Alexandria University
Faculty of Agric. (Saba-Bacha)
Soil and Agric. Chemistry Dept.,

**WATER AND FERTILIZER REQUIRMENTS OF RICE
CROP IN SOME SOILS OF DELTA REGION**

A THESIS

**Presented to the Graduate School
Faculty of Agriculture
(Saba-Bacha)
Alexandria University**

**In Partial Fulfillment of the Requirements
For the Degree of**

DOCTOR OF PHILOSOPHY OF AGRICULTURAL SCIENCES

IN

(SOIL & WATER)

BY

**AZMY EL-SHERBENY EL-SHERBENY
EL-SHARABASY**

B

1-00E

2001

Alexandria University
Faculty of Agric. (Saba-Bacha)
Soil and Agric. Chemistry Dept.,

WATER AND FERTILIZER REQUIRMENTS OF RICE CROP IN SOME SOILS OF DELTA REGION

Presented by

AZMY EL-SHERBENY EL-SHERBENY EL-SHARABASY

For the degree of

**DOCTOR OF PHILOSOPHY OF AGRICULTURAL SCIENCE
(SOIL & WATER)**

Examiner's Committee:

Prof. Dr. S.A. Gaheen

Prof. of Soil Science, Faculty of Agriculture,
Kagr El-Sheikh, Tanta University.

Approved

S.A. Gaheen

Prof. Dr. H.A. Zeid

Prof. of Soil Science. Faculty of Agriculture.
Saba-Bacha, Alexandria University

H.A. Zeid

Prof. Dr. M.A. Gomaa

Prof. of Agronomy and Vice Dean for Education
and Students Affairs, Faculty of Agriculture,
Saba-Bacha, Alexandria University.

M.A. Gomaa

Dr. G.A. Sharaf

Associate Prof. of Agricultural Engineering,
Faculty of Agriculture, Saba-Bacha, Alexandria
University.

G.A. Sharaf

ADVISOR'S COMMITTEE

Prof. Dr. M.G. Nasseem

**Prof. and the Chairman of Soil & Agric. Chemistry Dept.,
Fac. of Agric., (Saba Basha),
Alex. University**

Prof. Dr. H.A.A. Zeid

**Prof. of Soil Science
Fac. of Agric., (Saba Basha),
Alex. University**

Dr. Gamal A. Sharaf

**Associate Prof. Of Agricultural Engineering,
Fac. of Agric., (Saba Basha),
Alex. University**

INTRODUCTION	1
REVIEW OF LITRATURE	3
I. Effect of irrigation management on	3
I.1. Growth, yield and yield components of rice.....	3
I.2. Nitrogen, phosphorus and potassium content of rice.....	8
I.3. Effect of different levels of nitrogen, phosphorus and potassium application on	9
I.3.1. Growth, yield and yield components of rice	9
I.3.1.1. Nitrogen.....	9
I.3.1.2. Phosphorus.....	14
I.3.1.3. Potassium.....	15
II. Relationship between fertilizers and yield of rice.....	21
III. Water requirements and consumptive use of rice	22
IV. Effect of paddy cultivation of rice on some chemical properties of soil.....	32
MATERIALS AND METHODS	35
I. Field and pot experiments.....	35
I.1. Location and meteorological features.....	35
I.2. Irrigation treatments.....	35
I.3. Experiment 1 (The effect of water management on rice yield, water consumptive use and water requirements)...	35
I.4. Water requirements and consumptive use of rice.....	36
I.5. Experiment 2 (Effect of water management and different rates of NPK fertilizer on rice)	40
I.6. Experiment 3 (Effect of different levels of nitrogen application on water consumptive use of rice plants under different levels of soil moisture	40
I.7. Fertilization treatments	40
I.7.1. Experiment 1	40
I.7.2. Experiment 2	41
I.7.3. Experiment 3	41
I.8. Experimental design	43
I.8.1. Experiment 1	43
I.8.2. Experiment 2	43
I.8.3. Experiment 3	43

	Page No.
I.9. Cultural practices	43
I.9.1. Experiment 1 and 2	43
I.9.2. Experiment 3	45
I.10. Yield and its components	45
II. Plant analysis	47
III. Soil analysis	47
IV. Statistical analysis.....	50
RESULTS AND DISCUSSION	51
I.1. Effect of irrigation treatments on	53
I.1.1. Percentage of filled grains and 1000-grain weight...	53
I.1.2. Grain and straw yield of rice	53
I.1.3. Concentration of nitrogen in grains	58
I.1.4. Concentration of phosphorus in grains	60
I.1.6. Concentration of N, P and K in straw	60
I.1.7. Evaporation, Transpiration and Percolation	62
I.2. Potential Evapotranspiration	62
I.3. Rice crop coefficient	65
I.4. Water use efficiency	65
I.5. Soil chemical properties	71
II.1. Main effect of irrigation treatments	77
II.1.1. Percentage of filled grains and 1000-grain weight...	77
II.1.2. Grain and straw yields	81
II.1.3. Nitrogen uptake	81
II.1.4. Phosphorus uptake	88
II.1.5. Potassium uptake	92
II.2. Main effect of NPK fertilizer rates	92
II.2.1. Effect of nitrogen levels	92
II.2.1.1. Percentage of filled grains and 1000-grain weight	92
II.2.1.2. Grain and straw yield	99
II.2.1.3. Nitrogen use efficiency	105
II.2.1.4. Nitrogen uptake and recovery	105
II.2.1.5. Uptake of phosphorus and potassium.....	110
II.2.2. Effect of phosphorus levels	120
II.2.2.1. Percentage of filled grain and 1000-grain weight	120
II.2.2.2. Grain and straw yields	120
II.2.2.4. Phosphorus and recovery of rice	129
II.2.2.5. Uptake of nitrogen and potassium	129

	Page No.
II.2.3. Effect of potassium levels	141
II.2.3.1. Percentage of filled grains and 1000-grain weight	141
II.2.3.2. Grain and straw yields of rice	141
II.2.3.3. Potassium use efficiency	150
II.2.3.4. Potassium uptake and recovery of rice.....	152
II.2.3.5. Uptake of N and P of rice	157
III.1. Grain yield	165
III.2. Nitrogen concentration in rice shoots	169
III.3. Water consumptive use of rice	169

ARABIC SUMMARY	

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

I wish to express my faithful gratitude to Dr.M.G.Nasseem, Prof. And the Chairman of Soil & Agric. Chemistry Dept., Fac. Of Agric. (Saba Basha), Alexandria University, for keen supervision, great help, guidance and continued assistance in writing and preparing the thesis.

Great thanks are also to Dr. H.A. A. Zeid, Prof. of soil science, Soil & Agric. Chemistry Dept., Fac. Of Agric. (Saba Basha), Alexandria University, for his assistance and encouragement during this work.

The author is also grateful to Dr. Gamal A. Sharaf Associate Prof. of Agric. Engineering, Fac. Of Agric. (Saba Basha), Alexandria University, for his continuous help throughout this work.

Also, I wish to express my particular and grateful thanks to my parents, all my brothers and my wife , who helped me to continue my research study and complete this thesis. To them I dedicate this thesis.

INTRODUCTION
