**DEVELOPMENT AND MECHANISM OF RESISTANCE
TO SOME INSECTICIDES IN INSECT TRANSMITTING
DISEASES**

By

Mohamed Taha Mohamed Selim

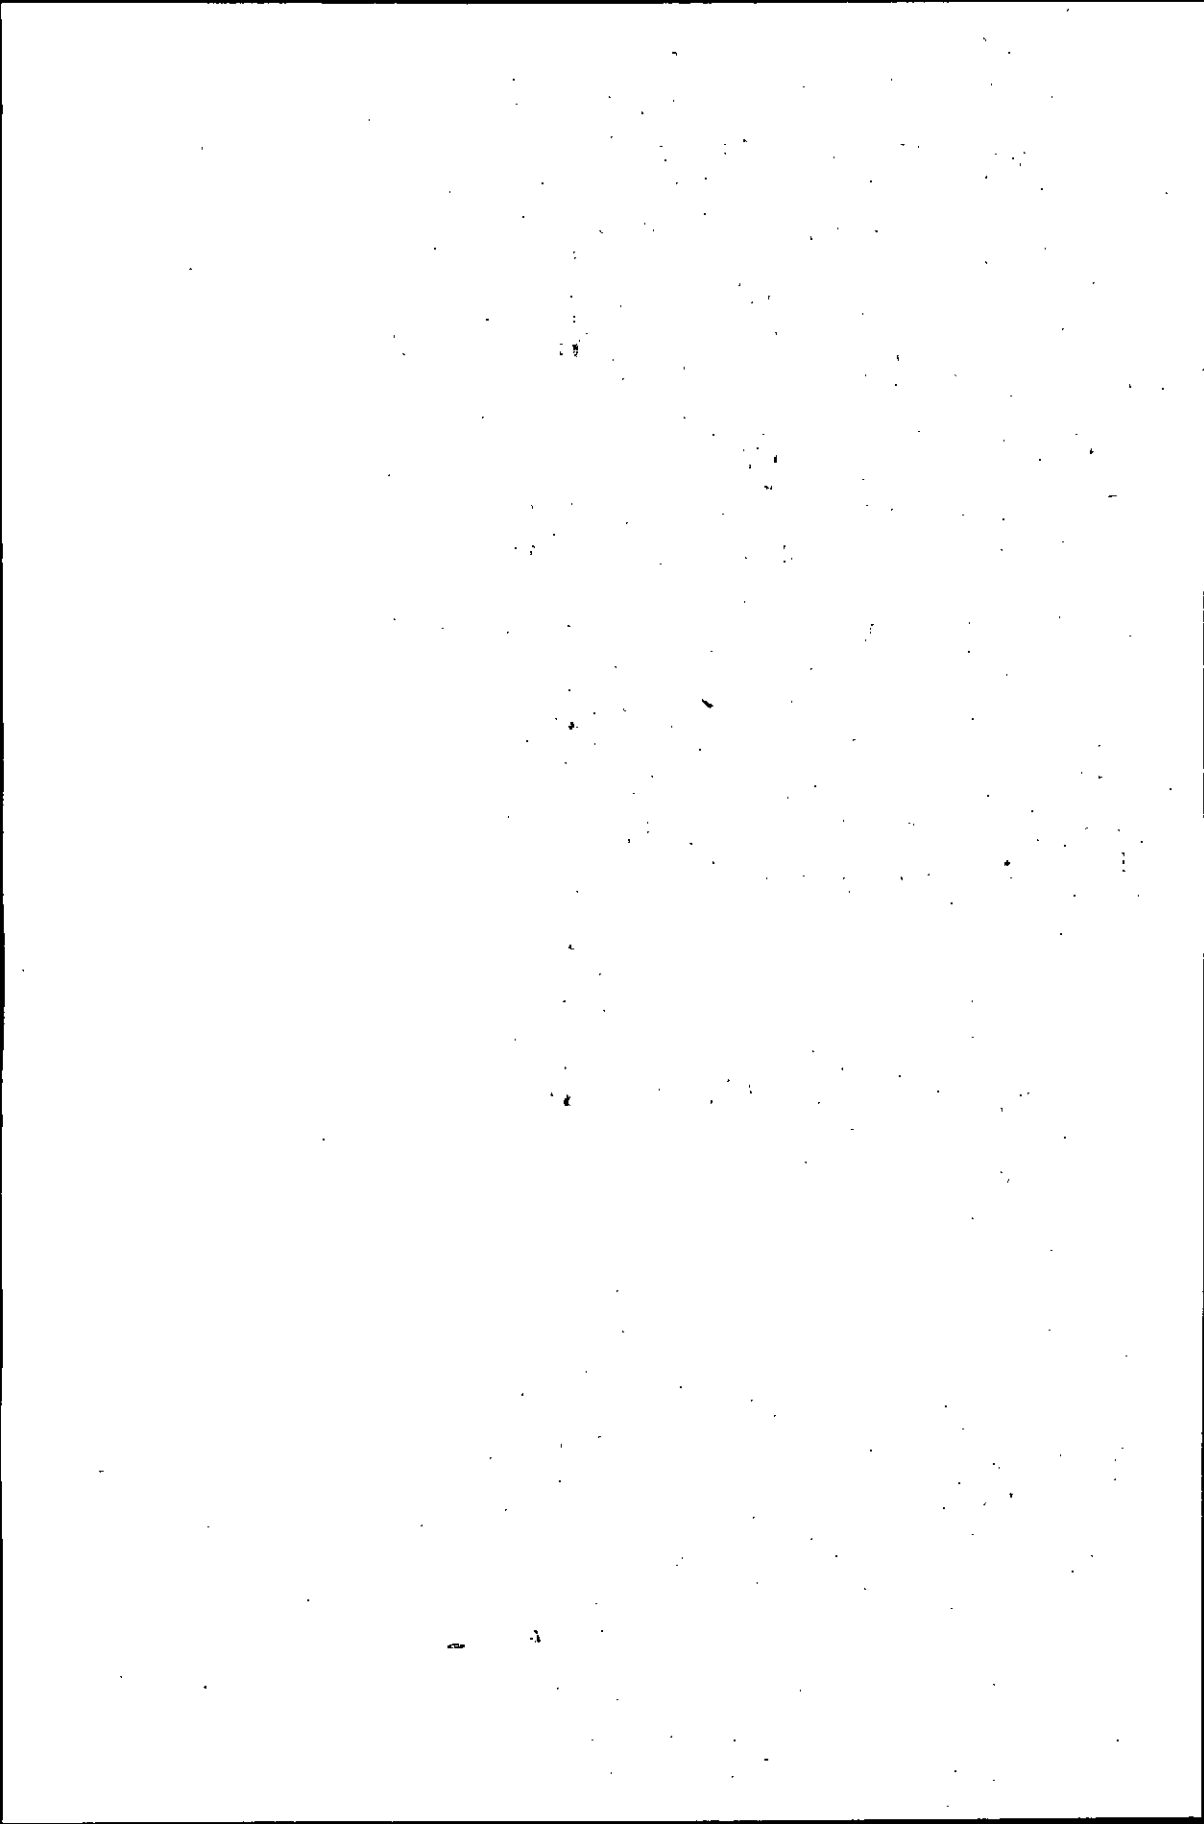

B. Sc. Agric. (Plant Protection), Ain Shams Univ. (1998)

A thesis submitted in partial fulfillment
of
the requirements for the degree of
Master of Science
in
Agricultural Science
(Pesticides)

**Department of Plant Protection
Faculty of Agriculture
Ain Shams University**

2001

B7711

APPROVAL SHEET

DEVELOPMENT AND MECHANISM OF RESISTANCE TO SOME INSECTICIDES IN INSECT TRANSMITTING DISEASES

By

Mohamed Taha Mohamed Selim

B. Sc. Agric. (Plant Protection), Ain Shams Univ. (1998)

This thesis for M.Sc. degree has been approved by:

Prof. Dr. Mohamed A. Kandil.....*Kandil M.A.*

Prof. of Pesticides chemistry, Faculty of Agriculture,
Cairo University

Prof. Dr. Mohamed S. EL-Zemaity.....*M.S. EL-Zemaity*

Prof. of Pesticides chemistry, Faculty of Agriculture,
Ain Shams University.

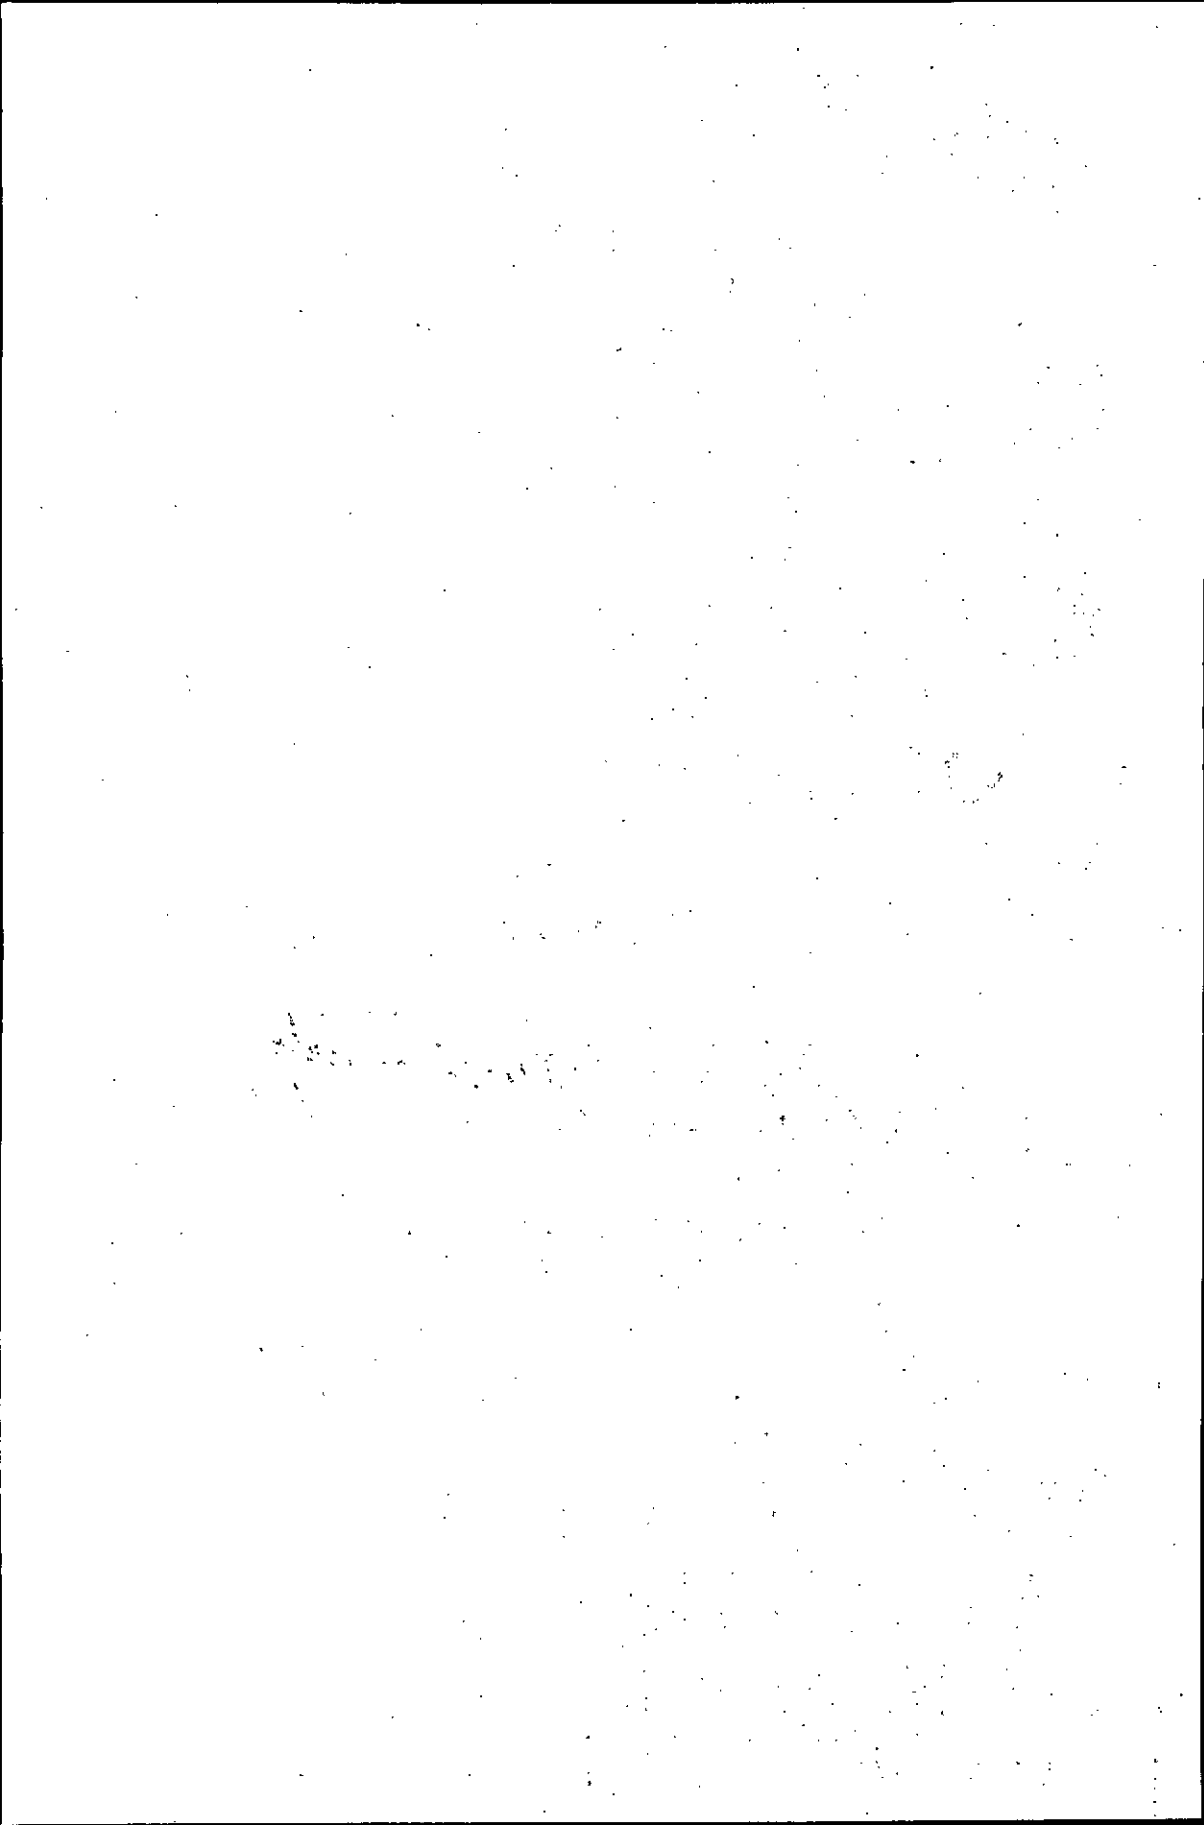

Prof. Dr. Zidan H. Abd EL- Hamid.....*Zidan Z.H.*

Prof. of Pesticides chemistry, Faculty of Agriculture,
Ain Shams University.(supervisor).

Prof. Dr. Amgad K. Sobeiha.....*A.K. Sobeiha*

Prof. of Pesticides chemistry, Faculty of Agriculture,
Ain Shams University.

Date of examination: 13 / 11 /2001

DEVELOPMENT AND MECHANISM OF RESISTANCE TO SOME INSECTICIDES IN INSECT TRANSMITTING DISEASES

By

Mohamed Taha Mohamed Selim

B. Sc. Agric. (Plant Protection), Ain Shams Univ. (1998)

Under the supervision of:

Prof. Dr. Zidan H. Abd EL- Hamid

Prof. of Pesticides chemistry, Faculty of Agriculture,
Ain Shams University.

Prof. Dr. Mohamed I. Abd EL-Megeed

Prof. of pesticides and Vice Dean, Faculty of Agriculture,
Ain Shams University.

Prof. Dr. Amgad K. Sobeiha

Prof. of Pesticides chemistry, Faculty of Agriculture,
Ain Shams University.

ACKNOWLEDGMENT

I would like to express my sincere gratitude and deep appreciation to Dr. Khaled H. Abd El-Hamid Prof. of Pesticides, Plant Protection Department, Faculty of Agriculture, Ain Shams University for facilities he offers, close supervision, constructive criticism and unflinching help during the whole of this work.

I wish to express my special thanks to Dr. Mohamed I. Abd El-Megied Prof. of Pesticides, Plant Protection Department, Faculty of Agriculture, Ain Shams University and vice Dean for his guidance, valuable suggestions, encouragement and every possible help in his work offered throughout the course of this work.

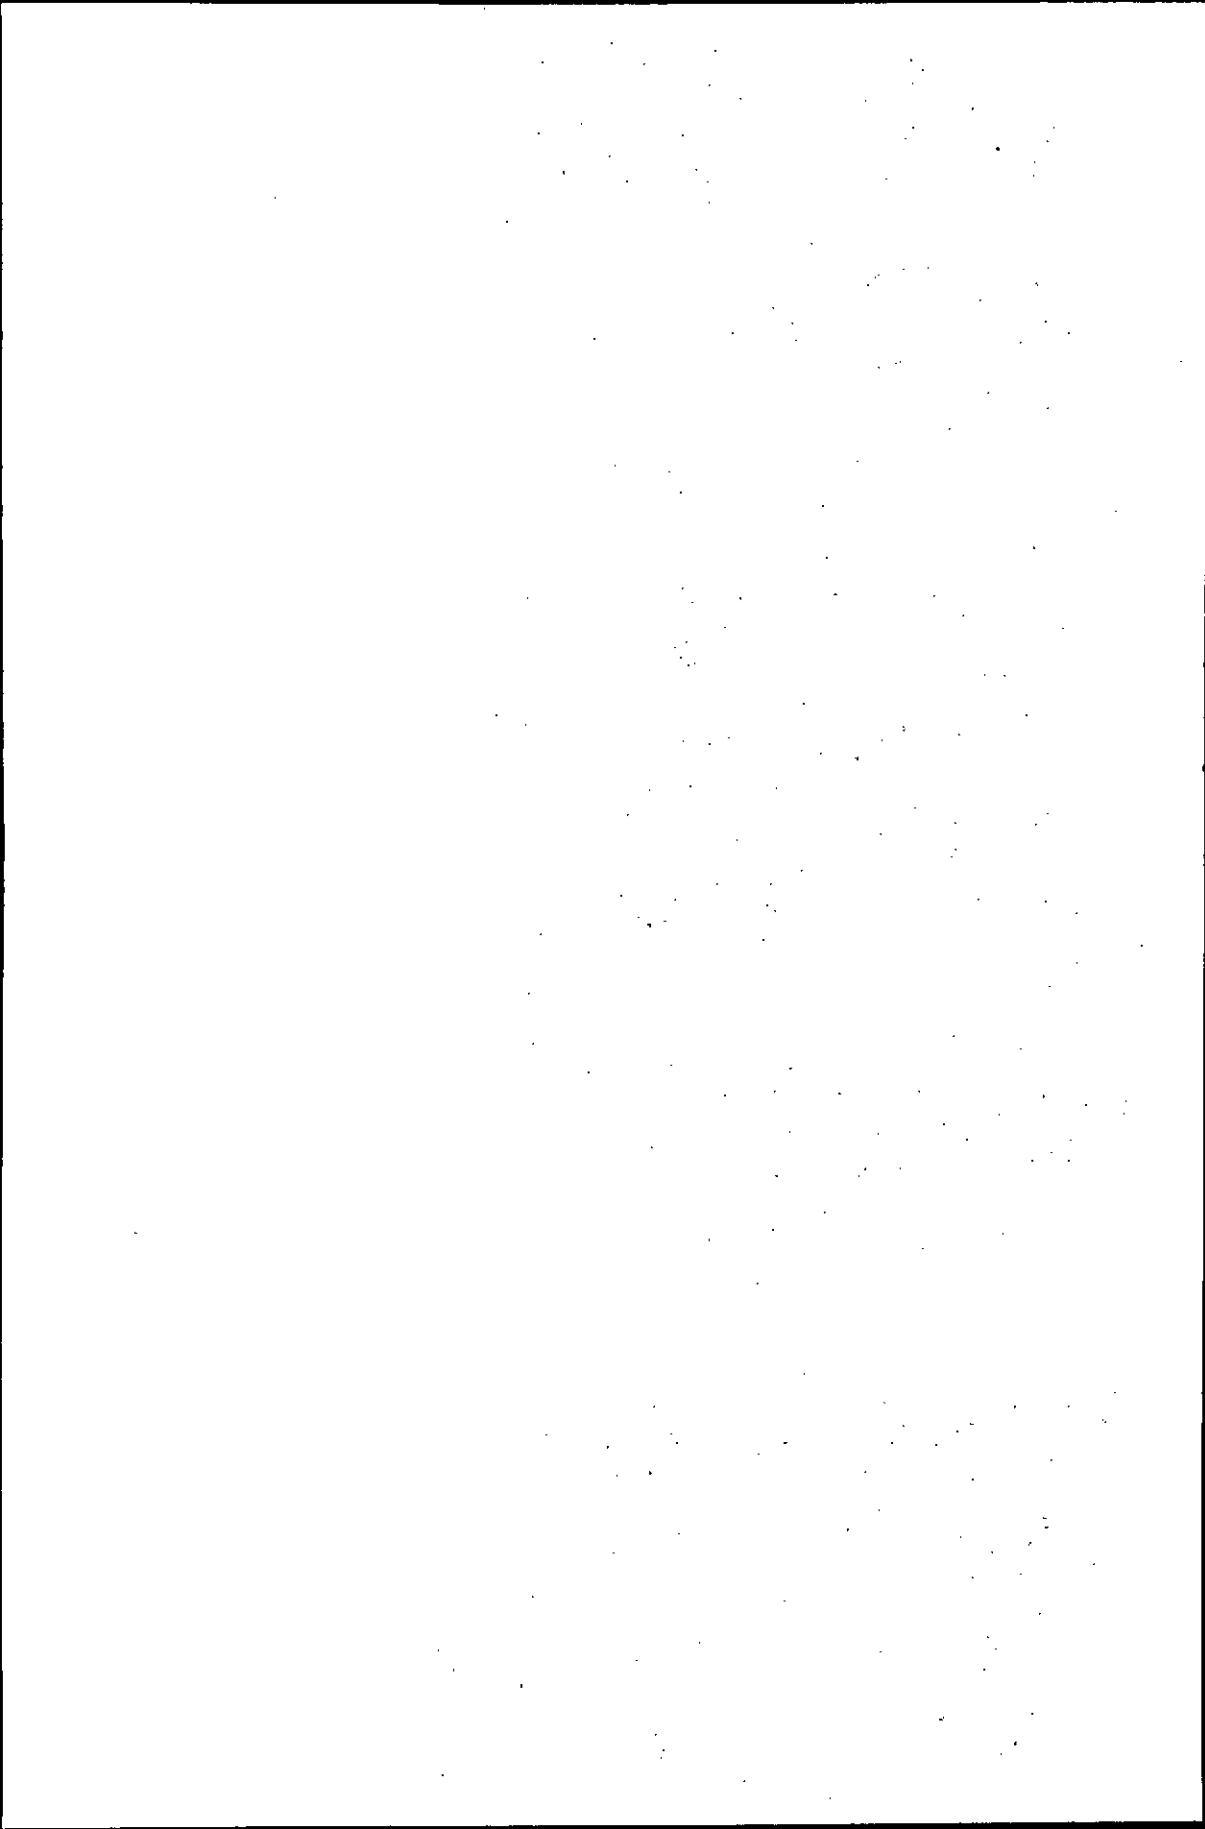

I am also indebted to Dr. Amr K. Sobeha Prof. of Pesticides, Plant Protection Department, Faculty of Agriculture, Ain Shams University for his helpful guidance during this study, reading the manuscript, helpful suggestion, patient guiding and faithful advising and the cooperation through the whole work.

Thanks and respect thanks to Dr. A. E. Hanyoumy lecturer of Pesticides, Dept. of plant protection, Faculty of Agriculture, Ain Shams University for his encouragement, helpful suggestions and revising the manuscript.

Thanks to all members of Environmental Toxicology Unit, Plant Protection Department, Faculty of Agriculture, Ain Shams University for their kind help and support during the course of study.

TABLE OF CONTENTS

I- INTRODUCTION.....	Page 1
II- REVIEW OF LITERATURE.....	4
1- Selection for insecticides resistance in mosquitoes.....	4
2- Cross-resistant spectrum of selection in mosquitoes current to used insecticides.....	9
3- Resistance spectrum in different filed population of <i>Culex pipiens</i>	13
4- Mechanism of insecticides resistance in mosquitoes.....	20
III- MATERIAL AND METHODS.....	32
1- Insecticides used	32
1-1 Organophosphorus compounds.....	32
1-2 Synthetic pyrethroid compounds.....	33
1-3 Insect growth regulators.....	34
2- Collecting and rearing technique.....	35
3- Building up and maintenance of susceptible laboratory strain	36
4- Bioassay testes	36
5- Development of resistance strains.....	37
6- susceptibility of fenitrothion and cyphenothrin selected strain to certain insecticides.....	37
7- susceptibility of some filed populations to tested insecticides.....	38
8- Determination of the susceptibility or resistance to certain insecticides.....	39
IV- RESULTS AND DISCUSSION.....	40
1- Build up of susceptible-laboratory strain.....	40
2- Development of insecticide resistance in 4 th instar larvae of <i>Culex pipiens</i>	45
2-1 development of resistance to fenitrothion.....	46
2-2 development of resistance to cyphenothrin.....	49
2-3 development of resistance to pyriproxyfen.....	52
3- Cross-resistance spectrum in fenitrothion and cyphenothrin selected strains.....	55
4- Resistance spectrum of certain filed population of <i>Culex pipiens</i> larval stage.....	65
5- Susceptibility of certain filed population and resistant strains of <i>Culex pipiens</i> female to some insecticides.....	74
V- SUMMARY.....	81
VI- REFERENCES.....	87
VII- ARABIC SUMMARY	

LIST OF TABLES

	Page
Table (1): Reversion to susceptibility to fenitrothion and cyphenothrin by successive rearing of field strain of <i>Culex pipiens</i>	42
Table (2): Development of fenitrothion resistance in 4 th instar larvae of <i>Culex pipiens</i> at 30% level selected every two successive generations.....	47
Table (3): Development of cyphenothrin resistance in 4 th instar larvae of <i>Culex pipiens</i> at 30% level selected every two successive generation.....	50
Table (4): Susceptibility of reference susceptible strain to tested insecticides.....	56
Table (5): Resistance spectrum to certain insecticides for fenitrothion resistant colony	58
Table (6): Resistance spectrum to certain insecticides for cyphenothrin Colony.....	63
Table (7): Resistance spectrum of <i>Culex pipiens</i> of shalakan field population to tested insecticides.....	66
Table (8): Resistance spectrum of <i>Culex pipiens</i> of EL-Suff field population to tested insecticides	69
Table (9): Resistance spectrum of <i>Culex pipiens</i> of Shobra EL-Khema population to tested insecticides.....	71
Table (10): Response of <i>Culex pipiens</i> female of Shobra EL-Khema populations to paper impregnated with WHO discriminating concentrations of certain insecticides.....	75
Table (11): Response of <i>Culex pipiens</i> female of cyphenothrin-resistance to paper impregnated with WHO discriminating concentrations of certain insecticides.....	77

Table (12): Response of <i>Culex pipiens</i> female of fenitrothion-resistance to paper impregnated with WHO discriminating concentrations of certain insecticides.....	78
---	----

Table (13): Response of <i>Culex pipiens</i> female of susceptible strain to paper impregnated with WHO discriminating concentrations of certain insecticides... ..	80
