ACKNOWLEDGEMENT

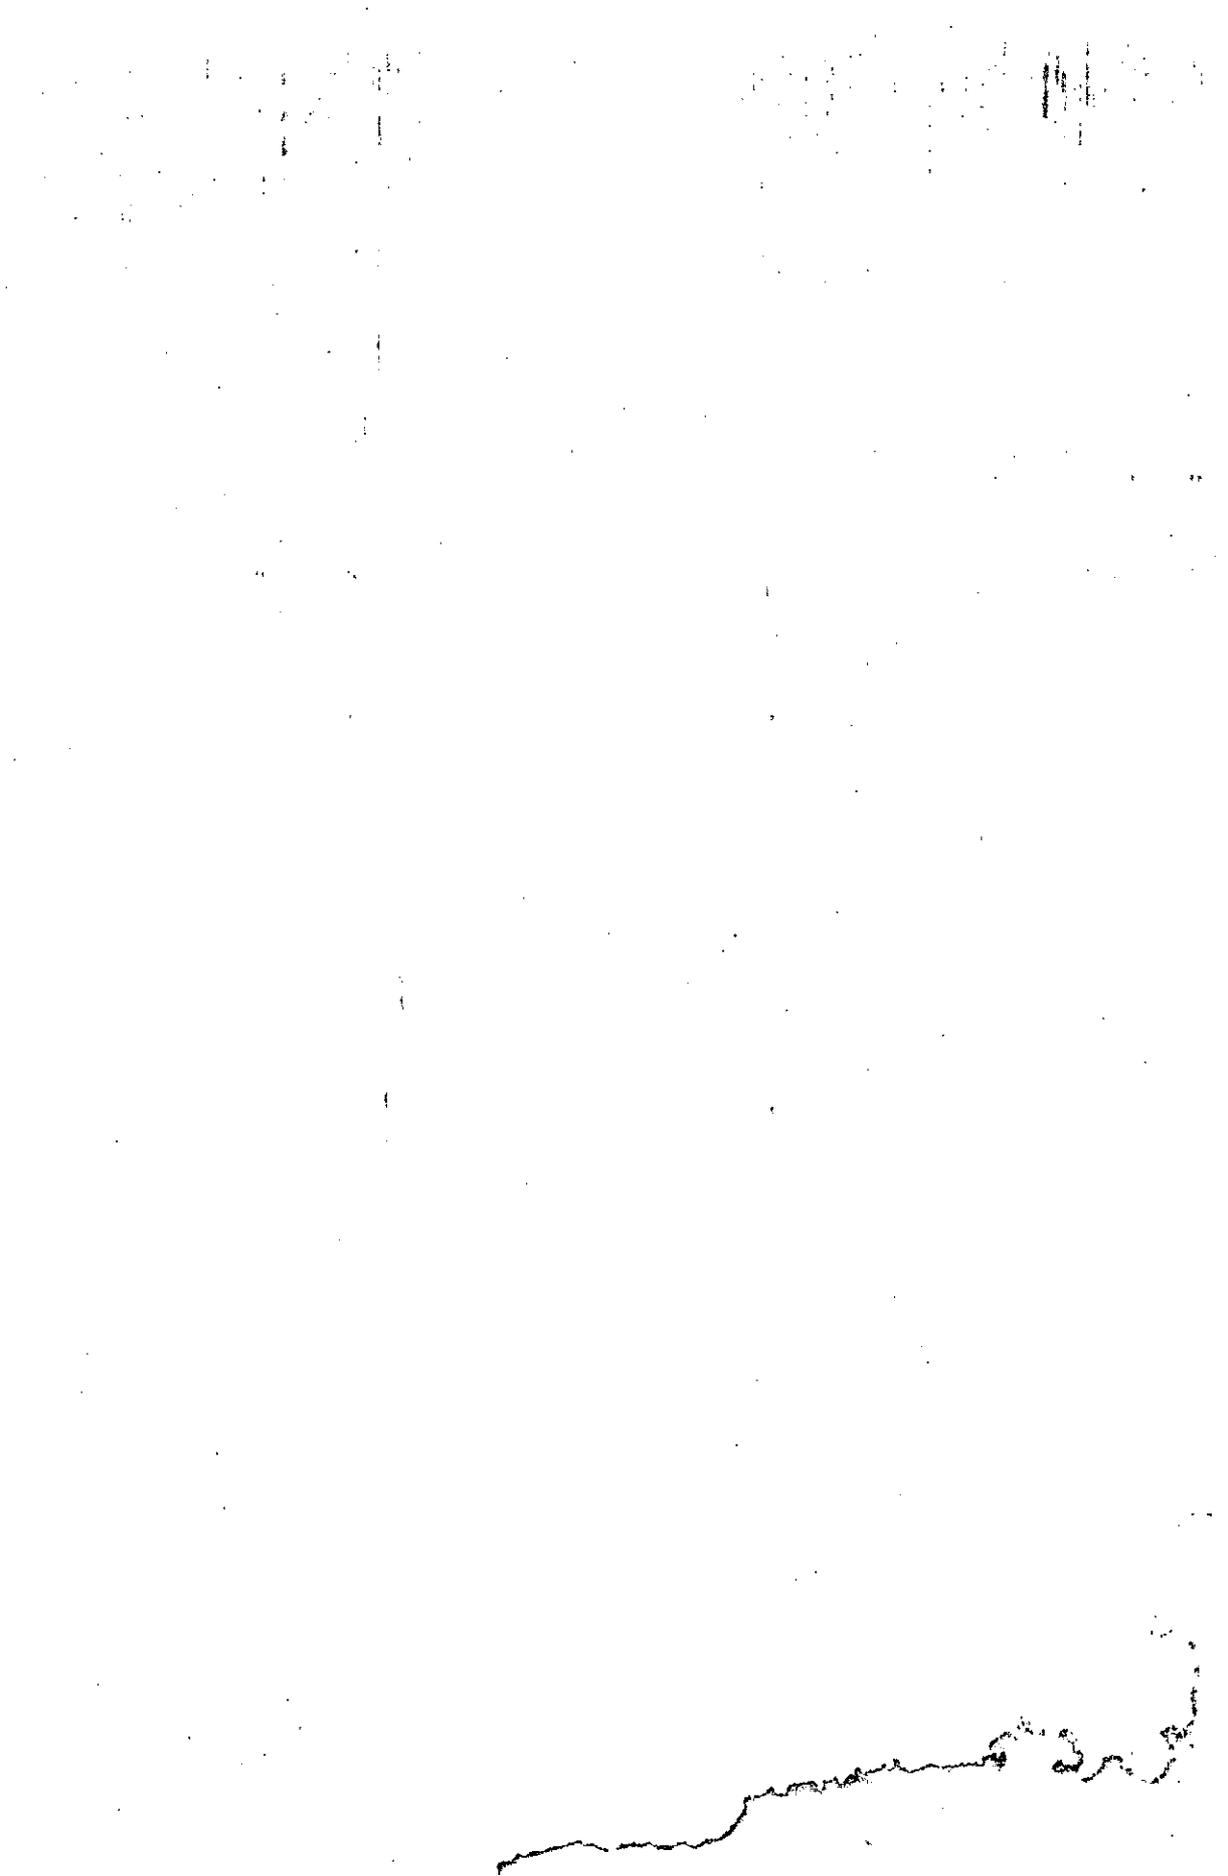

The writer wishes to express his sincere gratitude and appreciation for the guidance of **Prof. Dr. Mohamed Madbouly** and **Prof. Dr. Mohamed A. El-Ashram** professors of fruit sciences, Faculty of Agriculture, Moshtohor, Zagazig University for their supervision, great help, valuable discussion and providing every facility needed throughout the whole period of this research work.

Deep appreciation is expressed to **Dr. Hussein Kabeel** assistant professor of fruit sciences, Horticulture Research Institute, (A.R.C.) for his active supervision, offering every possible help through both field and laboratory work, constructive criticism encouragement and continuous interest during the preparation of this investigation.

I would like to express my sincere gratitude to **Dr. Faissal. A.Kh. Sabik** Researcher of soils, Water and Environment Institute for his encouragement, useful help and valuable suggestions during the period of this study.

I also would like to express my deeply grateful and thanks to staff members of Hort. Res. Station at El-Kanater El-Khiria for their useful help during this work.

MOHAMED M.M. WAHBA

CONTENTS

	Page
LIST OF TABLES	
INTRODUCTION	1
REVIEW OF LITERATURE	3
MATERIALS AND METHODS	36
RESULTS AND DISCUSSION	45
IV-I- Response of some vegetative growth measurements	46
IV-I-1- Average increase in shoot length	46
IV-I-2- Average number of leaves per shoot	49
IV-I-3- Leaf area	52
IV-I-4- Leaf dry weight (gm)	54
IV-I-5- Increment percentage in trunk diameter	57
IV-II- Response of mineral content	60
IV-II-1- Leaf nitrogen content	60
IV-II-2- Leaf phosphorus content	63
IV-II-3- Leaf potassium content	66
IV-II-4- Leaf calcium content	69
IV-II-5- Leaf magnesium content	71
IV-II-6- Leaf iron content	74
IV-II-7- Leaf zinc content	77
IV-II-8- Leaf manganese content	80
IV-II-9- Leaf copper content	83

IV-III- Response of some fruiting measurements	85
IV-III-1- Fruit set percentage	86
IV-III-2- Yield in "kg fruits per tree"	88
IV-III-3- Increment percentage of yield over the control	91
IV-IV-1- Fruit physical characteristics	94
IV-IV-1-1- Fruit weight	94
IV-IV-1-2- Fruit volume	97
IV-IV-1-3- Fruit length (height)	99
IV-IV-1-4- Fruit diameter	102
IV-IV-1-5- Fruit shape index	104
IV-IV-2- Fruit chemical characteristics	106
IV-IV-2-1- Fruit juice total soluble solids percentage (TSS %)	106
IV-IV-2-2- Fruit juice total acidity percentage	109
IV-IV-2-3- Fruit juice total soluble solids percentage/ total acidity percentage (TSS/acid ratio)	112
IV-IV-2-4- Fruit tannins percentage.....	115
