مسند الإمام أحمد

Acknowledgment

I would like to express my sincere gratitude and cordial thanks to Dr. Ahmed Sherif Hafez professor of Public Health, who patiently assisted this work by his valuable guidance and remarks.

My sincere thanks and appreciation are due to Dr. Hesham Mahaba Assistant Professor of Public Health for his valuable assistance and support.

I wish to express my gratitude to Prof. Laila Al-Shawarby, Professor of clinical Pathology for her help in the laboratory analysis in this thesis.

I would like to thank all patients for their cooperation during the study.

And last but not least, I would like to thank everyone in the Department of Community, Environmental & Occupational Medicine, Faculty of Medicine, Ain Shams University who helped in every step along the way and for their continuous encouragement.
