**EVALUATION OF THE ROLE OF ANTIFIBROTIC
DRUGS AS COLCHICINE AND ANTIOXIDANTS
AS VITAMIN-E IN COMBINATION WITH
PRAZIQUANTEL IN TREATMENT OF
HUMAN S. MANSONI**

A Thesis

*Submitted to The Faculty of Pharmacy
University of Tanta*

BY

MERVAT ABD EL-WAHAB EL-ADL

*For The Partial Fulfillment for The Degree of
Master in Pharmaceutical Sciences
(Clinical Pharmacy)*

**UNIVERSITY OF TANTA
FACULTY OF PHARMACY
2002**

قَالَ لَا إِلَهَ إِلَّا اللَّهُ مُحَمَّدٌ عَبْدُهُ وَرَسُولُهُ
أَشْهَدُ أَنْ لَا إِلَهَ إِلَّا اللَّهُ وَأَشْهَدُ أَنَّ مُحَمَّدًا عَبْدُهُ وَرَسُولُهُ

أَشْهَدُ أَنْ لَا إِلَهَ إِلَّا اللَّهُ وَأَشْهَدُ أَنَّ مُحَمَّدًا عَبْدُهُ وَرَسُولُهُ

صدق الله العظيم

(سورة البقرة)

SUPERVISORS

Prof. Dr. WAGEH MAHMOUD AWARA

Professor of Pharmacology,
Department of Pharmacology and Toxicology,
Faculty of Pharmacy, Tanta University.

Prof. Dr. AHMED ABD ELRAHMAN DAOUD

Professor of Parasitology,
Department of Parasitology,
Faculty of Medicine, Tanta University.

Dr. OSAMA MOHAMED IBRAHIM

Assistant Professor of Clinical Pharmacy, and
Chairman of Clinical Pharmacy Department,
Faculty of Pharmacy, Tanta University.

Dr. HOWAIDA ISMAIL HUSSEIN

Lecturer of Parasitology,
Department of Parasitology,
Faculty of Medicine, Tanta University.

APPROVAL SHEET

This Thesis has been approved by the examination committee
on date 12/8/2002.

Prof. Dr. SABER A. ISMAIL

Professor of Tropical Medicine,
Faculty of Medicine, Tanta University.

Prof. Dr. EL-SHAZLY A. SHETA

Professor of Tropical Medicine,
Faculty of Medicine, Tanta University.

Prof. Dr. AHMED A. DAOUD

Professor of Parasitology,
Department of Parasitology,
Faculty of Medicine, Tanta University.

Prof. Dr. WAGEH M. AWARA

Professor of Pharmacology,
Department of Pharmacology and Toxicology,
Faculty of Pharmacy, Tanta University.

Dr. OSAMA M. IBRAHIM

Assistant Professor & Chairman of Clinical Pharmacy Dept.
Department of Clinical Pharmacy,
Faculty of Pharmacy, Tanta University.

ACKNOWLEDGEMENTS

First, thanks are all to ALLAH for blessing me throughout this work until it reaches its end, as a little part of his generous help throughout life.

*I would like to express my sincere appreciation and deep gratitude to Professor Dr. **Wageh Awara**, Professor of Pharmacology and Vice-Dean for Education and student's affairs, Faculty of Pharmacy, Tanta University, for his active supervision and his kindness and support throughout the work. His tremendous effort in the revision of the whole work is appreciated.*

*I am profoundly grateful to Professor Dr. **Ahmed Daoud**, Professor of Parasitology, Faculty of Medicine, Tanta University, for suggesting the subject and for his active supervision and his great assistance and continuous encouragement.*

*My deepest appreciation and grateful thanks are due to Dr. **Osama Ibrahim**, Assistant Professor and Head of Department of Clinical Pharmacy, Tanta University, for suggesting the subject and for his active supervision. He patiently devotes much of his time and effort to give me help during this work. His tremendous effort in the revision of the whole work is appreciated.*

*I am especially grateful to Dr. **Howaida Ismail**, lecturer of Parasitology, Faculty of Medicine, Tanta University, for her valuable instructions and great helpful during this work.*

*It gives me a great pleasure to express my sincere gratitude to professor Dr. **Mokhtar Mabrouk**, Professor of Analytical Chemistry, and Vice-Dean for graduate studies and research, Faculty of Pharmacy, Tanta University, for his great support and helpful cooperation during this work.*

List of Figures

	Page
Figure (1): The life cycle of the <i>Schistosoma mansoni</i> .-----	6
Figure (2): A vein dilated in a nodular fashion by the presence of multiple <i>Schistosoma mansoni</i> ova. -----	14
Figure (3): <i>Schistosoma mansoni</i> egg in liver granuloma.-----	15
Figure (4): Extracellular matrix distribution in human liver.-----	16
Figure (5): The structure of Praziquantel.-----	32
Figure (6): The structure of Colchicine.-----	40
Figure (7): Chemical structure of Vitamin-E.-----	44
Figure (8): Standard Curve of Praziquantel by HPLC.-----	64
Figure (9): Chromatogram of Praziquantel by HPLC-----	65
Figure (10): Schematic representation of the amino terminal fragment of type III procollagen.-----	67
Figure (11): Calibration curve of procollagen type III amino terminal propeptide by radioimmunoassay RIA.-----	72
Figure (12): Mean serum Praziquantel concentration in patients of the three studied groups two hours after treatment.-----	83
Figure (13): Percent of negative stool egg after raziquantel treatment.-----	87
Figure (14): The percentage of positive <i>Schistosoma mansoni</i> eggs in stool before and two months after Praziquantel treatment in the studied groups.-----	88
Figure (15): Efficacy of Praziquantel as evaluated by egg count percent reduction.-----	90
Figure (16): Viable <i>Schistosomamansoni</i> ova with lateral spine.-----	91
Figure (17): Serum circulating <i>Schistosoma mansoni</i> antigen before and two months after Praziquantel treatment. -----	93
Figure (18): Reduction in serum circulating <i>Schistosoma mansoni</i> antigen in the studied groups after Praziquantel treatment.-----	94
Figure (19): Mean serum Procollagen type III amino terminal propeptide concentration before and after treatment in the three studied groups.-----	98
Figure (20): Reduction of serum procollagen concentration two months after different treatments in the studied groups----	100

List of tables

	Page
Table (1): Products studied and dosage regimen.-----	56
Table (2): Age, weight and sex distribution of the studied groups---	81
Table (3): Concentration of serum Praziquantel ($\mu\text{g/mL}$) at two hours after drug administration in the three studied groups.-----	82
Table (4): Number and percentage of the reported side effects following Praziquantel treatment of all groups.-----	84
Table (5): Efficacy of Praziquantel as evaluated by stool analysis--	85
Table (6): Comparison between pre-treatment and post-treatment positive <i>Schistosoma mansoni</i> eggs in stool of patients in the studied groups-----	86
Table (7): The total number and percent reduction of <i>Schistosoma mansoni</i> egg per gram of feces two months after treatment in group I, II and III-----	89
Table (8): Efficacy of Praziquantel as evaluated by the serum circulating <i>Schistosoma mansoni</i> antigen before and two months after treatment in groups I, II and III.-----	92
Table (9): Concentration of serum procollagen type III amino terminal propeptide ($\mu\text{g/L}$) before and after treatment in group I patients.-----	95
Table (10): Concentration of serum Procollagen ($\mu\text{g/L}$) before and after treatment in group II patient.-----	96
Table (11): Concentration of serum Procollagen type III amino terminal propeptide ($\mu\text{g/L}$) before and after treatment in group III patients.-----	97
Table (12): Effect of Praziquantel, Colchicine and Vitamin-E on serum procollagen type III amino terminal propeptide concentration.-----	99
