuous supervision during the progress of this work.

Thanks are also to *Dr. N. A. El-Alaily* Assistant Professor, Department of Radiation Chemistry, National Center for Radiation Research and Technology, for supervision during the progress of this work.

I am grateful to *Dr. F. M. Ezz El Din* Assist Prof. for his generous and valuable help in preparation of glass samples. He provided most valuable consolation and advice through out the course of this work.

Thanks are due to Prof. *A. M. El Naggar* Chairman of the Radiation Chemistry department for providing the facilities during the course of this research.

I would like to express my deepest gratitude to my friends and colleagues at the Department of Radiation Chemistry at N. C. R. R. T.
