Acknowledgment

First and for most, I feel always indebted to God the kind and merciful.

I would like to acknowledge the support and encouragement received from many people during the fulfillment of this study; in particular Prof. Dr. Soheir Mohamed Gamal El-Din, Professor of Medicine and Endocrinology Department, Faculty of Medicine, Ain Shams University for her constructive criticism, expertise and constant guidance and meticulous supervision, all are deeply and heartily appreciated.

I turn with a grateful heart to Prof. Dr. Tahany El Senousy, Professor of Medical-Surgical Nursing, High Institute of Nursing, Ain Shams University, who has been sounding board for my ideas, for her continuous, unlimited help, and cordial encouragement.

I am gratefully acknowledging the professional help of Dr. Sameh Abd El-Shakour, Director of Diabetes Institute, Cairo for his helpful guidance and careful supervision.

I would like to express my deep thanks to My Husband, My Mother, My Sisters and My Brothers for their tolerance and sustained moral support.
