Acknowledgement

I would like to express my deepest gratitude to **Professor Dr. Medhat El Mofty**, Head of Phototherapy Unit, Dermatology Department, Faculty of Medicine, Cairo University for his kind meticulous scientific supervision and advice throughout this work.

It has been a great honor to proceed this work under the supervision of **Dr. Wedad Zoheir Mostafa, Professor of Dermatology, Faculty of Medicine, Cairo University**. I am greatly indebted to her for suggesting and planning the subject, supervising the whole work, reading and criticizing the manuscript. I will never forget her unlimited help, continuous support, kind encouragement, constructive criticism and wise guidance. To her words of praise are not sufficient and I am really greatly indebted to her.

I am most grateful to **Dr. Samia Esmat**, Assistant Professor of Dermatology, Faculty of Medicine, Cairo University for her kindness and her generosity with time, advice, experience and assistance.

I am also most grateful to **Professor Dr. Magda Assaf**, Professor of Pathology, Faculty of Medicine, Zagazig University for her continuous supervision and her technical advice, which helped me to complete this work.

I would like to express my deep obligation to **Dr. Mona El Fangary**, for her kind assistance.

Dr. Hanan H.A. Elsadawy

Introduction & Aim of the work.....	1
-------------------------------------	---

Review of Literature

Pityriasis rosea: Historical approach.....	3
Etiology & Pathogenesis.....	5
Clinical picture.....	17
Prognosis & Complications.....	32
Treatment.....	43
Patients and Methods.....	73
Results with tables, graphs and photos.....	80
Discussion.....	113
Summary and Conclusion.....	121
References.....	124
Arabic Summary.....	

List of tables

Table I	Anatomical sites of herald patch	21
Table II	The occurrence percentage of PR on scalp.	27
Table III	The occurrence percentage of PR on face.	28
Table IIII	The main differences between UVA and UVB	51
Table 1	Clinical data among studied patients	91
Table 2	PRSS assessment among studied patients (group A)	92
Table 2	PRSS assessment among studied patients (group B) Continued	93
Table 3a	UV cumulative dose at initial response and complete resolution (group A)	94
Table 3b	UV cumulative dose at initial response and complete resolution (group B)	94
Table 3c	T. test comparing cumulative dose among different treatment modalities	94
Table 4	Comparison of PRSS among group A (BB UVB versus UVA)	95
Table 5	Comparison of PRSS among group B (NB UVB versus UVA)	96
Table 6	PRSS among different treatment modalities	97
Table 7	T. test comparing UVA results (PRSS) in the 2 studied groups	98
