بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿ رَبَّنَا لَا تُؤَاخِذْنَا إِنْ نَسِينَا أَوْ أَخْطَأْنَا رَبَّنَا  
وَلَا تَحْمِلْ عَلَيْنَا إِصْرًا كَمَا حَمَلْتَهُ عَلَى الَّذِينَ  
مِنْ قَبْلِنَا رَبَّنَا وَلَا تُحَمِّلْنَا مَا لَا طَاقَةَ لَنَا بِهِ  
وَاعْفُ عَنَّا وَاعْفِرْ لَنَا وَارْحَمْنَا أَنْتَ مَوْلَانَا  
فَانصُرْنَا عَلَى الْقَوْمِ الْكَافِرِينَ ﴾ (٢٨٦)

صدق الله العظيم

سورة البقرة / الآية ٢٨٦

## ACKNOWLEDGEMENT

*First of all thanks to **God** who gave me the ability and patience to complete this research work.*

*Great thanks also go to the spirit of Prof. Dr. **Alaa Hamed**, Prof. of Internal Medicine and Endocrinology, the owner of this research's idea.*

*I am also thankful to Prof. Dr. **Mohamed Saad**, Assist. Prof. of Internal Medicine and Endocrinology, Ain Shams University and to Prof. Dr. **Nermin Sheriba**, Assist. Prof. of Internal Medicine and Endocrinology, Ain Shams University, for their great support, encouragement and advices during my work in this research.*

*I would like to express my thanks and profound gratitude to Prof. Dr. **Hana Hamdy Nassef**, Assist. Prof. of Radiodiagnosis, Ain Shams University, for her great help.*

*Also I would like to offer special thanks to Dr. **Laila Aziz Sobeih**, fellow of Chemistry, Ain Shams University Hospital and all the laboratory staff for their efforts to realise this research work.*

*Lastly but not the least, I would like to thanks **my mother** for her great love and support, and to express my sincere appreciation to **my dear husband** for the extreme encouragement, end less care and support he gave me during my research.*

## CONTENTS

	<u>Page</u>
Introduction and aim of the work .....	1
Review of Literature .....	4
<i>Obesity</i> .....	4
Classification .....	5
Etiologic factors .....	7
Pathophysiology .....	16
Measurement of body fat .....	22
Metabolic sequelae and health risks of obesity ..	29
Secondary obesity .....	40
<i>Insulin resistance</i> .....	42
General considerations of insulin action .....	42
Causes of insulin resistance .....	48
Insulin resistance in type 2 diabetes .....	55
Subjects and Methods .....	61
Results .....	73
Discussion .....	97
Summary .....	108
References .....	110
Arabic Summary .....	---

## LIST OF TABLES

<u>Tab. No.</u>	<u>Title</u>	<u>Page</u>
1	Statistical comparison between group I (subject with NGT) and group II (patient with I IGT) regarding the studied parameters.....	78
2	Statistical comparison between group I (NGT) and group III (type 2DM) regarding the studied parameters.....	79
3	Statistical comparison between group II (IGT) and group III (type 2 diabetic) regarding the studied parameters .....	80
4	Statistical comparison between group I (NGT) and abnormal glucose tolerance patients (IGT + type 2 diabetic) regarding the studied parameters.....	81
5	Correlation study between HOMA and the studied parameters in NGT subjects .....	82
6	Correlation study between HOMA and the studied parameters in IGT subjects.....	83
7	Correlation study between HOMA and the studied parameters in type 2 diabetic patients.....	84
8	Correlation study between HOMA and the studied parameters in IGT, type 2 diabetes collectively .....	85

The first part of the paper discusses the importance of the research and the objectives of the study. It then proceeds to a literature review, followed by a description of the methodology used. The results of the study are presented in the next section, followed by a discussion of the findings and their implications. The paper concludes with a summary of the main points and a list of references.

The research was conducted in a systematic and rigorous manner, following the principles of good research practice. The data collected was analyzed using appropriate statistical methods, and the results were presented in a clear and concise manner. The findings of the study are discussed in detail, and their implications for practice and policy are explored. The paper is well-structured and easy to read, and it provides a valuable contribution to the field of research.
