Ecotoxicological Experiments on The Effect of Some Heavy Metal Toxicants on Certain Soil Invertebrates

Thesis

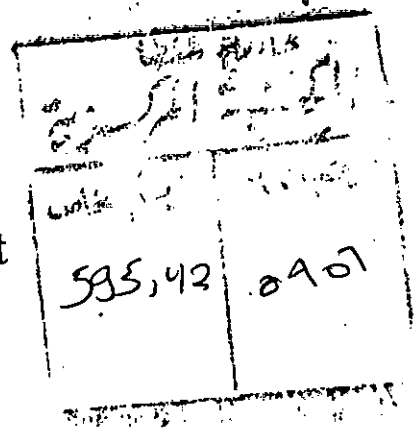

Submitted to Faculty of Science, University of Tanta in fulfilment
of the requirements for the philosophy Doctorate Degree of Science
(Zoology-Ecology)

Presented by

Hala Mohamed Abdel-Lateif Bassiony
B.Sc. M.Sc.

University of Tanta
Faculty of Science
Zoology Department
Tanta-Egypt

1997

535,42 8907

Supervisors

Prof. Dr. Bayoumi Mohamed Bayoumi

Professor of animal Ecology
Head of the Zoology Department
Faculty of Science
University of Tanta, Egypt.

Dr. Mohamed Ahmed Mohamed Khalil

Lecturer of Animal Ecology
Zoology Department
Faculty of Science
University of Tanta, Egypt.

The practical work for the first part of this thesis has been carried out in the Department of Zoology, University of Tanta, Tanta, Egypt, while the practical work for the second part as well as the evaluation of the data and the preparation of the text were done in the Department of Ecology and Ecotoxicology of the Free University, Amsterdam, The Netherlands, during a two year fellowship of the author.

Bayoumi

Curriculum Vitae

Name Hala Mohamed Abdel Lateif Bassiony

Date of Birth 30 - 3 - 1963

Locality Tanta, Al-Gharbia Governorate, Egypt.

Nationality Egyptian.

Primary school Ramadan primary school, Tanta, Egypt.

Preparatory School El-kased Prep. Girl's school, Tanta, Egypt.

Secondary School Kassem Amein Sec. Girl's School, Tanta, Egypt.

University Tanta University, Tanta, Egypt.

Present Position Assistant Lecturer, University of Tanta, Faculty of Science,
Department of Zoology, Egypt.

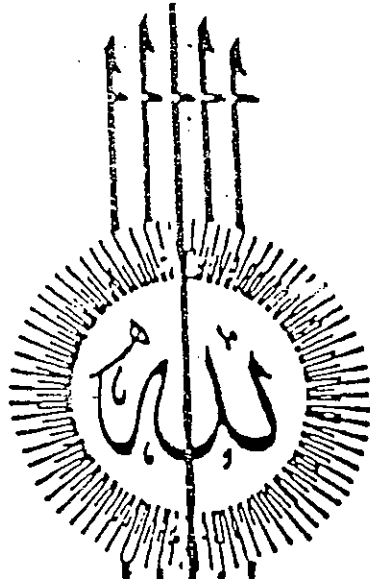

Qualification B.Sc. in Zoology, May 1984, University of Tanta, Faculty of
Science, Tanta, Egypt.
M.Sc. in Zoology, November 1990, on "Ecological, Embryological
and Histochemical Studies on Gambusia Fish in Relation to Habitat
Pollution".

Publications:

1996: Khalil, M.A., Abdel-Lateif, H.M., Bayoumi, B.M., & Van
Straalen, N. M. (1996). Analysis of separate and combined effects
of heavy metals on the growth of *Aporrectodea caliginosa*
(Oligochaeta; Annelida), using the toxic unit approach. Applied Soil
Ecology, 4, 213-219, (Chapter IV).

1996: Khalil, M.A., Abdel-Lateif, H.M., Bayoumi, B.M., Van Straalen,
N. M. and Van Gestel, C. A. M. (1996). Effects of metals and metal
mixtures on survival and cocoon production of the earthworm
Aporrectodea caliginosa. Pedobiologia, 40, 548-556, (Chapter III).

Bayoumi

سُبْحَانَكَ

لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صدق الله العظيم

(البقرة ٣٢)

*This work is dedicated to my
dear mother who gave much and
received little*

Acknowledgements

*First of all and above all, thanks to **ALLAH** for everything .*

*I would like to express my deepest gratitude and thanks to **Prof. Dr. Bayoumi M. Bayoumi**, Professor of Animal Ecology and Head of the Zoology Department, Faculty of Science, University of Tanta, Egypt for giving me the privilege to work under his kind supervision and for constant guidance.*

*I wish to express my sincere gratitude and appreciation to **Dr. Mohamed A. Khalil**, lecturer of Animal Ecology, Zoology Department, Faculty of Science, University of Tanta, Egypt for his encouragement, valuable support throughout this work and for reading the manuscript .*

I am deeply indebted to the Egyptian Mission Department for providing me a fellowship for two years at the Department of Ecology and Ecotoxicology, Free University, Amsterdam, the Netherlands to complete this thesis using all facilities I received at that Department.

*The practical work for the second part of the thesis, the evaluation of the data and the preparation of the text was done during the above mentioned fellowship. I am very pleased to acknowledge the help and cooperation I received from this Department and I thank everyone of them for cheerfully giving me their time in particular, **Prof. Dr. N.M. van Straalen** for his kind willingness to invite me in this Department and Providing me the necessary facilities, for his comprehensive evaluation of the manuscript, statistical guidance and constructive criticism .*

It delights me to express my profound gratitude and thanks to Dr. Marianne Donker and Dr. Kees van Gestel Ecotoxicology Department, Free University, Amsterdam, the Netherlands for their valuable help and for reading the manuscript.

My thanks and appreciation extend to Els smit, Ed stam, Rudo Verweij, Kees Verhoef, Rik Zoomer and Anneke Isaaks for their support and help during this work.

It is a pleasure to acknowledge the staff members of the Department of Zoology, Faculty of Science, University of Tanta, Egypt for their continuous support and encouragement.

Finally, I will never forget the kind support and the continuous encouragement of my family during my scientific Journey and my husband who accompanied me and helped me with all possible ways and even helped me during the experiments. To whom I am very grateful .

Contents

	<i>Page</i>
Chapter I : General introduction	1
Soil pollution	1
Heavy metals	2
Accumulation of metals by soil invertebrates	4
Aim of the work	7
Part I : Effect of heavy metals on earthworm <i>Aporrectodea caliginosa</i>.	
Chapter II : Historical Review	9
Chapter III : Effect of metals and metal mixtures on survival and cocoon production of the earthworm <i>Aporrectodea caliginosa</i>. Pedobiologia, 40 : 548 - 556.	
Introduction	21
Material and Methods	23
Earthworm	23
Chemical and soil characteristics	23
Survival experiments	23
Reproduction toxicity experiments	24
Data analysis	24
Results	26
Survival experiment	26
Single metal experiments for reproduction	26
Metal interaction experiment	27
Discussion	34

Chapter IV : Analysis of separate and combined effects of heavy metals on the growth of *Aporrectodea caliginosa* (Oligochaeta; Annelida), using the toxic unit approach. Applied Soil Ecology, 4: 213 - 219.

Introduction	36
Material and Methods	38
Earthworms	38
Chemicals and soil characteristics	38
Toxicity tests	38
Data analysis	39
Results	41
Single metal experiments	41
Metal interaction experiment	41
Discussion	49
Part II : Interaction between temperature and metal toxicity on isopod <i>Porcellio scaber</i>.	
Chapter V : Historical Review	52
Chapter VI : Interaction between temperature and cadmium toxicity on isopod <i>Porcellio scaber</i>. Functional Ecology (Submitted).	
Introduction	60
Material and Methods	62
Animals	62
Food	62
Experimental conditions	62
Measurements	63
Data analysis	63

Results	65
Discussion	76
Chapter VII : Temperature, physiological time and zinc toxicity in the isopod <i>Porcellio scaber</i>. Environmental Ecotoxicology and Chemistry (submitted).	
Introduction	78
Temperature responses and physiological time	80
