ACKNOWLEDGEMENT

The author wishes to thank Ass. Professor Dr. Elsayeda Gamal El-Din, Department of Botany, Faculty of Science, Suez Canal University for suggesting the topic of this work and for her guidance, encouragement and criticism of the systematic part.

The author also thanks Prof. Dr. Mohamed F. Abdalla, and Prof. Dr. Nabil A.M. Saleh, National Research Centre, for their help, guidance and encouragement in the chemistry part.

Finally, the author thanks the National Research Centre and the Herbaria, Suez Canal University, Cairo University and Agriculture Research Centre for providing facilities which enabled her to complete this work.
