VEGETATION ANALYSIS OF THE CANALS, DRAINS AND LAKES OF THE NORTHERN PART OF NILE DELTA

Thesis

Submitted to the Faculty of Science

Tanta University

For Ph.D. Degree in Botany (Ecology)

By

YASSIN MOHAMED AL-SODANY

B. SC. In Botany (1985) M. Sc. In Botany (1992)

Botany Department Faculty of Science Tanta University

THIS WORK IS DEDICATED TO

MY WIFE AND MY CHILDREN AYA AND ALI

SUPERVISORS

- Prof. Dr. M. N. El-Shourbagy: Prof. of Environmental Physiology, Botany Department, Faculty of Science, Tanta University, Tanta, Egypt.
- Prof. Dr. K. H. Shaltout: Prof. of Plant Ecology, Botany Department, Faculty of Science, Tanta University, Tanta, Egypt.
- Prof. Dr. D. L. Sutton: Prof. of Agronomy, University of Florida, Institute of Food and Agricultural Science, 3205 College Avenue, Fort Lauderdale, FL 33314, USA.
- Dr. H. F. El-Kady: Associate Prof. of Plant Ecology, Botany Department, Faculty of Science, Tanta University, Tanta, Egypt.
- Dr. M. A. Deyab: Lecturer of Plant Physiology, Biology Department, Faculty of Education, Tanta University, Kafr El-Sheikh, Egypt.

Head of Botany Department

Prof. Dr. Abd El-Fattab Badr

This Thesis has not previously been submitted for any degree at this or at any other University

CURRICULUM VITAE

NAME : Yassin Mohamed Al-Sodany

DATE OF BIRTH : 24 / 11 / 1963

LOCALITY : Kafr El-Sheikh, Egypt

NATIONALITY : Egyptian

SOCIAL STATE: Married with two children, Aya and Ali

QUALIFICATIONS:

1985 : B. Sc. Degree (Botany), Botany Department, Faculty of Science, Tanta

University.

1985 - 1992 : Demonstrator in Biology Department, Faculty of Education, Tanta

University, Kafr El-Sheikh.

1992 : M. Sc. Degree in Botany (Ecology), Botany Department, Faculty of

Science, Tanta University.

1992 till now: Assistant Lecturer in Biology Department, Faculty of Education, Tanta

University, Kafr El-Sheikh.

1996 - 1998 : Scholar in University of Florida, Institute of Food and Agricultural

Science, Fort Lauderdale, Florida, USA.

PUBLICATIONS

1- Al-Sodany, Y.M. (1992). Vegetation analysis of the northern part of Nile Delta region. M.Sc. Thesis, Tanta University, Egypt. pp. 122.

- 3- Shaltout, K.H., El-Kady, H.F., and Al-Sodany, Y.M. (1995). Vegetation analysis of the Mediterranean region of Nile Delta. *Vegetatio*, 116: 73 83.
- 4- El-Kady, H.F., Shaltout, K.H., El-Shourbagy, M.N. and Al-Sodany, Y.M. (1996). Types of habitat and vegetation in the Nile Delta. *Flora*. (In Press).

Head of Botany Department

Prof Dr. Abd El-Fattah Badr

ACKNOWLEDGMENTS

I wish to express my deep gratitude and appreciation to Prof. Dr. M. N. El-Shourbagy. Prof. of Environmental Physiology, Faculty of Science, Tanta University, for his supervision and support during the registration of this Thesis.

The author is most grateful to Prof. Dr. K. H. Shaltout, Prof. of Plant Ecology, Faculty of Science, Tanta University, for the suggestion of the problem. His helpful suggestions during the field and laboratory work, statistical analysis, getting of my scholarship and preparation of manuscript are sincerely appreciated.

Sincere thanks are extended to Prof. Dr. D. L. Sutton, Prof. of Agronomy, University of Florida, Institute of Food and Agriculture Science, Fort Lauderdale, Florida, USA, for his guidance through statistical analysis during the scholarship period.

The author is greatly indebted to Dr. H. F. El-Kady, Associate Prof. Of Plant Ecology, Faculty of Science, Tanta University, for his guidance, encouragement and support he offered during the field and laboratory work. Sincere thanks are extended to Dr. M. A. Deyab, Lecturer of Plant Physiology, Biology Department, Faculty of Education, Tanta University, Kafr El-Sheikh for his support during laboratory work.

I wish to express my gratitude to Ms. J. Korvick, technician in the Aquatic Laboratory, University of Florida, Institute of Food and Agricultural Science, Fort Lauderdale, for her help during the Scholarship period. Many thanks are extended to my parents, brothers, and wife, my mother in law, and my colleagues in Botany Department, Faculty of Science, Tanta University and Biology Department, Faculty of Education, Tanta University, Kafr El-Sheikh who in some way or other, have helped me to put this work in the present form.
