**EFFECT OF PROTEIN MALNUTRITION ON
SOCIOBEHAVIORAL RESPONSE TO SOME
PSYCHOTROPIC DRUGS**

THESIS

presented by

AZZA ABDEL-FATAH ALI

M. Pharm Sci. (Pharmacology)

Assistant Lecturer of Pharmacology and Toxicology

Faculty of Pharmacy (Girls), Al-Azhar University

Submitted For The Degree

Of

Doctor Of Philosophy In Pharmaceutical Sciences

(Pharmacology And Toxicology)

UNDER THE SUPERVISION OF

Prof. Dr. M. E. El-SAYED

Prof. of Pharmacology & Toxicology

Dept. of Pharmacology & Toxicology,

Faculty of Pharmacy,

Cairo University

Prof. Dr. M. R. HAMED

Prof. of Pharmacology & Toxicology

Dept. of Developmental Pharmacology,

National Organization of Drug Control

and Research

 ***Faculty of Pharmacy***

APPROVAL SHEET

The thesis has been approved by:

1.	<i>Dr. Mostafa El-Sayed El-Sayed</i> Prof. of Pharmacology & Toxicology, Faculty of Pharmacy, Cairo University.	<i>M-E-El-Sayed</i>
2.	<i>Dr. Mohamed Raouf Hamed</i> Prof. of Pharmacology & Toxicology, National Organization for Drug Control and Research.	<i>M.R. Hamed</i>
3.	<i>Dr. Farid Mohamed Ahmed Hamada</i> Prof. and Head of Pharmacology & Toxicology Dept., Faculty of Pharmacy, Al-Azhar University.	<i>Hamada</i>
4.	<i>Dr. Adel Mahmoud Kandeel</i> Prof. of Pharmacology & Toxicology, National Organization for Drug Control and Research.	<i>Kandeel</i>

Date: 14 / 9 / 1998

Committee in charge

ACKNOWLEDGMENTS

I wish to express my everlasting gratitude and appreciation to my *Prof. MOSTAFA E. EL-SAYED*, Professor of Pharmacology and Toxicology, Faculty of Pharmacy, Cairo University, for his constructive supervision, outstanding guidance and suggestions as well as constant support and valuable remarks which helped me to complete this work, to him I am greatly indebted.

It is my great pleasure to express my deep thanks and gratitude to *Prof. MOHAMED R. HAMED*, Professor of Pharmacology and Toxicology and Head of Developmental Pharmacology Department, National Organization for Drug Control and Research, for his kind supervision, constant support, fruitfully suggestions, beneficial discussions, in addition to all facilities that he gave me during the performance of this work.

I owe a heavy debt of gratitude to *Prof. FARID M. A. HAMADA*, Professor and Head of Pharmacology and Toxicology Department, Faculty of Pharmacy, Al-Azhar University, for his continuous scientific help, constant support and encouragement which helped me to complete this work.

My gratitude and cordial thanks are to my *FATHER* and my *HUSBAND* for their continuous encouragement, unlimited support and sincere help which enable this work to be completed.

It is my pleasure to express my thanks to ***Dr. ESSAM EZZELDIN***, National Organization for Drug Control and Research for his continuous and sincere help.

I am also thankful to my colleagues in the ***Department of Pharmacology and Toxicology***, Faculty of Pharmacy, Al-Azhar University for their valuable assistance and moral support.

CONTENTS

	Page
• INTRODUCTION	(1)
- Protein Malnutrition	(1)
* Classification of protein malnutrition	(2)
* Effects of protein malnutrition	(4)
- Behavioural Pharmacology	(18)
* Social behaviour	(19)
* Aggressive behaviour	(21)
- Classification of aggressive behaviour	(21)
- Methods for inducing aggression	(24)
- Psychotropic Drugs	(28)
* Chlorpromazine	(29)
* Amphetamine	(35)
• AIM OF THE WORK	(41)
• MATERIAL AND METHODS	(45)
* Experimental Design	(45)
* Material	(54)
* Methods	(59)
• RESULTS	(71)
• DISCUSSION	(257)
• SUMMARY AND CONCLUSIONS	(293)
• REFERENCES	(302)
• ARABIC SUMMARY	(1)

LIST OF ABBREVIATIONS

AMPH	:	Amphetamine.
CNS	:	Central Nervous System.
CPZ	:	Chlorpromazine.
CTZ	:	Chemoreceptor Trigger Zone.
DNA	:	Deoxyribonucleic Acid.
GABA	:	Gama Aminobutyric Acid.
NF	:	Normally-Fed.
PCM	:	Protein-Calorie Malnutrition.
PEM	:	Protein-Energy Malnutrition.
PM	:	Protein Malnutrition.
RNA	:	Ribonucleic Acid.
WHO	:	World Health Organization.

LIST OF TABLES

Table	Page
i - Examples for tests of social behaviour and social interaction	(20)
1 - Effect of social competition on the behaviour of normally-fed and protein malnourished rats in the swimming test	(73)
2 - Effect of chlorpromazine on the behaviour of normally-fed and protein malnourished rats in the swimming competition paradigm	(80)
3 - Effect of amphetamine on the behaviour of normally-fed and protein malnourished rats in the swimming competition paradigm	(86)
4 - Effect of isolation on the behaviour of normally-fed and protein malnourished rats in the open-field in solitary and paired condition	(93)
5 - Effect of isolation on emotionality of normally-fed and protein malnourished rats in the open-field in solitary and paired condition	(99)
6 - Effect of isolation on intraspecies social interaction of normally-fed and protein malnourished rats in the open-field	(106)
7 - Effect of chlorpromazine on latency and ambulation frequency of isolated normally-fed and protein malnourished rats in the open-field in paired condition .	(113)
8 - Effect of chlorpromazine on rearing and field-sniffing and licking frequency of isolated normally-fed and protein malnourished rats in the open-field in paired condition	(119)
9 - Effect of chlorpromazine on emotionality of isolated normally-fed and protein malnourished rats in the open-field in paired condition	(125)
