Thanks to

ACKNOWLEDGEMENT

I am deeply grateful to Prof. Dr. Ahmed Sherif Hafez, Professor of Public Health and Vice Dean of the Faculty of Medicine, Ain Shams University, for his supervision, helpful advice, valuable scientific discussion and for giving generously of his time to accomplish this work.

I would like to express my gratitude and sincere appreciation to Prof. Dr. Gamalat Ahmed Hassan, Professor of Oral Medicine and Periodontology, Faculty of Oral and Dental Medicine, Cairo University, under whom supervision I have the honour to perform my work and also for her valuable guidance and encouragement during the whole period of this work.

I am deeply grateful to Prof. Dr. Fayza Abd El Monem, Lecturer of Sociology, Faculty of Art, Ain Shams University, for her guidance, helpful advice, supervision and spiritual encouragement during this study.

LIST OF TABLES

Table	page
1. Distribution according to age among smokers and non-smokers.....	24
2. Distribution according to education among smokers and non-smokers.....	25
3. Distribution according to occupation among smokers and non-smokers.....	26
4. Distribution according to number of family members among smokers and non-smokers.....	27
5. Socio-economic status according to scores of occupation and income.....	28
6. Periodontal condition in relation to smokers and non-smokers.....	29
7. Frequency of periodontal disease among smokers and non-smokers.....	30
8. Periodontal condition in relation to number of tooth brushing per day among smokers and non-smokers.....	31
9. Periodontal condition in relation to duration of smoking.....	32
10. Periodontal condition in relation to number of cigarettes per day.....	33
11. Periodontal condition in relation to number of cigarettes per day and years of smoking among cigarette smokers.....	34
12. Periodontal condition in relation to number of family members among smokers and non-smokers...	35
13. Periodontal condition in relation to income among smokers and non-smokers.....	36
14. Periodontal condition in relation to education among smokers and non-smokers.....	37
15. Periodontal condition in relation to income and number of family members among smokers and non-smokers.....	38

16. Periodontal condition in relation to number of family members, income and education (Illiterate) among smokers and non-smokers.....	39
17. Periodontal condition in relation to number of family members, income and education (Low level) among smokers and non-smokers.....	40
18. Periodontal condition in relation to number of family members, income and middle level education among smokers and non-smokers.....	41
19. Periodontal condition in relation to number of family members, income and high level education among smokers and non-smokers.....	42
20. Plaque index in the Illiterate group among smokers and non-smokers.....	43
21. Plaque index in the low level education group among smokers and non-smokers.....	44
22. Plaque index in the middle level education group among smokers and non-smokers.....	45
23. Plaque index in the high level education group among smokers and non-smokers.....	46
24. Gingival index in the Illiterate group among smokers and non-smokers.....	47
25. Gingival index in the low level education group among smokers and non-smokers.....	48
26. Gingival index in the middle level education group among smokers and non-smokers.....	49
27. Gingival index in the high level education group among smokers and non-smokers.....	50
28. Periodontal pocket depth in the Illiterate group among smokers and non-smokers.....	51
29. Periodontal pocket depth in the low level education group among smokers and non-smokers..	52
30. Periodontal pocket depth in the middle level education group among smokers and non-smokers..	53
31. Periodontal pocket depth in the high level education group among smokers and non-smokers..	54

LIST OF FIGURES

Figure	page
1. Age distribution among smokers and non-smokers...	55
2. Educational level among smokers and non-smokers..	56
3. Occupational level among smokers and non-smokers..	57
4. Number of family members among smoker and non-smokers.....	58
5. Socio-economic scores according to occupation and income among smokers and non-smokers.....	59
6. Periodontal condition in relation to smokers and non-smokers.....	60
7. Frequency of plaque index among smokers and non-smokers.....	61
8. Frequency of gingival index among smokers and non-smokers.....	62
9. Frequency of periodontal pocket depth (mm) among smokers and non-smokers.....	63
10. Periodontal condition in relation to duration of smoking.....	64
11. Periodontal condition in relation to number of cigarettes per day.....	65
12. Side effects of cigarette smoking.....	66
13. Contents of cigarettes' nicotine and tar.....	67
14. Social pattern initiating cigarette smoking.....	68
15. Protective causes against smoking in the non-smokers.....	69
16. Causes of failure to quit smoking.....	70
17. Reasons for the persistence of smoking.....	71
