Dedication

To my father & my mother, my best love of my life, who did care for me and gave me all kinds of kindness and to provide me all means in order to complete a master's degree.

To my brothers and sister, who offered me unconditional love and support throughout the course of the study.

To my love and her family, who offered me unconditional love and support throughout the course of the study.

To all my friends, that I have been fortunate enough to have been blessed with them.

Acknowledgement

First of all I would like to thank **ALLAH** for helping me to finish this work.

My deepest gratitude and sincere appreciation to **Ass. Prof. Dr. Shehab El-din M Saber** Associate Professor of Endodontics, Faculty of Dentistry, Ain Shams University, for his sincere help, not only did he suggest the main theme of this study but also for guidance and motivation during the course of this study.

I would like to thank **Dr. Medhat Al Faramawy**, Lecturer of Endodontics, Faculty of Dentistry, Ain Shams University, for his great help and tireless effort throughout this work.

I would like also to thank **my patients**, who put confidence in me, without whom this work would not have been possible.

My great thanks to the staff members and all my colleagues of the Endodontic department, Faculty of Dentistry, Ain Shams University, for their continuous help, encouragement and constant support.
