Acknowledgement

I would truly like to express my deepest thanks to my supervisors,

I wish to express my deepest thanks and gratitude to Dr. **MOSTAFA KAMAL ELDIN MOHAMMED**, Professor of Community, Environmental and Occupational Diseases at Ain Shams University. His expert guidance and constructive criticism helped me in the progress and performance of this work.

I am greatly indebted for Dr. **Mohammed Ezz-Eldin Azzam** Professor of Obstetrics and Gynecology at Ain Shams University, Director of Unit for Early Cancer Detection for sparing so much of his valuable time, for his invaluable criticism and expert remarks.

I wish to express my deepest gratitude to Dr. **Maged Elsetouhy**, Assistant Professor of Community, Environmental and Occupational Diseases at Ain Shams University who has generously assisted and guided me in carrying out this thesis. It is by virtue of his valuable suggestions and continuous encouragement that the accomplishment of this study was possible.

I would like also to express my appreciation to Nurse staff of Unit for Early Cancer Detection Unit at Obstetrics and Gynecology hospital, Ain Shams

University Hospitals. I sincerely thank all my colleagues working at the unit for their constant help, support and understanding throughout the whole work.

Also I thank the patients who have willingly participated in this study and allowed me to obtain the necessary material for my thesis.

Finally, I thank my parents, who showed me the path that I follow; for my husband, with whom I travel it; and for my children, whose paths await them.
