FIBRINOGEN AS A RISK FACTOR OF CORONARY HEART DISEASE

THESIS

**Submitted in Partial Fulfillment
For
Master Degree in Cardiology**

BY

**VIVIAN FAROUK MIKHAEL
M.B., B.CH.**

SUPERVISED BY

**Professor Dr.
SALWA SUWAILLAM**

**Professor of Cardiology
Faculty of Medicine
Ain Shams University**

Dr. SALAH DEMERDASH

**Lecturer of Cardiology
Faculty of Medicine
Ain Shams University**

Dr. TAREK KHAIRY

**Lecturer of Cardiology
Faculty of Medicine
Ain Shams University**

**Faculty of Medicine
Ain Shams University
2002**

LIST OF TABLES

<u>Tables</u>	<u>Page</u>
Tab. (1) Age distribution in both ischemic and control groups.	52
Tab. (2) Sex distribution in ischemic patients and normal controls.	53
Tab. (3) Weight in kgm in both ischemic and control groups.	54
Tab. (4) Coronary artery affection in MPI.	54
Tab. (5) Fibrinogen level (gm/dl) in both ischemic and control groups.	55
Tab. (6) Sex distribution regarding level of plasma fibrinogen in ischemic group.	56
Tab. (7) Relationship between fibrinogen level and smoking in ischemic group.	57
Tab. (8) Relationship between fibrinogen level and smoking in control group.	58
Tab. (9) Relationship between fibrinogen level and diabetes mellitus in ischemic group.	59
Tab. (10) Relationship between fibrinogen level and diabetes mellitus in control group.	59
Tab. (11) Relationship between fibrinogen level and F.H of IHD in ischemic group.	60
Tab. (12) Relationship between fibrinogen level and F.H of IHD in control group.	61
Tab. (13) Relationship between physical activity and fibrinogen level in ischemic group.	62

Tab. (14) Relationship between physical activity and fibrinogen level in control group.	63
Tab. (15) Relationship between plasma fibrinogen and cholesterol in ischemic group.	63
Tab. (16) Relationship between plasma fibrinogen and cholesterol in control group.	64
Tab. (17) Relationship between plasma fibrinogen and hypertension in ischemic group.	65
Tab. (18) Relationship between plasma fibrinogen and hypertension in control group.	66

Acknowledgements

express.

I would like to offer my deep thanks to Professor Dr. Salwa Suwaillam, Professor of Cardiology, Faculty of Medicine, Ain Shams University, for her continuous support and expert advice helped me greatly in completion of this work.

I am also so grateful to Dr. Salah Demerdash, Lecturer of Cardiology, Faculty of Medicine, Ain Shams University, and also Dr. Tarek Khairy, Lecturer of Cardiology, Faculty of Medicine, Ain Shams University, for their generous help and valuable advises throughout this work.

Finally, I wish to extend my thanks to my family for their encouragement and assistance in the completion of this work.

INTRODUCTION
