

***Effect of Simvastatin On The Extraction Socket Healing In
Prednisolone Induced Osteoporotic Mandible Of Albino Rat***

(Histological and Immunohistochemical study)

Thesis

Submitted to Faculty of Dentistry Ain Shams University
in partial fulfillment of the requirements for
Master Degree in Oral Biology

By

Asmaa Ahmed Foad Fahem

B.D.S (Faculty of Dentistry-Ain Shams University- 2006)
Demonstrator of Oral Biology,
Faculty of Dentistry-Ain Shams University,

Supervisors

ASS. PROF. DR. RANIA MOSSAD HASSAN

Assistant. Professor of Oral Biology

Faculty of Dentistry Ain Shams University

Co- Supervisor

DR. KHALED EI- SAYED NOUR EL HADDAD

Lecturer of Oral Biology

Faculty of Dentistry Ain Shams University

Faculty of Dentistry

Ain Shams University

2015

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْحَكِيمُ

صدق الله العظيم

سورة البقرة- الآية 32

Acknowledgement

All praise is to Allah and all thanks. He has guided and enabled me by his mercy to fulfill this thesis which I hope to be beneficial for people.

I would like to express my deepest gratitude to **Dr. Rania Mossad Hassan**, Assistant. Professor of Oral Biology, Ain Shams University for continuous encouragement, her kind support and constructive advice that guided me to accomplish this work.

Special thanks are extended to **Dr. Khaled El- Sayed Nour El Haddad** lecturer of Oral Biology, faculty of dentistry, Ain Shams University who freely gave me his time, effort and experience with continuous guidance throughout this work.

Finally, I am thankful to all members of Oral Biology department, faculty of dentistry, Ain Shams University for supporting and helping me.

Dedication

To my parents.

To my husband Amr.

To my kids Reem and Abd El Rahman.

To my best friends Hend al messairy and Enjy Gaber.

LIST OF CONTENTS

ITEM	PAGE
INTRODUCTION	1
REVIEW OF LITERATURE	5
• OSTEONECTIN	15
• ALVEOLAR BONE	18
• OSTEOPOROSIS	22
• CORTICOSTEROIDS	28
• STATINS	33
AIM OF THE STUDY	38
MATERIALS AND METHODS	39
RESULTS	
• HISTOLOGICAL RESULTS	46
• IMMUNOHISTOCHEMICAL RESULTS	58
• STATISTICAL RESULTS	64
DISCUSSION	106

SUMMARY	113
CONCLUSIONS AND RECOMMENDATIONS	119
REFERENCES	120
ARABIC SUMMARY	-

LIST OF ABBREVIATIONS

Abbreviation	Meaning
ATP ase	Adenosine Triphosphatase
BMPs	Bone morphogenic proteins
BMUs	Bone multicellular units
BMD	Bone mineral density
CEJ	Cementoenamel junction
GTP	Guanosine-5'-triphosphate
H&E	Haematoxylin & Eosin
HMG-CoA	3-hydroxy-3-methylglutaryl-coenzyme A
MMPs	Matrix metalloproteinase
mRNA	Messenger Ribonucleic acid
OVX	Overictomized
PDL	Periodontal ligament
Pred	Prednisolone

PTH	Parathormone hormone
Sim	Simvastatin
SPARC	Secreted protein acidic rich in cysteine
TRAP	Tartrate resistant acid phosphatase
VEGF	Vascular endothelial growth factor
α	Alpha
β	Beta

LIST OF FIGURES

Fig. No.	Title	Page
1	A photo showing extraction of lower first molar of sedated rat using pedodontic forceps.	41
2	A photomicrograph of the extraction socket of the subgroup IA (H&E original magnification x160)	48
3	A higher magnification of the previous figure (H&E original magnification x400)	48
4	A photomicrograph of the border of the socket wall in Subgroup IA (H&E original magnification x400)	49
5	A photomicrograph of the extraction socket in Subgroup IB (H&E original magnification x160)	49
6	A higher magnification of the previous photo (H&E original magnification x400)	50
7	A photomicrograph of the extraction socket in subgroup II A (H&E original magnification x160)	52

8	A higher magnification of the previous figure (H&E original magnification x400)	52
9	A photomicrograph of the extraction socket in subgroup IIB (H&E original magnification x160)	53
10	A higher magnification of the previous figure (H&E original magnification x400)	53
11	A photomicrograph of the extraction socket in subgroup IIIA (H&E original magnification x160)	55
12	A higher magnification to the previous picture (H&E original magnification x400)	55
13	A photomicrograph of the extraction socket in subgroup IIIA (H&E original magnification x400)	56
14	A higher magnification to the previous picture (H&E original magnification x400)	56
15	A photomicrograph of the extraction socket in subgroup IA (osteonectin original magnification x1000)	57

16	A photomicrograph of the extraction socket in subgroup IB (osteonectin original magnification x1000)	59
17	A photomicrograph of the extraction socket in subgroup IIA (osteonectin original magnification x1000)	60
18	A photomicrograph of the extraction socket in subgroup IIB (osteonectin original magnification x1000)	62
19	A photomicrograph of the extraction socket in subgroup IIIA (osteonectin original magnificationx1000)	62
20	A photomicrograph of the extraction socket of subgroup IIIB (osteonectin original magnification x1000)	64
21	A photomicrograph of the extraction socket of subgroup IIIB (osteonectin original magnification x1000)	65
22	Bar chart showing the difference in mean values of the percentage of new bone in 10 days and 21 days periods of group I.	69

23	Bar chart showing the difference in mean values of the percentage of new bone in 10 and 21 days periods of group II.	70
24	Bar chart showing the difference in mean values of the percentage of new bone in 10 and 21 periods of group III.	71
25	Bar chart showing the difference in mean values of the percentage of the new bone in group I, II and III at 10 days.	73
26	Bar chart showing the difference in mean values of the percentage of the new bone in group I, II and III at 21 days.	76
27	Bar chart showing the difference in mean values of osteoclast number at 10 and 21 days periods in group I.	79
28	Bar chart showing the difference in mean values of the osteoclast number at 10 and 21 days periods in group II.	80

29	Bar chart showing the difference in mean values of the osteoclast number at 10 and 21 days periods in group III.	81
30	Bar chart showing the difference in mean values of the osteoclast number in group I, II and III at 10 days.	83
31	Bar chart showing the difference in mean values of the active osteoclast number in group I, II and III at 21 days.	86
32	Bar chart showing the difference in mean values of osteocytes number at bone trabeculae at control, prednisolone and simvastatin group at 21 days.	89
33	Bar chart showing the difference in mean values of the recent osteocytes number at 10 and 21 days periods of group I.	92
34	Bar chart showing the difference in mean values of the recent osteocytes number at 10 and 21 days periods in group II.	93

35	Bar chart showing the difference in mean values of the recent osteocytes number at 10 and 21 days periods in group III.	94
36	Bar chart showing the difference in mean values of the recent osteocytes number in group I, II and III at 10 days.	96
37	Bar chart showing the difference in mean values of the recent osteocytes number in group I, II and III at 21 days.	99
38	Bar chart showing the difference in mean values of the active osteoblasts number in 10 and 21 days periods of group I.	101
39	Bar chart showing the difference in mean values of the active osteoblasts number in 10 and 21 days periods of group II.	102
40	Bar chart showing the difference in mean values of the active osteoblasts number in 10 and 21 days periods of group III.	103
