NOTE

The present thesis is submitted to the faculty of science, Ain Shams University in partial fulfillment of the requirements for the degree of M. Sc. in geology.

Beside the research work materialized in this thesis, the candidate has attended ten postgraduate courses for one academic year in faculty of Science, Helwan University, in the following topics:

Structural geology
Stratigraphy
Historical geology
Fossils
Sedimentary rocks
Geological data analysis
Regional geology
Petroleum geology
Hydrogeology
Statistics

Also, he has attended four postgraduate courses for one academic year in faculty of Science, Ain Shams University, in the following topics:

Geotectonic
Photogeology
Geomorphology
English language

He has successfully passed the final examination in the courses

Professor Dr. Samir A. Awad

Head department of Geology

ACKNOWLEDGEMENTS

I am indebted to Professor Dr. **Adel Ramdan Moustafa**, Professor of Structural Geology, Department of Geology, Faculty of Science, Ain Shams University and Professor Dr. **Mohamed Hamed Abdel Aal**, Professor of Geophysics, Department of Geology and Biological Sciences, Faculty of Education, Ain Shams University, for supervising this work and for constructive criticism during the progress of the work covered by the present thesis.

I wish to express my deep gratitude to Dr. **Ali Mohamed Ali Abd-Allah**, Lecturer of Structural Geology, Department of Geology, Faculty of Science, Ain Shams University, for supervising this work and for constant guidance and his worthwhile comments.

I am also grateful to the Geological and Geophysical Data Center of the Egyptian General Petroleum Corporation (E. G. P. C.) for providing the seismic data and logs used in this study.

Last, but not least, I am thankful to anyone helped me to present this work in its final form.

TABLE OF CONTENTS

Subject	Page No.
ABSTRACT	1
CHAPTER I : INTRODUCTION	
A-Location of the Study Area	1
B-Objectives of The Study	1
C-Mapping Methodology	3
D-General Structural History of the Gulf of Suez	6
E- Previous Studies	9
 CHAPTER II : STRATIGRAPHY	
A-Introduction	11
B-Stratigraphy of the Study Area	11
1-Pre-Rift Rocks	11
a- Precambrian Basement	13
b-Paleozoic Rocks	13
i- Nubia-B	13
c- Lower Cretaceous Rocks	13
i- Malha Formation	13
ii- Nubia-A	15
d-Upper Cretaceous Rocks	15
i- Galala Formation	15
ii- Wata Formation	19
iii- Matulla Formation	21
iv- Sudr Formation	22
e- Paleocene Rocks	24
f- Eocene Rocks	24
g- Oligocene Rocks	27
2- Syn-Rift Rocks	27
a- Lower Miocene Rocks	27
i- Abu Gerfan Formation	27
ii- Gharamul Formation	30
iii- Nukhul Formation	32
iv- Rudies Formation	32
v- Kareem Formation	33
b- Middle Miocene Rocks	33
i- Gemsa Formation	33
ii- Belayim Formation	35
- Baba Member	35

- Sidri Member	35
- Feiran Member	36
- Hammam Faraun Member	36
c- Upper Miocene Rocks	36
i- South Gharib Formation	37
ii- Zeit Formation	37
1-Post-Rift Rocks	38
CHAPTER III : Structures	
A-Introduction	39
B-Faults	41
1- North Northwest Fault Set (Clysmic Trend)	41
2- North-South Fault Set	50
3- North Northeast fault Set	53
C-Folds	54
1- Wadi El-Dahal Syncline	54
2- West Wadi Abu Ramith Syncline	54
CHAPTER IV : Subsurface Structures	
A-Introduction	56
B-Velocity Studies	58
1- Velocity Estimation	60
C- Interpretation of Seismic Data	67
1- Geologic Interpretation of Seismic Reflection Maps	68
a- Two-way-time Structure Contour Map of the Top Sudr Formation	68
i- Fault Pattern	68
- Major faults	73
- Minor Faults	73
ii- High and Low Structures	74
- high Structures	74
- Low Structures	74
b- Two-way-time Structure Contour Map of the Top Eocene	75
i- Fault Pattern	75
- Major faults	75
- Minor Faults	75
ii- High and Low Structures	75
c- Two-way-time Structure Contour Map of the Top Rudies Formation	76

i- Fault Pattern	76
- Major faults	76
- Minor Faults	76
ii- High and Low Structures	76
d- Two-way-time Structure Contour Map of the Top Zeit Formation	77
i- Fault Pattern	77
ii- High and Low Structures	77

CHAPTER V: STRUCTURAL ANALYSIS AND INTERPRETATION

A-Introduction	78
B-Origin of the Different Fault Sets	78
1-North-Northwest Faults	78
2-North-South Faults	80
3-North-Northeast Faults	80
C-Transfer Zones	81
1- Synthetic Transfer Zones	84
2- Other Types of Synthetic Transfer Zones	85
3- Kinematic Analysis of Transfer Zones	86
a- Origin of the Transfer Zones	86
b- Origin of the Strike-Slip Components on the Planes of the Faulted Synthetic Transfer Zones	88
c- Termination of the Strike-slip and Dip-slip Movements on the Planes of the Transfer Faults	90
D- Faulted Blocks.	90
1- Southern Galala Block	92
2- El-Dahal Block	92
3-Abu Ramith Block	93
4- Abu khalifi Block	93
5- East Thelemet Block	95
6- Zaafarana Block	95
7- Central Gulf Block	95
E- The Gharandal Accommodation Zone	96
F- Origin of the Mapped Folds	98
G- Stress Analysis	102
H- Block Rotation And Extension Estimates	104
1- The Restoration Methodology	107
a-Principle	107
b-Assumptions	107
c- Data Processing	108
2-Restoration of the Top Eocene and the Top Rudies	108
