List of Abbreviations

CDC	Centers for Disease Control and Prevention
HBV	Hepatitis B Virus
HCP	Healthcare Personnel
HCAIs	Health care associated infections
HCV	Hepatitis C Virus
HIV	Human Immunodeficiency Virus
MOHP	Ministry of health and population
OT	Operating Theater
WHO	World Health Organization

List of Figures

Fig. No.	Title	Page No.
Figures in Review		
1	Chain of Infection.	10
2	Hepatitis B transmission.	13
3	Causes of sharps injuries in Egypt.	22
4	Examples of personal protective equipments.	31
5	Hand washing steps.	35
6	Alcohol based hand rubs.	36
7	Steps of medical-waste management.	50
8	Waste transportation.	52
9	Incinerator.	53
10	Drum incinerator.	54
Figures in Results		
1	Distribution of workers according to their correct knowledge about infection control measures.	75
2	Distribution of workers according to their compliance to infection control measures.	78
4	Relation between workers knowledge and their compliance to infection control measures.	84

List of Tables

Table No.	Title	Page No.
Table in Review		
1	Five Ways Microorganisms and Virus are Spread.	7
2	Commonly Used Disinfectants.	27
3	Standard Precaution Guideline.	29
Table in Results		
1	Distributions of workers according to their socio-demographic characteristic (n=63).	63
2	Distribution of workers according to their work place in outpatient clinics, received training, vaccination and work experience (n=63).	65
3	Distributions of workers according to working hours, absenteeism's and work problems (n=63).	67
4	Distribution of infection control supplies and measures in out patient clinics of the three settings.	68
5	Distributions of workers according to reported health problems (n=63).	71
6	Distributions of workers according to their exposers to work needles stick injuries (n=63).	72
7	Distribution of workers according to their correct knowledge about infection control measures (n=63).	73

8	Distribution of workers according to their compliance to infection control measures (n=63).	76
9	Distribution of workers according to their compliance to personal hygiene (n=63).	79
10	Relation between compliance of workers to the infection control measures and their socio-demographic characteristics.	80
11	Relation between workers compliance to infection control measures and their working condition.	81
12	Relation between workers knowledge and their socio-demographic characteristics.	82
13	Relation between workers knowledge and working condition.	83
