التوثيق الالكتروني والميكرو فيلم

## قسم

نقسم بالله العظيم أن المادة التي تم توثيقها وتسجيلها  
علي هذه الأفلام قد اعدت دون أية تغيرات

## يجب أن

تحفظ هذه الأفلام بعيداً عن الغبار

في درجة حرارة من 15 – 20 مئوية ورطوبة نسبية من 20-40 %

To be kept away from dust in dry cool place of  
15 – 25c and relative humidity 20-40 %

# **ANALYSIS OF IN SERVICES FOR EGYPTIAN TELEPHONE NETWORK**

**By**  
**Eng. Mohamed Salem Mohamed Salem**

**A Thesis submitted to the  
Faculty of Engineering at Cairo University  
In Partial Fulfillment of the  
Requirements for the Degree of  
MASTER OF SCIENCE  
In  
ELECTRONICS & COMMUNICATIONS**

**Under supervision of**

**Prof. Dr. Mahmoud T. El-Hadidi**  
Electronics & Communications Department  
Faculty of Engineering Cairo University

**Prof. Dr. Magdy S. El-Soudani**  
Electronics & Communications Department  
Faculty of Engineering Cairo University

	Page
<b>LIST OF FIGURES.....</b>	iv
<b>LIST OF TABLES.....</b>	vii
<b>LIST OF ABBREVIATIONS AND SYMBOLS.....</b>	viii
<b>ACKNOWLEDGEMENT.....</b>	xi
<b>ABSTRACT.....</b>	xii
<b>CHAPTER 1 : INTRODUCTION.....</b>	
1.1 History of Intelligent Network.....	1
1.2 Upcoming Trends in Intelligent Networks.....	5
1.3 Thesis Objectives.....	10
1.4 Thesis Outlines.....	11
<b>CHAPTER 2 : PRINCIPLES OF INTELLIGENT NETWORKS.....</b>	
2.1 Introduction.....	14
2.2 IN Architecture.....	14
2.2.1 Main Components of IN.....	15
2.2.2 IN Functions.....	16
2.2.2.1 Call Control Function.....	17
2.2.2.2 Service Switching Function.....	17
2.2.2.3 Specialized Resource Function.....	19
2.2.2.4 Service Control Function.....	19
2.2.2.5 Service Management Function.....	21
2.2.2.6 Service Data Function.....	21
2.2.2.7 Service Creation Environment Function.....	21
2.2.3 Relationship and Interface Between IN Functions.....	23
2.3 IN Services.....	25
2.3.1 What are service and service feature?.....	25
2.3.2 Types of Services.....	25
2.3.3 Roles in the IN.....	25
2.3.4 Categories of the Service.....	28
2.4 IN Services in Cairo Network.....	29
2.4.1 Free-Phone Service.....	29
2.4.2 Universal Access Number Service.....	31
2.4.3 Premium Rate Service.....	33
2.4.4 Tele-Voting Service.....	33
2.4.5 Prepaid Card Service.....	36
2.4.6 Virtual Calling Card Service.....	36
2.4.7 Universal Personal Telecommunication Service.....	37
2.4.8 Virtual Private Network Service.....	38

## **CHAPTER 3 : OVERVIEW OF COMMON CHANNEL SIGNALING No.7 (CCS7).....**

3.1 Introduction.....	43
3.2 Structure of CCS7.....	43
3.3 Message Transfer Part (MTP).....	45
3.3.1 MTP Message Formate.....	45
3.3.2 Signaling Data Link Functions.....	47
3.3.3 Signaling Link Functions .....	48
3.3.4 Signaling Network Functions.....	48
3.3.4.1 Signaling Message Handling.....	50
3.3.4.2 Signaling Network Management .....	50
3.4 CCS7 Additional Components.....	52
3.4.1 Signaling Connection Control Part (SCCP).....	52
3.4.1.1 SCCP Structure.....	52
3.4.1.2 SCCP Primitives.....	55
3.4.1.3 SCCP Message Format.....	55
3.4.1.4 SCCP Message Types.....	59
3.4.1.5 SCCP Message Parameters.....	61
3.4.1.6 SCCP Message Flow.....	61
3.4.2 Transaction Capability Application Part (TCAP).....	66
3.4.2.1 TCAP Structure.....	66
3.4.2.2 TCAP Primitives.....	66
3.4.2.3 TCAP Message Format.....	69
3.4.2.4 TCAP Message Types.....	73
3.4.2.5 TCAP Message Flow.....	74
3.5 Conclusion.....	77

## **CHAPTER 4 : OVERVIEW OF INTELLIGENT NETWORK APPLICATION PART (INAP).....**

4.1 Introduction.....	78
4.2 IN Standards Overview.....	78
4.3 IN Conceptual Model.....	79
4.4 IN CS1 Call Model.....	80
4.4.1 Main Components of Basic Call State Model (BCSM).....	80
4.4.2 Originating BCSM.....	82
4.4.3 Terminating BCSM.....	84
4.5 Description of General IN Call Set up .....	86
4.6 Detailed INAP Operations .....	89
4.7 Operation Sequence Flow for IN Services.....	106
4.8 Conclusion.....	111

## **CHAPTER 5 : IN FOR EGYPT ( GREATER CAIRO AREA).....**

5.1 Introduction.....	112
5.2 Greater Cairo Switching Network .....	112
5.2.1 Cairo Switching Network Topology.....	112
5.2.2 Cairo Switching Network Routing Rules.....	116
5.3 First Implemntation of IN in Cairo Area.....	122
5.3.1 Implemented IN Services.....	122
5.3.2 IN Platform Topology.....	122
5.3.3 IN platform routing scenario.....	131

5.4 New IN Platform in Greater Cairo Area.....	132
5.4.1 Implemented IN Services.....	133
5.4.1 IN Platform Topology.....	133
5.4.3 IN Platform Routing Scenarios.....	137
5.5 Measurements of IN Traffic.....	140
5.5.1 Recorded and Measured Traffic Conditions.....	140
5.5.2 Network Resources.....	140
5.5.3 Points of Measurements.....	142
5.5.4 The Measurements Results.....	142
5.5.5 Verification of Measurements.....	142
5.6 Conclusion.....	147
<b>CHAPTER 6 : EFFECT OF INAP ON SIGNALING NETWORKS &amp; CALCULATION MODEL.....</b>	
6.1 Introduction.....	148
6.2 General Approach for IN planning.....	150
6.2.1 IN Traffic Forecasting.....	152
6.2.2 IN Resource Allocation.....	152
6.2.3 IN Dimensioning.....	153
6.2.4 IN Re-Dimensioning.....	154
6.3 General Rules in Traffic Evaluation.....	155
6.3.1 Signaling Load.....	157
6.3.2 Call Attempts.....	158
6.3.3 Number of Signaling Links.....	158
6.4 Proposed Calculation Method to Study INAP Effect.....	159
6.4.1 Model Objectives.....	160
6.4.2 INAP Signaling Load and Respective Number of Links.....	159
6.4.3 Total Offered Traffic for the SSP.....	161
6.4.4 Dimensioning of the Circuit Group Size.....	162
6.4.5 Effect of Introducing IN Services on Normal ISUP Signaling.....	164
6.4.6 Maximum Number of IN Subscribers for a Typical Service.....	166
6.5 Conclusion.....	168
<b>CHAPTER 7 : APPLICATIONS OF THE PROPOSED CALCULATION MODEL.....</b>	
7.1 Introduction.....	169
7.2 Analysis of the Old Topology of IN Topology at Cairo Network.....	169
7.3 Analysis of the New Topology of IN Topology at Cairo Network.....	177
7.4 Conclusion.....	188
<b>CHAPTER 8 : CONCLUSION AND FUTURE WORK.....</b>	
8.1 Conclusion.....	190
8.2 Future Work.....	191
<b>REFERENCES.....</b>	<b>192</b>
<b>APPENDICES.....</b>	
Appendix A List of IN Services According to the ITU Q.1211 Series.....	195
Appendix B INAP Trace for PPC Service Call.....	200
Appendix C Measurements Results.....	234
