# ACKNOWLEDGEMENT

By completing this thesis, I feel that it is important to thank all my Professors for their great help and encouragement.

I would like to express my deep gratitude to Professor Aly Massoud, Professor of Community, Environmental and Occupational Medicine, Ain-Shams University, for his generous help and kind supervision.

I am deeply grateful to Professor Dr. Sohair Salem, Prof. of Nutritional Biochemistry, National Research Center, for her great patience, valuable suggestions, instructive supervision and encouragement.

I am also thankful for Dr. Ahmed Kamel Mortagy, Prof. of Community, Environmental and Occupational Medicine, Ain-Shams University, for his kind supervision and precious advice.

My deep thanks to Dr. Kadry El Massry, Ass. Professor in Child Health Department, National Research Center, for his co-operation and support.

I am also very grateful to Dr. Azza Aly Gabber, Researcher in Child Health Department, National Research Center, for her sincere, honest advice and for her comprehensive help in establishment and finishing our work.

I would like to express my thanks to Dr. Salwa El-Housseiny Prof. of Biochemistry, Child Health Department, National Research Center, for her continuous encouragement and unlimited help.

My thanks to all my colleagues of Child Health Department for their cooperation and support.
