BIOCHEMICAL AND NUTRITIONAL STUDIES ON SOME OIL SEEDS

BY

Fahd Abdelhameed Ali Mohammed Alsharjabi

B.Sc. in Agricultural Sci. (Food Tech.) Faculty of Agric. Baghdad University (1993)
M.Sc. in Agricultural Sci. (Food Sci. & Tech.) Faculty of Agric. Assiut University (2000)

THESIS

SUBMITTED TO THE GRADUATE DIVISION IN PARTIAL
FULFILLMENT OF THE REQUIREMENTS FOR
THE DOCTOR OF PHILOSOPHY DEGREE
IN AGRICULTUREAL SCIENCE (FOOD SCI. & TECH.)

***Faculty of Agriculture
Assiut University
2005***

Supervised by

Prof. Dr. Mohamed R.A. Rashwan
(main supervisor)
Dr. Mohamed A.H. El-Geddawy
Dr. Wafik S.M. Ragab.

Examined by

Prof. Dr. Adel Kh. Ghazi
Prof. Dr. Mohamed A.M. Zeitoun
Prof. Dr. Mohamed R.A. Rashwan
Dr. Mohamed A.H. El-Geddawy

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Approval Sheet

BIOCHEMICAL AND NUTRITIONAL STUDIES ON SOME OIL SEEDS

Presented By

Fahd Abdelhameed Ali Mohammed Alsharjabi

Examiners Committee :

- Prof. Dr. Adel Kh. Ghazi
Professor of food Sci. & Tech.
Faculty of Agric., Kafer El-sheikh
Tanta University.
- Prof. Dr. Mohamed A.M. Zeitoun
Professor of food Sci. & Tech.
Faculty of Agric., Saba Basha
Alexandria University.
- Prof. Dr. Mohamed R.A. Rashwan
Professor of food Sci. & Tech.
Faculty of Agric., Assiut University.
- Dr. Mohamed A.H. El-Geddawy
Assistant Professor of food Sci. & Tech.
Faculty of Agric., Assiut University.

Approved

A. Ghay.....

M. P. Zeiton.....

M. Rashwan.....

M. Al-Geddawy.....

Date : 8 / 6 /2005.

ACKNOWLEDGEMENT

I feel grateful to *ALLAH* who always helps me.

I would like to express my sincere thanks, deep appreciation, and heartfelt gratitude to **Prof. Dr. Mohamed R.A. Rashwan**, professor of food science and Technology, Faculty of Agriculture, Assiut university for kindly suggesting the problem and providing so much of his time, precious advice, creative comments and unlimited help in supervising, guiding the work and revising the manuscript as well as during writing the thesis.

Special acknowledgement to **Dr. Mohamed A.H. El-Geddawy** and **Dr. Wafik S. M. Ragab**, assistant professors of food science and technology, Faculty of Agriculture, Assiut university, for their precious advice, creative comments and unlimited help during carrying out this thesis.

Deep thanks are due to all staff of food science and technology Department for their encouragement and care.

Fahd A. Ali M. Alsharjabi
2005

CONTENTS

<u>Subject</u>	<u>Page</u>
1. INTRODUCTION	1
2. AIM OF INVESTIGATION.....	5
3. REVIEW OF LITERATURE.....	6
3.1 Gross Chemical Composition of Oil Seeds.....	6
3.1.1 Gross Chemical Composition of Peanut.....	6
3.1.2 Gross Chemical Composition of Sesame.....	7
3.2 Microorganisms and Aflatoxins Contamination of Oil Seeds and it's Oil	8
3.3 Amino Acids Composition of Oil Seeds.....	12
3.3.1 Amino Acids Composition of Peanut Seeds.....	12
3.3.2 Amino Acids Composition of Sesame Seeds.....	14
3.4 Physical and Chemical Constants of Oil.....	16
3.4.1 Physical and Chemical Constants of Peanut Oil.....	16
3.4.2 Physical and Chemical Constants of Sesame Oil.....	17
3.5 Evaluation of Lipid Classes and Fatty Acid Composition of Extracted Oils.....	19
3.5.1 Lipid Classes and Fatty Acid Composition of Peanut Oil	19
3.5.2 Lipid Classes and Fatty Acid Composition of Sesame Oil	21
3.6 Unsaponifiable Matters of extracted Oils.....	23
3.6.1 Unsaponifiable Matters of Peanut Oil.....	23
3.6.2 Unsaponifiable Matters of Sesame Oil.....	24
3.7 Phenolic Compounds and Antioxidant Activity of Extracted Oils	25
3.7.1 Phenolic Compounds and Antioxidant Activity of Peanut Oil	25
3.7.2 Phenolic Compounds and Antioxidant Activity of Sesame Oil	28
3.8 Spectroscopic Characterizations of Oils.....	33
3.8.1 Ultraviolet Spectroscopy of Oils.....	33
3.8.2 Infrared Spectroscopy of Oils	36
3.8.3 Nuclear Magnetic Resonance Spectroscopy of Oils.....	39
3.9 Effect of Heating on Oil Characteristics	41
3.10 Nutritional Effect of oils and Isolated Natural Antioxidant on serum lipids.....	43
4. MATERIALS AND METHODS.....	50
4.1 MATERIALS	50
4.1.1 Peanut and Sesame Seeds.....	50

4.1.2 Peanut and Sesame Oils.....	50
4.1.3 Defatted Press Cake.....	50
4.1.4 Fungal Strain.....	50
4.1.5 Standard Mycotoxins.....	50
4.1.6 Animal experiments.....	50
4.1.6.1 Diets.....	51
4.1.6.1.1 Basal Diet (BD).....	51
4.1.6.1.2 Rich Cholesterol Diet (RCD).....	51
4.2 METHODS.....	52
4.2.1 Analytical Methods	52
4.2.1.1 Gross chemical composition.....	52
4.2.1.2 Amino acids composition of seeds.....	52
4.2.1.2.1 Tryptophan determination.....	52
4.2.1.2.2 Computation of chemical score.....	52
4.2.1.2.3 Computation of A/E ratio.....	52
4.2.1.2.4 Computation of protein efficiency ratio (PER).....	53
4.2.1.2.4 Computation of biological value (BV).....	53
4.2.1.3 Physical and chemical properties of oils.....	53
4.2.1.4 Calculated oxidizability.....	53
4.2.1.5 Determination of the susceptibility to oxidation with the Rancimat method.....	54
4.2.1.6 Preparation and TLC separation of crude lignans extract from sesame oil.....	54
4.2.1.7 Extraction and determination of peanut hulls antioxidant	55
4.2.1.7.1 Extraction of antioxidant Components from peanut hulls	55
4.2.1.7.2 Determination of total phenolic compounds.....	55
4.2.1.8 Separation and identification of lipid classes.....	55
4.2.1.8.1 Extraction of lipids.....	55
4.2.1.8.2 Column chromatography by column chromatography.	56
4.2.1.8.3 Thin layer chromatography with thin layer chromatography.....	56
4.2.1.9 Fatty acids analysis.....	56
4.2.1.9.1 Preparation of methyl ester of fatty acids.....	57
4.2.1.9.2 Gas liquid chromatography of methyl esters of fatty acids	57
4.2.1.10 Unsaponifiable matter analysis.....	57
4.2.1.10.1 Separation of the Unsaponifiable matter.....	57
4.2.1.10.2 Identification of the Unsaponifiable matter components by gas liquid chromatography.....	58
4.2.1.11 Ultraviolet spectroscopy measurements.....	58
4.2.1.12 Infrared spectroscopy measurements.....	59
4.2.1.13 ¹ H and ¹³ C NMR spectroscopy measurements	59

4.2.2 Thermal treatments of oils.....	59
4.2.3 Microbiological Methods.....	59
4.2.3.1 Sample preparation.....	59
4.2.3.2 Total counts of aerobic and anaerobic mesophilic bacteria	59
4.2.3.3 Total molds and yeasts count.....	60
4.2.3.4 Identification of molds genera.....	60
4.2.3.5 Infection of oil seeds with aflatoxins-producer mold.....	60
4.2.3.6 Assay of aflatoxins contents.....	61
4.2.3.6.1 Extraction of aflatoxins from oilseeds and its meals	61
4.2.3.6.2 Extraction of aflatoxins from crude oils.....	61
4.2.4 Blood analysis.....	61
4.2.4.1 Collection of serum.....	61
4.2.4.2 Estimation of total cholesterol in serum.....	61
4.2.4.3 Estimation of HDL cholesterol in serum.....	61
4.2.4.4 Estimation of LDL and VLDL cholesterol in serum.....	62
4.2.4.5 Estimation of Triglycerides in serum.....	62
4.2.5 Statistical Analysis.....	62
5. RESULTS AND DISCUSSION	63
5.1 Gross Chemical Composition	63
5.2 Microbial and Aflatoxins Content of Oil Seeds.....	65
5.3 Amino Acids Composition of Oil Seeds.....	67
5.4 Physical and Chemical Characteristics of Oil.....	70
5.5 Fractionations of Lipid Classes of Peanut and Sesame Oils.....	73
5.6 Fatty Acid Composition of Oils.....	76
5.7 Unsaponifiable Matters of Oils.....	79
5.8 Spectroscopic Characterizations of Oils.....	82
5.8.1 Ultraviolet Spectroscopy of Oils.....	82
5.8.2 Infrared Spectroscopy of Oils.....	83
5.8.3 Nuclear Magnetic Resonance Spectroscopy of Oils.....	86
5.9 Application of Spectroscopy for observation thermal oxidative degradation of Oils.....	95
5.9.1 UV Spectroscopy as a Tool for observation alterations in Heated Oils	99
5.9.2 Infrared as a Tool for observation alterations in Heated Oils	106
5.9.3 ¹ H NMR as a Tool for observation alterations in Heated Oils	110
5.10 Nutritional Effect of Oils and Natural Components on Rats Serum Lipids.....	114
6. SUMMARY AND CONCLUSIONS.....	128
7. REFERENCES.....	137
8. ARABIC SUMMARY.....	1

LIST OF TABLES

<u>Table No.</u>	<u>Page</u>
1 World production of edible oil seeds for last 3 years	2
2 Groundnuts in Shell production in the World and Arabic countries in 2004	4
3 Sesame seeds production in the World and Arabic countries in 2004	4
4 Diets of each rat groups during experimental period	51
5 Gross chemical composition of peanut and Sesame Seeds	63
6 Microbial Content of Peanut and Sesame Seeds	66
7 Aflatoxin Contents of Peanut and Sesame Seeds	66
8 Amino acids composition of peanut and sesame seeds	68
9 Chemical score, and limiting amino acid of Peanut and sesame Seeds	69
10 A/E ratio of Peanut and Sesame seeds compared with FAO/WHO/UNU (1985)	69
11 Computation of protein efficiency ratio (PER) and biological value (BV) of Peanut and Sesame seeds	69
12 physico-chemical characteristics, conjugated diene and triene value oxidative stability and natural antioxidant component of peanut and sesame oils	71
13 Concentration of crude lignan extract from sesame oil	72
14 Column Chromatography of Total Lipids Classes of Peanut and Sesame Oils	74
15 Densitometric analysis of total lipid fractions of Peanut and Sesame Oils	76
16 Fatty Acids Composition of total Lipids of Peanut and Sesame Oil (% of total fatty acids content)	77
17 Unsaponifiable matters contents of peanut and sesame oils	79
18 Frequencies (cm^{-1}) of bands and shoulders of peanut and sesame oils Infrared spectra	84
19 ^1H NMR spectra signals of peanut and sesame oils.	86
20 ^{13}C NMR spectra signals of peanut and sesame oils.	89
21 Effect of heating time on some characteristics of peanut and sesame oils	96
