***ENTERAL FEEDING
IN
PAEDIATRICS***

ESSAY

Submitted for partial fulfillment of Master Degree In
Paediatrics

Presented By

Dr. Mona Ismail Mohamed
M.B, B.Ch

Supervised by
Dr.Farida EL Baz Mohamed
Professor of Pediatrics
Faculty of Medicine- Ain Shams University

Dr.Amani Osman Mahmoud
Lecturer of Paediatrics
Faculty of Medicine-Ain Shams University

Faculty of Medicine - Ain Shams University

2001

B = 1911

ACKNOWLEDGEMENT

Foremost, I feel always indebted for God, the most kind and the most Merciful.

I like to express my deepest gratitude and thanks for Prof. Dr. Farida El Baz Mohamed Professor of Pediatrics, Faculty of Medicine, Ain Shams University who helped me a lot with his true guidance, utmost concern and great encouragement.

Also I would like to thank Dr. Amani Osman Mahmoud Lecturer in Pediatrics, Faculty of Medicine, Ain Shams University for her help and concern and giving a lot of time to help me in revising and preparing the essay.

I also thank all the staff of the Pediatric department for their great help in discussion.

I also thank my family members, my mother, my husband, my brother and my little children who give the time to prepare the essay.

LIST OF CONTENTS

▪ List of table.....	
▪ List of figures.....	
▪ List of abbreviations.....	
1. Introduction and Aim of the work	1
3. Definition and history.....	5
4. Indications of enteral feeding.....	9
5. Enteral feeding equipment.....	41
6. Enteral feeding formulas.....	49
7. Techniques of enteral nutrition :	
▪ <i>Methods of enteral feeding.....</i>	<i>78</i>
▪ <i>Route of administration.....</i>	<i>86</i>
▪ <i>Monitoring of enteral feeding.....</i>	<i>110</i>
▪ <i>Home enteral nutrition.....</i>	<i>113</i>
8. Complications of enteral nutrition.....	117
9. Therapeutic considerations of enteral feeding.....	126
10. Total parenteral nutrition versus enteral nutrition..	142
11. Summary and conclusion.....	171
12. Recommendations.....	175
13. References.....	177
14. Arabic summary.....	

LIST OF TABLES

▪ <i>Table-1: Diseases of children in which enteral nutrition may be indicated.....</i>	<i>10</i>
▪ <i>Table-2: Diseases of children often associated with protein energy malnutrition.....</i>	<i>14</i>
▪ <i>Table-3: Factor influencing gut barrier function.....</i>	<i>18</i>
▪ <i>Table-4: Possible mechanisms underlying the efficacy of elemental diets in the management of Crohn's disease....</i>	<i>18</i>
▪ <i>Table-5: Characteristics of several small caliber tubes for enteral feeding.....</i>	<i>44</i>
▪ <i>Table-6: Guidelines to ensure nutritional adequacy.....</i>	<i>51</i>
▪ <i>Table-7: Premature infant formula comparison.....</i>	<i>53</i>
▪ <i>Table-8: Human milk fortifiers.....</i>	<i>54</i>
▪ <i>Table-9: Routine infant milk formulas.....</i>	<i>59</i>
▪ <i>Table-10: Increasing the energy density of an infant formula For enteral feeding.....</i>	<i>60</i>
▪ <i>Table-11: Hydrolysate and elemental feeds for use in chronic Malabsorption infants.....</i>	<i>63</i>
▪ <i>Table-12: Feeds based on medium chain triglycerides.....</i>	<i>64</i>
▪ <i>Table-13: Comminuted chicken meat feed.....</i>	<i>64</i>
▪ <i>Table-14: Hydrolysate and elemental feeds for use in chronic malabsorption in children.....</i>	<i>68</i>
▪ <i>Table-15: Advantages and disadvantages of enteral feeding methods.....</i>	<i>84</i>
▪ <i>Table-16: Guidelines for initiation and advancement of continuous and intermittent tube feeding.....</i>	<i>85</i>
▪ <i>Table-17: Advantages and disadvantages of enterostomies.....</i>	<i>102</i>
▪ <i>Table-18: Suggested monitoring during nutritional support.....</i>	<i>112</i>
▪ <i>Table-19: Causes of diarrhea in tube fed patients.....</i>	<i>121</i>
▪ <i>Table-20: Potential complications of tube feeding.....</i>	<i>124</i>
▪ <i>Table-21 to Table-25: Drug nutrient interactions.....</i>	<i>128</i>
▪ <i>Table -26: Vitamins and trace element intakes in PN.....</i>	<i>148</i>

- **Table- 27, 28, 29: Parenteral nutrition regimens.....149 - 150**
- **Table - 31: Central venous delivery of PN.....154**
- **Table - 30: Peripheral delivery of PN.152**
- **Table - 32: Complications of central venous catheter insertion.....155**
- **Table -33: monitoring protocol for PN.158**
- **Table – 34- 35: Transition from parenteral to enteral nutrition.....169- 170**

LIST OF FIGURES

▪Figure-1: Algorithm for choice of route for delivery of enteral feeds.....	11
▪Figure-2: Vicious cycle of chronic disease and malnutrition.	13
▪Figure-3: Metabolic routes in which glutamine is utilized during septic event.....	74
▪Figure-4: Routes of administration for enteral feeding.....	87
▪Figure-5 to Figure-7: Gastrostomy tube with a short silicone post	109
