ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

Endless praiseful thanks are due to ALLAH, the most gracious, the most merciful for giving me the ability to finish this work.

I am appreciated to Prof. Dr. I. A. Khalil, Prof. of Animal Physiology, Department of Animal Production, Faculty of Agriculture, Moshtohor, Zagazig University, for his supervision and encouragement during this study.

I would like also to express my sincere thanks to Prof. A. I. M. El-Sayed, Prof. of Animal Physiology, Department of Animal Production, Faculty of Agriculture, Moshtohor, Zagazig University, for his help and supervising this work.

I am greatly indebted to my late Prof. Dr. R. M. Khattab, Chief researcher of Animal Physiology and Former Deputy Director of Animal Production Research Institute for suggesting the problem and providing all farm facilities during the experimental part of this work.. May ALLAH bless your soul my brother.

Sincerest thanks and gratitude to my entimate soul brother Dr. K. T. Osman, Researcher of Animal Physiology, Buffalo Breeding Research Department, Animal Production Research Institute, for his valuable supervision, unfailing support and keen advice throughout the course of this study.

Special thanks are also due to Prof. Dr. M. A. Salama, Chief Researcher and Head of Buffalo Breeding Research Department, Animal production Research Institute for his unforgotten help in statistical analysis.

The author would like to convey his gratitude to all colleagues at Buffalo Breeding Research Department and staff Members at Mehallet- Moussa Research Station, Kafr El-Sheikh Governorate, Animal Production Research Institute, for their moral support and help throughout the course of my endeavours. Hearty thanks are extended to my mother who gave me the life, love and compassion. I will never forget your prayers and keen wishes for a successful career.

ACKNOWLEDGEMENT

Finally, I am indebted to my kids, Hussam and Nada who gave me the inspiration and strength to fulfil this work.
