**Cloning and Characterization of
Major Sperm Protein (MSP) in
The Human Parasite *Brugia malayi***

A thesis
Submitted to the

Biochemistry Department
Faculty of Science
Ain Shams University

In Partial Fulfilment of the Requirements
For the degree of Master of Science

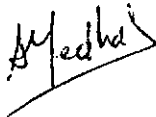

By

Mohamed Younis Nasr

(B.Sc. Biochemistry)

Supervised By

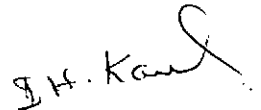

Dr. Amina M. Medhat
Assist. Prof. of Biochemistry
Biochemistry Dept.
Faculty of Science
Ain Shams University

Prof. Dr. Reda M. R. Ramzy
Professor of Immunology
Head of Immunology Unit
Nutrition Institute
The General Organization of
Educational Hospitals and
Institutes

Dr. Ibrahim H. Kamal
Assistant Professor of Biochemistry
Biochemistry Dept.
Faculty of science
Ain Shams University

2001

قالوا سبحانك لا علم لنا

إلا ما علمتنا إنك أنت

العليم الحكيم

صدق الله العظيم

سورة البقرة
آية رقم (٣٢)

I declare that this thesis has been composed by myself and the work therein has not been submitted for a degree at this or any other university.

Mohamed Younis Nasr

**I dedicate this work to
My parents,
All my family,
My wife and my son**

ACKNOWLEDGEMENT

“ First of all, Thanks for ALLAH “

I am greatly indebted to Prof. Dr. Reda M. R. Ramzy, professor and head of Immunology Unit, Nutrition Institute, The General Organization of Educational Hospitals and Institutes, for everything. For his instructive guidance, sincere help, valuable advise, offering facilities and support throughout the course of this study and I am really very proud to be his student.

I wish to express my deep gratitude to Dr. Amina M. Medhat, Assistant professor of Biochemistry, Faculty of Science, Ain Shams University, for her useful supervision and guidance, and continuous encouragement. The critical reading of the thesis manuscript by Dr. Amina is deeply acknowledged. Her support is much appreciated.

My deep thanks to Dr. Ibrahim H. Kamal, assistant professor of Biochemistry, Faculty of Science, Ain Shams University, for his support, honest supervision and efforts during the progress of the work.

Also I wish to thank Dr. Stevens Williams for providing cDNA libraries for use in this study.

Thanks are due to Prof. Dr. Bahira El-Sawaf, Director of the Research and Training Center on Vectors of Diseases, Ain Shams University for her kind encouragement.

Finally, I would like to acknowledge all members of Dr. R. Ramzy's laboratory and all staff members of the Research and Training Center on Vectors of Diseases, Ain Shams University, for their friendly help and invaluable support along the whole study.
