

Serum Magnesium and Calcium Levels in Preeclamptic Women

Thesis

*Submitted for partial fulfillment of master degree in
Obstetrics and Gynecology*

Presented by

Reham Fekry Swellam Ali
M.B.,B.Ch Ain Shams University 2007

Under supervision of

Prof. Mounir Mohammed Fawzy Elhao

*Professor of Obstetrics and Gynecology
Faculty of Medicine- Ain Shams University*

Prof. Sherif Fekry Hendawy

*Professor of Obstetrics and Gynecology
Faculty of Medicine-Ain Shams University*

Dr. Sherif Hanafi Hussein

*Lecturer of Obstetrics and Gynecology
Faculty of Medicine-Ain Shams University*

**Faculty of Medicine
Ain Shams University
2014**

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Acknowledgement

First, thanks are all due to Allah for Blessing this work until it has reached its end, as a part of his generous help throughout our life.

My profound thanks and deep appreciation to Prof. Mounir Mohammed Fawzy Elhao, Professor of Obstetrics and Gynaecology, Faculty of Medicine, Ain Shams University for his great support and advice, his valuable remarks that gave me the confidence and encouragement to fulfill this work,

I am deeply grateful to Prof. Sherif Fekry Hendawy, Professor of Obstetrics and Gynaecology, Faculty of Medicine, Ain Shams university for adding a lot to this work by his surgical experience and for his keen supervision.

I am also thankful to Dr. Sherif Hanafi Hussein, Lecturer of Obstetrics and Gynaecology, Faculty of Medicine, Ain Shams University for his valuable supervision, co-operation and direction that extended throughout this work,

I am want also to thank my family for supporting me throughout my life.

Reham Fekry Swellam Ali

Acknowledgment	--
List of abbreviations	i
List of figures	ii
List of tables	viii
Protocol	-
Introduction	1
Aim of the work	3
Review of literature:	
Chapter 1: Pre-eclampsia	4
Chapter 2: Magnesium homeostasis	30
Chapter 3: Calcium homeostasis	40
Chapter 4: Magnesium and Calcium in pre-eclampsia	49
Patients and methods	54
Results	62
Cases of the study	123
Discussion	126
Summary	139
Conclusion	143
Recommendation	144
References	145
Arabic summary	--

List of Abbreviations

ALT	: Alanine amino transeferase
aPTT	: Activated partial thromboplastin time
AST	: Aspartate amino transeferase
CASR	: Calcium sensing rsceptor
DBP	: Diastolic blood pressure
DCT	: Distal convoluted tubules
EDTA	: Ethylenediaminetetra-acetic acid
EGF	: Epithelial growth factor
HCG	: Human chorionic gonadotropin
HELLP	: Hemolysis, Elevated liver enzymes, low platelets
HSH	: Hypomagnesemia with secondary hypocalcemia
LDH	: Lactate dehydrogenase
NO	: Nitric oxide
PCT	: Proximal convoluted tubules
PIH	: Pregnancy induced hypertension
PLGF	: Placental growth factor
PTH	: Parathyroid hormone
PT	: Prothrombin time
SBP	: Systolic blood pressure
sENG	: Soluble endogen
sFLT-1	: Soluble fms like tyrosine kinase-1
TAL	: Thick ascending limb
TGF-beta	: Transforming growth factor- beta
TMA	: Thrombotic micro-angiopathy
TRP	: Transient receptor potential
TRPM6	: Transient receptor potential M6
VEGF	: Vascular endothelial growth factor

List of Figures
