Dedication

To my Family

ACKNOWLEDGEMENT

I would like to express my utmost thanks and gratitude to **Prof. Dr. Nancy Abd El Aziz Soliman**, Professor of Pediatrics, Ain Shams University, who endeavoured to provide incalculable assistance guiding every step of this work. Her patience, generous support and indispensable encouragement, enlightened the way throughout this thesis. It is an honor working under her kind supervision.

I am very grateful to **Prof. Dr. Ali Khalifa Ali**, Professor of Biochemistry and Head of Oncology Diagnostic Unit, Ain Shams University, who granted me valuable time for careful revision, helpful discussion, and expertise assistance all the way.

I am greatly indebted to **Dr. Nehal Mohamed El Raggal**, Lecturer of Pediatrics, Ain Shams University, to whom I owe more than words can say. She afforded untold hours, diligent effort, endless support, and continuous encouragement, to clarify and make this work possible.

My deep thanks to **Dr. Maha Emam Ahmed**, Assistant Professor of Biochemistry, Ain Shams University, for her great effort, experience and guidance contributing to the practical part of this thesis.

I would like to extend my thanks and appreciation to chemist **Amany Maher**, Oncology Diagnostic Unit, for her valuable contribution in the laboratory work ; to **Dr. Nibal Fahmy**, for her effort in providing the laboratory material; to the **medical and nursing staff** of Neonatal Intensive Care Unit "Pediatrics", "Gynecology & Obstetrics" Ain Shams University hospitals, for their kind cooperation.

I am cordially grateful to my **Professors and my colleagues** in the pediatric department, for their limitless help and encouragement that they have readily offered. To them I owe a lot.

No words could adequately express my deep appreciation to my **family**, for their overwhelming support and guidance. I shall remain indebted to them all my life.

Special thanks to my **patients**, wishing them a happy and healthy life.

LIST OF CONTENTS

Introduction	1
Aim of the work	3
Review of literature	
• Epidermal growth factor	5
• Prematurity	55
• Respiratory distress syndrome	67
• Surfactant	83
• Steroids	97
• Mechanical ventilation	103
Subjects and Methods	115
Results	131
Discussion	163
Summary & Conclusion	191
Recommendations	195
References	197
Appendix I & II
