***COMPUTERIZED TOMOGRAPHY
OF TONGUE AND FLOOR OF
MOUTH MALIGNANCY***

An essay Submitted in partial fulfillment of the
Master degree of Radiodiagnosis

By

Mostafa Mahmoud Abd-El Halim

M.B.B.Ch.

Faculty of medicine

Cairo University

Supervised by

Dr. Ahmed Khodair Ali, M.D.

Ass. Prof. of Radiodiagnosis

Ain-Shams University

Dr. Fatma Salah El-Din Mohamed, M.D.

Lecturer of Radiodiagnosis

Ain-Shams University

Faculty of Medicine

ACKNOWLEDEGEMENT

First of all I want to say that I am always and forever indebted to GOD for his generosity prevailing my life and his guidance which enabled me to accomplish this work.

I would like to express my deep respect and gratitude to Prof. Dr. Ahmed Khodair Ali, Ass. Professor of Radiodiagnosis, Faculty of Medicine, Ain-Shams University, for his faithful supervision, guidance and energetic encouragement throughout this work.

Also, I'm very grateful to Dr. Fatma Salah El-Din Mohamed, Lecturer of Radiodiagnosis, Ain-Shams University for her great support and continuous advice.

Finally, I would like to thank my father and mother for their great effort, assistance and help in completing this work.

INTRODUCTION
&
AIM OF THE WORK
