Alexandria University
Faculty of Agriculture
(Saba Basha)
Plant Production Department

A COMPARATIVE STUDY OF BIO-ORGANIC FERTILIZATION ON SOME BARLEY CULTIVARS

A thesis

Presented To the Graduate School
Faculty of Agriculture (Saba Basha), Alexandria University
In Partial Fulfillment of the Requirements for the Degree of

Master of Agricultural Sciences

In

(AGRONOMY)
Department of Plant Production

By

Ibrahim Faraj Mohamed Mussa

Faculty of Agriculture
(Saba Basha)
Alexandria University
2010

Alexandria University
Faculty of Agriculture
(Saba Basha)
Plant Production Department

A COMPARATIVE STUDY OF BIO-ORGANIC FERTILIZATION ON SOME BARLEY CULTIVARS

Presented by

IBRAHIM FARAJ MOHAMED MUSSA

For the degree of

MASTER OF AGRICULTURAL SCIENCES
(AGRONOMY)

Examiner's Committee:

Approved

Prof. Dr. Ibrahim Fatthalla Rehab
Professor of Agronomy and Dean
Faculty of Agriculture (Saba Bacha),
Alexandria University

I. F. Rehab

Prof. Dr. Fathi Ibrahim Radwan
Professor of Agronomy and Head of Plant Production Department
Faculty of Agriculture (Saba Bacha),
Alexandria University

F. I. Radwan

Prof. Dr. Mahmoud Abdel-Aziz Gomaa
Professor of Agronomy
Faculty of Agriculture (Saba Bacha),
Alexandria University

M. A. Gomaa

Prof. Dr. Shaaban Ahmed Aly El-Shamarka
Professor of Agronomy
Faculty of Agriculture, Shebin El-Kom,
Menoufia University

S. Shamarka

Dr. Mohamed Ahmed Abdel-Gawad Nassar
Associate Professor of Agronomy Plant Production Department
Faculty of Agriculture (Saba Bacha),
Alexandria University

M A A Nassar

Advisor's Committee:

Prof. Dr. Ibrahim Fatthalla Rehab I. F. Rehab
Professor of Agronomy and Dean
Faculty of Agriculture (Saba Bacha),
Alexandria University

Prof. Dr. Fathi Ibrahim Radwan F. I. Radwan
Professor of Agronomy and Head of Plant Production Department
Faculty of Agriculture (Saba Bacha),
Alexandria University

Dr. Mohamed Ahmed Abdel-Gawad Nassar M A A Nassar
Asscoiate Professor of Agronomy Plant Production Department
Faculty of Agriculture (Saba Bacha),
Alexandria University

CONTENTS

Chapter	Page
1. Introduction	1
2. Review of Literature	2
2-1 Cultivars performance	2
2-2 Organic – biofertilizers effects	5
3. Material and Methods	12
3-1 Growth attributes	14
3-2 Yield and yield component	15
3-3 Grain analysis	15
4. Results & Discussion	16
4-1 Growth attributes	16
4-2 Yield and yield components	22
4-3 Grain analysis	31
5. Summary	34
6. Conclusions	37
7. References	38
8. Arabic summary	

List of Tables

No.		Page
1	**Table (1):** Physical and chemical soil properties of the experimental field.	13
2	**Table (2):** Composition of cheep manure.	13
3	**Table (3):** Plant height (cm) as affected by some barley cultivars and organic with bio-fertilization at three growth stages in 2008/2009 and 2009/2010 seasons.	16
4	**Table (4):** Dry matter accumulation (g/m^2) as affected by three cultivars and organic with bio-fertilization at three growth stages in 2008/2009 and 2009/2010 seasons.	17
5	**Table (5):** Leaf area index (LAI) as affected by some barley cultivars and organic with bio-fertilization at different growth stages in 2008/2009 and 2009/2010 seasons.	18
6	**Table (6):** Crop growth rate (gm/m^2/week) as affected by three cultivars and bio and organic fertilizers at two periods in 2008/2009 and 2009/2010 seasons.	19
7	**Table (7):** Relative growth rate (gm/m^2/week) as affected by three cultivars and bio and organic fertilizers at two period's growth in 2008/2009 and 2009/2010 seasons.	20
8	**Table (8):** Chlorophyll "A+B" as affected by some barley cultivars and organic with bio-fertilization at three growth stages in 2008/2009 and 2009/2010 seasons	21
9	**Table (9):** Plant height at harvest (cm) as affected by some barley cultivars and organic with bio-fertilizers in 2008/2009 and 2009/2010 seasons	22
10	**Table (10):** Spike length (cm) as affected by some barley cultivars and organic with bio-fertilizers in 2008/2009 and 2009/2010 seasons	23
11	**Table (11):** Number of grains / spike as affected by some barley cultivars and organic with bio-fertilizers in 2008/2009 and 2009/2010 seasons.	24
12	**Table (12):** Number of Spikes / m^2 as affected by some barley cultivars and organic with bio-fertilizers in 2008/2009 and 2009/2010 seasons	25
13	**Table (13):** Interaction between three barley cultivars and bio-organic fertilization on number of Spikes / m^2 in 2008/2009 seasons.	26
14	**Table (14):** Weight of 1000-grains (gm) as affected by some barley cultivars and organic with bio-fertilizers in 2008/2009 and 2009/2010 seasons.	27
15	**Table (15):** Interaction between three barley cultivars and bio-organic fertilization on 1000-grain weight (g) in 2008/2009 seasons.	28
16	**Table (16):** Grain yield (ardab/fed.,) as affected by some barley cultivars and organic - bio-fertilizers in 2008/2009 and 2009/2010 seasons	29
17	**Table (17):** Straw yield (C/fed.,) as affected by some barley cultivars and organic with bio-fertilization in 2008/2009 and 2009/2010 seasons.	30
18	**Table (18):** Crude protein as affected by some barley cultivars and organic with bio-fertilization in 2008/2009 and 2009/2010 seasons	31
19	**Table (19):** Nitrogen, Phosphorus and Potassuim as affected by some barley cultivars and organic- bio-fertilizer in 2008/2009 and 2009/2010 seasons	33
