# PRIMARY ENURESIS IN CHILDREN: A CLINICAL AND POLYSOMNOGRAPHIC STUDY

Thesis

Submitted for partial fulfillment of M.Sc. Degree  
In Neuropsychiatry

By

***Sandra Mohamed Mahmoud Ibrahim Ahmed***

Supervised by

**Pr. Dr. Saher Hashem**

Professor of Neurology  
Cairo University

**Pr. Dr. Seyam Saeed**

Professor of Clinical Neurophysiology  
Cairo University

**Pr. Dr. Ibtesam Fahmy**

Assistant Professor of Neurology  
Cairo University

Department of Neurology  
Faculty of medicine  
Cairo University

2006

## List of tables

<b>Table number</b>	<b>page</b>	
Table 1	11	Reflexes of the lower urinary tract
Table 2	70	The range and mean age of patients and controls
Table 3	71	Sex distribution among patients and controls
Table 4	73	Cystometric results in 20 patients with primary nocturnal enuresis
Table 5	74	The mean $\pm$ SD of polysomnographic findings in patients and controls.
Table 6	78	Comparison between patients and controls in different sleep parameters.
Table 7	79	Comparison between male and female as regarding sleep parameters.
Table 8	81	Comparison between patients with normal bladder capacity and patients with reduced bladder capacity regarding different sleep parameters.
Table 9
