MOLECULAR BIOLOGIC ASPECTS OF SOME LARYNGEAL AND HYPOPHARYNGEAL TUMOURS

Thesis

Submitted for the Partial Fulfillment of the
M.D. Degree in
Otorhinolaryngology

By

Emad Mohamed Anwar Elofy

M.B., B.Ch., M.Sc.

Supervised By

Prof. Dr. *Mohamed Abd El-Azim El-Begermy*

Professor of Otorhinolaryngology
Faculty of Medicine, Ain Shams University

Prof. Dr. *Mahmoud El-Tarabishi*

Professor of Otorhinolaryngology
Faculty of Medicine, Ain Shams University

Dr. *Samar Kamal Kassim*

Ass. Prof. of Biochemistry
Faculty of Medicine, Ain Shams University

Dr. *Samer Ahmed Ibrahim*

Lecturer of Otorhinolaryngology
Faculty of Medicine, Ain Shams University

Faculty of Medicine
AIN SHAMS UNIVERSITY

2001

B Note

بسم الله الرحمن الرحيم

ورحمتي وسعت كل شيء فسأكتبها للذين يتقون ويؤتون الزكاة
والذين هم بآياتنا يؤمنون • الذين يتبعون الرسول النبي الأمي
الذي يجدونه مكتوباً عندهم في التوراة والإنجيل يأمرهم بالمعروف
وينهاهم عن المنكر ويحل لهم الطيبات ويحرم عليهم الخبائث
ويضع عنهم إصرهم والأغلال التي كانت عليهم فالذين آمنوا به
وعزروه ونصروه واتبعوا النور الذي أنزل معه أولئك هم
المفلحون •

صدق الله العظيم

سورة الأعراف ، الآية ١٥٦-١٥٧

ولقد أفتى فضيلة مفتي الديار بجمهورية مصر العربية بتاريخ ٢٥
جمادى الأول ١٤٢٠هـ الموافق ٥ سبتمبر ١٩٩٩م بجرمة الدخان
حرمة قطعية لأنه من الخبائث الضارة التي تسبب مرض السرطان ومنها
سرطان الحنجرة •

Acknowledgment

I wish to express to all those who, in different ways, have helped me to complete this work, and specially to:

Prof. Mohamed EL-Begermy, professor of otorhinolaryngology, Ain Shams Faculty of Medicine, for his kindness, support, guidance and helpfulness throughout all phases of this work. His care and advice are unforgettable.

Prof. Mahmoud EL-Charabishi, professor of otorhinolaryngology, Ain Shams Faculty of Medicine, for the meticulous supervision and uninterrupted care and advise.

Dr. Samar Kamal Kassim, Ass. Prof. of Biochemistry, Ain Shams Faculty of Medicine, for her close, and continuous supervision, and for her keenness for high standards and performance.

Dr. Samer Ahmed Ibrahim, Lecturer of otorhinolaryngology, Ain Shams Faculty of Medicine, for his kind support and guidance.

Finally, was my family. Without their love, never-fading patience and indispensable support, I would probably not have completed this work.

Emad Elofy

LIST OF TABLES

	Page
Table (1): Classification of the patients.	82
Table (2): Minimal pathological lesions of the control group.	83
Table (3): Lesion classification of the study group.	83
Table (4): TNM staging of laryngeal cancer.	86
Table (5): TNM staging of hypopharyngeal cancer.	87
Table (6): Oligonucleotide for PCR of HPV-16.	92
Table (7): Age distribution in patients with laryngeal carcinoma.	95
Table (8): Site distribution in patients with laryngeal carcinoma.	96
Table (9): T-stage distribution in patients with laryngeal carcinoma.	97
Table (10): N-stage distribution in patients with laryngeal carcinoma.	97
Table (11): M-stage distribution in patients with laryngeal carcinoma.	97
Table (12): Distribution of stages in patients with laryngeal carcinoma.	98
Table (13): Histopathological grading in patients laryngeal carcinoma.	98
Table (14): The correlation between the HPV-16 and laryngeal carcinoma.	100
Table (15): Age comparison between HPV 16 + ve and HPV 16 -ve groups.	101
Table (16): Incidence of HPV 16 in different age groups in laryngeal carcinoma.	102
Table (17): Correlation between the presence of HPV 16 and the site of the lesion.	103
Table (18): Correlation between the HPV +ve and -ve groups in different T stages.	104
Table (19): Correlation between the HPV +ve and -ve groups in different N stages.	104
Table (20): Correlation between the HPV +ve and -ve groups in different clinical staging.	105
Table (21): Correlation between histopathological grading and the presence of HPV 16.	105
Table (22): Correlation between the HPV 16 and the recurrence in laryngeal carcinoma.	106
Table (23): Correlation between the HPV 16 and the hypopharyngeal carcinoma.	109
Table (24): Correlation between the site of the lesion and the presence of HPV 16.	109
Table (25): Correlation of HPV 16 to clinical staging of hypopharyngeal carcinoma.	111
Table (26): Correlation between the HPV 16 and the recurrence in hypopharyngeal carcinoma.	112
Table (27): Correlation between the HPV 16 and the laryngeal papillomas.	114
