Retrospective Clinical & Epidemiological Study For Cases Of Acute Pesticide Toxicity Admitted To Poison Control Center In Cairo During The Year 1999

Thesis

Submitted For Partial Fulfillment Of Master Degree In

Clinical Toxicology

Presented by

Islam Hany Gamal El-din

M.B.B.CH.

Supervised By

Prof.Dr./Fathy Hassan El sherif

Professor Of Internal Medicine

Faculty Of Medicine Ain Shams University

Prof.Dr./Sawsan Abdel Fattah Shalaby

Professor & Head Of Forensic Medicine & Clinical Toxicology Department

Faculty Of Medicine Ain Shams University

Prof.Dr./Mona Al Kotb Moussa

Assistant Professor Of Forensic Medicine & Clinical Toxicology Faculty Of Medicine Ain Shams University

Faculty of Medicine

Ain Shams University

Acknowledgment

First of all thanks to **Allah**, without his help, this work could not be have been accomplished.

I would like to present my sincere thanks and appreciation to professor **Dr. Sawsan Abdel fattah Shalaby**, Professor and Head of Forensic Medicine and Clinical Toxicology Department, Faculty of Medicine, Ain Shams University, for her great help, continuous support, meticulous supervision and fruitful guidance throughout this work.

I would like to express my gratitude to **Professor Dr. Fathy Hassan El sherif**, Professor of Internal Medicine, Faculty of Medicine Ain Shams University who gave me the privilege of working under his supervision, his continuous guidance and worthy remarks are beyond words of thanks.

I also like to thank **Prof. Mona Al kotb Moussa**, Assistant Professor of Forensic Medicine and Clinical Toxicology, Faculty of Medicine Ain Shams University for her sincere help and thorough revision of every detail in this work.

Words stand short when coming to express my gratefulness to Professor **Dr. Assem Hassan Badawy**, Professor of Forensic Medicine and Clinical Toxicology and Head of PCCC Faculty of Medicine, Ain Shams University, for his unlimited support and kind help and continuous encouragement throughout this work.

Islam Gamal El-din

LIST OF TABLES

Table (1): Age Distribution In 1007 Cases Of Pesticide Poisoning Admitted To PCCC During The Year 1999. 63

Table (2): Sex Distribution In 1007Cases Of Pesticide Poisoning Admitted to PCCC During The Year 1999. 63

Table (3): Age In Relation To Mode Of Intoxication In 1007 Cases Of Pesticide Poisoning Admitted To PCCC During The Year 1999. 64

Table (4): Social class distribution in 1007 cases of pesticide poisoning admitted to PCCC during the year 1999. 66

Table (5): Mode of intoxication in relation to sex in 1007 cases of pesticide poisoning admitted to PCCC during the year 1999 67

Table (6): Route Of Intoxication In 1007 Cases Of Pesticide Poisoning Admitted To The PCCC During The Year 1999. 68

Table (7): Geographical Distribution Of 1007 Cases of Pesticide Poisoning Admitted To PCCC During The Year 1999 69

Table(8): Type Of Pesticide Intoxication In 1007 Cases Of Pesticide Poisoning Admitted To PCCC During The Year 1999 70

Table(9): Time Of delay Before Hospital Presentation In 1007Cases Of Pesticide Poisoning Admitted To PCCC During The Year 1999 71

Table (10): Clinical Presentations In 839 Cases of Insecticide (Organophosphates and carbamates) Poisoning Admitted To PCCC During The Year 1999. 73

Table (11): Level of Pseudocholinesterase In 847 Cases Of Insecticide (Organophosphates and carbamates)Poisoning Admitted To PCCC During The Year 1999. 74

Table (12): One way statistical analysis test (ANOVA) of 1st levels of Pseudocholinesterase and Fate Of The Patients Intoxicated With Insecticide (Organophosphates and carbamates) Admitted to PCCC during The Year 1999. 76

Table (13): Pattern of glycemia In 640 Cases Of Insecticide (Organophosphates and carbamates) Poisoning Admitted To PCCC During The Year 1999. 76

Table (14): Pattern of kalemia in 640 cases of Insecticide (Organophosphates and carbamates) poisoning admitted to PCCC during the year 1999. 77

Table (15): Pattern of natremia In 640 Cases Of Insecticide (Organophosphates and carbamates) Poisoning Admitted To PCCC During The Year 1999 78

Table (16): Mode Of Elimination & Treatment In 1007 Cases Of Pesticide Poisoning Admitted To PCCC During The Year 1999 80

Table (17): Admission And Fate Of 1007 Cases Of Pesticide Poisoning Admitted To PCCC During The Year 1999. 81

Table (18): Clinical Presentations, In 128 Cases Of Zinc Phosphide Poisoning Admitted To PCCC During The Year 1999. 83

Table (19): Pattern of Acid- Base Disturbances In 72 Cases Of Zinc Phosphide Poisoning Admitted To PCCC During The Year 1999. 84

Table (20) Pattern Of Liver Enzymes In 128 Cases of Zinc Phosphide Poisoning Admitted To The PCCC During The Year 1999. 85

Table (21): Pattern of CPK in 48 cases of zinc phosphide poisoning Admitted to PCCC during the year 1999. 86

Table (22): Fate Of 128 Cases Of Zinc Phosphide Poisoning Admitted To PCCC During The Year 1999. 87

Table (23): Fate Of 40 Cases Of Warfarin Poisoning Admitted To PCCC During The Year 1999. 89

Table (24): Age Group And Sex In 16 Mortality Cases Of Pesticide Poisoning Admitted To PCCC During The Year 1999. 90

Table (25) Time Delay In 16 Mortalities From Pesticide Poisoning Admitted To PCCC During The Year 1999 91

Table (26) Mode Of Intoxication In 16 Mortalities From Pesticide Poisoning Admitted To PCCC During The Year 1999 92

Table (27): Main causes of deaths in 128 Cases of Zinc Phosphide Poisoning Admitted To The PCCC During The Year 1999. 94
