ACKNOWLEDGMENT

Thanks Allah for helping me in these work and every work.

I would like to express my deepest and sincere gratitude to Prof. Dr./ Mohamed Samir El-Dashlouty. Prof. of Nutrition and Food Science, Home Economics Faculty for his scientific support and valuable supervision throughout this work.

My sincere gratitude and indebtedness are due to. Prof. Dr./ Mahmoud Mohamed Mostfa, Prof. of Food Technology, Agriculture Faculty Minufiya University for his interest indispensable advice and valuable comments.

I wish to express my hearty appreciation and sincere gratitude to. Prof Dr/ Thouraya Messalam Hassan Assist Prof. of Nutrition and Food Science, Home Economics Faculty, Minufiya University for her supervising this work and for her significant advice and criticism in the preparation of the thesis.

Finally, deep thanks are paid to my faithful, Wife, Sons and my family.

LIST OF CONTENTS

INTRODUCTION	1
THE AIM OF THIS STUDY.....	6
REVIEW OF LITERATURE	7
A- General	Error !Bookmark not defined.
B- Characteristics of Adolescence	8
C-Nutritional requirements of adolescence	11
D- Factors Affecting Food Consumption.....	19
E- Adolescent Eating Patterns:.....	24
F- Nutritional Problems:	26
G- NTRITIONAL ASSESSMENT	28
I- Anthropometric measurements.	32
SUBJECTS AND METHODS	37
A- Subjects and timing	37
-1Sample size	37
-2Sample site	37
-3Period of the study:.....	38
B- Methods (data collection & analysis.(.....	38
-1Socio - economic status	38
-2Daily dietary data	38
-3Anthropometric measurements.	39
a- Body weight.	39
b- Body height.	39
c- Mid-upper arm circumferences (AC.(.....	40
d- Triceps skinfold thickness (T.S.F.(.....	40
-4Biochemical measurements:	40

<u>a- Hemoglobin estimation (1900:)</u>	40
<u>b- Urine a analysis</u>	41
<u>c. Stools analysis (1900:)</u>	41
<u>-5Statistical analysis</u>	42
RESULTS AND DISCUSSION	43
A- Distribution of sample according to sex and site.	43
B- Socio-economic characteristics of the pupils	44
C- Skipping meals:	48
D- Methods of Cooking Food.	49
E- Distribution of Minufiya pupils in preparatory schools, according to taking tea.	51
G- Distribution of sick preparatory school pupils of Minufiya governorate according to treatment of disease.	53
H- Distribution diseased subject according to personally available place of treatment when sick.	54
I- Distribution of total sample subjects according to changing diet during disease.	55
K- Distribution of Minufiya preparatory school pupils of both sex and site according to external symptoms of malnutrition.	58
L- Frequency distribution for anthropometric measurement among preparatory school pupils of Minufiya governorate.	60
M- Frequency distribution for different nutrient, intakes (as % of RDA) among preparatory school pupils of Minufiya governorate as affected by sex and site.	63
N- Frequency distribution for some nutrients among Minufiya preparatory school pupils of different age groups as inflected by sex and site.	68
O- Nutrients intake by Minufiya preparatory school pupils of different sex and site according to change diet disease.	69

P- Nutrient intakes by Minufiya preparatory school pupils of different sex and site according to number of daily meals consumed. -----	70
Q- Mean nutrients intake by Minufiya preparatory school pupils of different sex and site as affected by tea consumption and tea concentration. -----	72
R- Mean nutrient intake by Minufiya preparatory school pupils at different sex and site as affected by the family income level. -----	75
S- Mean nutrients intake by Minufiya preparatory school pupils of different sex and site as affected by the family size. -----	75
T- Mean nutrients intake by Minufiya preparatory school pupils of different sex and site as affected by food expenditure. -----	79
V- Some statistically analyzed data -----	79
RECOMMENDATIONS -----	94
