**Physiological studies on banana using tissue
culture technique and gamma rays**

Thesis

**Submitted In Partial Fulfillment of The
Requirements For The Degree
of Master of Science
In
Botany (Physiology)**

**By
Noha Eid Rajab Hussein Eliwa
B.Sc. (1996)**

**Botany Department
Faculty of Girls For Arts, Science and Education**

**Ain Shams University
2001**

B 7577

APPROVAL SHEET

Physiological studies on banana using tissue culture technique and gamma ray

By
Noha Eid Rajab Heussin Eliwa

This thesis for M.Sc. degree has been approved by:

1-Prof.Dr. Tahani Hathout

Prof.of plant physiology
Faculty of Girls
Ain -Shams University

T. Hathout
T. Hathout

2-Prof. Dr. Abd El-Salam Hammad

Prof. of plant product
National Center for Radiation Research
and Technology.

A. H. A. Hammad
A. H. A. Hammad

3-Dr.Ayman El-Fiki

Assistant professor of plant genetics
National Center for Radiation
Research and Technology.

A. El-Fiki
A. El-Fiki

4- Dr. Samia Moheb

Lecturer of plant physiology
Faculty of Girls
Ain -Shams University

S. Moheb
S. Moheb

Supervisors

Dr. Tahani Hathout

Prof. of plant physiology

Faculty of Girls

Ain -Shams University

Dr. Abd El-Salam Hammad

Prof. of plant product

National Center for Radiation

Research and Technology

Dr. Samia Moheb

Lecturer of plant physiology

Faculty of Girls

Ain -Shams University

Dr. Ayman El-Fiki

Assistant professor of plant genetics

National Center for Radiation

Research and Technology

To my mother who

gives me hope, support and encouragement

Special thanks for Dr. MAI ,S. El -DEGWI Assistant Professor of Biology ,National Center for Radiation Research and Technology ,Atomic Energy Authority Egypt for her kind help ,guide ,support and continuous encouragement through out the preparation of the work .

My thanks and gratitude to Prof. Dr. SOHEIR ABD EL-AZIZ ,Head of Botany Department ,Faculty of Girls ,Ain Shams University .

Faithful thanks and gratitude to all staff members and colleagues of Botany Department ,Faculty of Girls ,Ain Shams University and to all staff members and colleagues at National Products Department ,National Center for Radiation Research and Technology ,Atomic Energy Authority ,Egypt.

Thanks to all who helped me .

Contents

	page
-INTRODUCTION	1
- REVIEW OF LITERATURE	4
1-Production of banana plant by using tissue culture techniques	4
2-Effect of irradiation on growth and physiological responses of banana cultivars	6
3-Effect of salt stress on growth and physiological processes of banana plant	20
-MATERIALS AND METHODS	
1-Materials	30
A-Plant Materials	30
B- Irradiation treatments	30
2- Methods	30
Media	30
-Preparation of Stock Plant Hormones	32
-Medium preparation	33
-Preparation of explant and culture initiation	33
-Shooting medium	34
-Treatments	34
-Rooting stage	35
-Acclimatization stage	35
-Physiological analysis:	35
-Estimation of photosynthetic pigments	36
-Determination of total soluble sugars	36
-Determination of reducing sugars	37
-Determination of non- reducing sugar	38
-Determination of enzyme	38
A-Peroxidase assay	38
B-Poly phenol oxidase	38

-Determination of phenolic compounds	39
-Estimation of protein content	39
-Protein electrophoresis	40
-Estimation of proline content	45
- Anatomical studies	46
-Statistical analysis	46
-RESULTS AND DISCUSSION	47
-Effect of gamma irradiation on growth parameters of banana cultivars	47
-Effect of gamma irradiation on physiological characters of banana cultivars	55
-Effect of NaCl concentration on growth parameters of banana cultivars	77
-Effect of NaCl concentration on physiological characters of banana cultivars	88
-Interactive effect of gamma irradiation and salinity on growth parameters of banana cultivars	110
-Interactive effect of gamma irradiation and salinity on physiological process of banana cultivars	123
-SDS protein electrophoresis	148
-Anatomical studies	152
-English Summary	163
-References	168
-Arabic summary
