To My Family

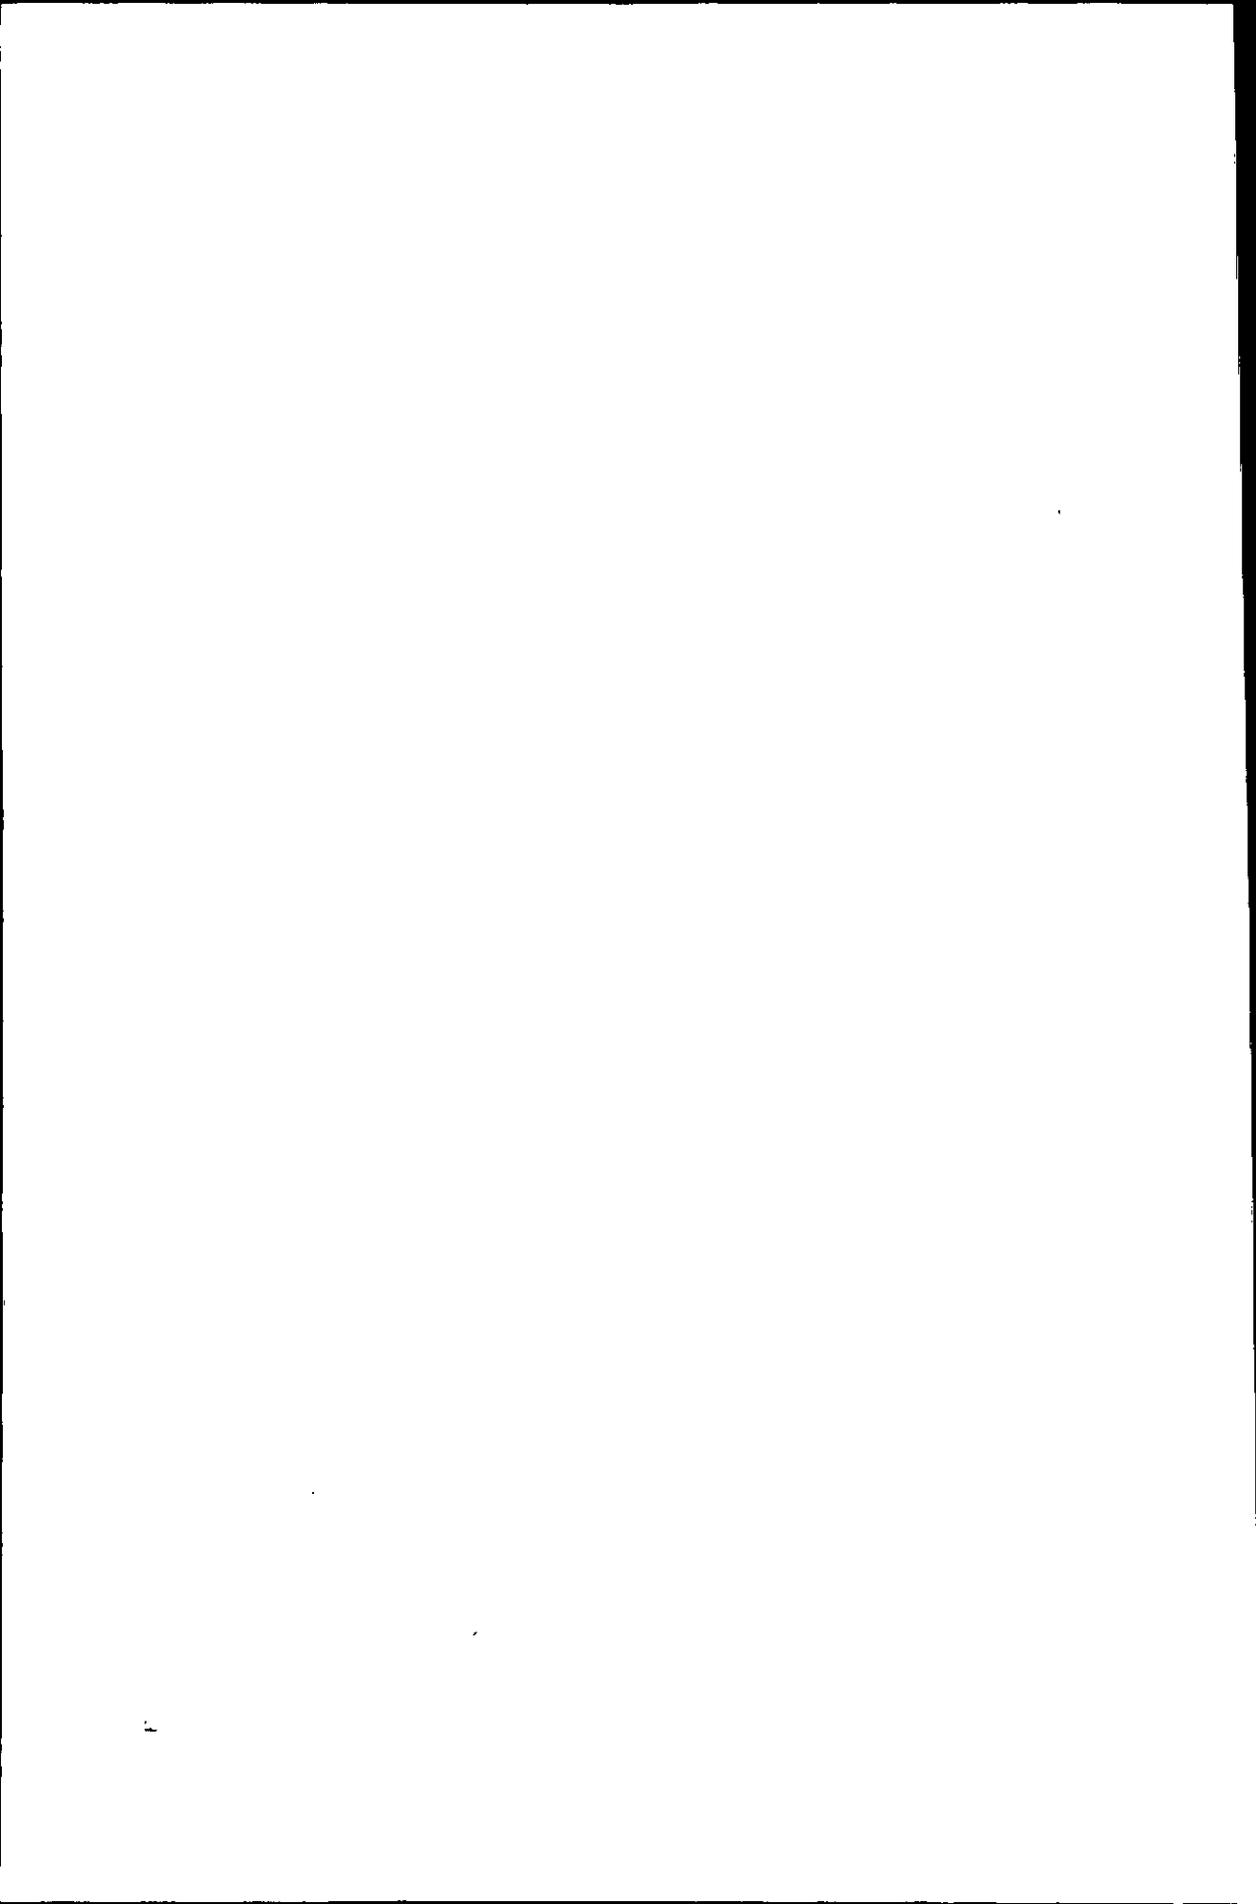

## ACKNOWLEDGEMENT

I am greatly indebted to Prof. Dr. Tahany M. Maharem, Professor of Biochemistry, Faculty of Science, Ain Shams University, for her valuable support, keen criticism, kind encouragement and guidance.

My deep appreciation to Prof. Dr. Abdel-Hady M. Ghazy, Research Professor of Biochemistry, Molecular Biology Department, National Research Centre, for his generous help, kindness, encouragement throughout the course of this work and giving the full facilities for proper research work.

I am deeply grateful to Ass. Prof. Dr. Mahmoud A. Ibrahim, Associate Professor of Biochemistry, Molecular Biology Department, National Research Centre, for suggesting the problem of this work, his close supervision, faithful advice and continuous support.

The financial support and facilities offered by National Research Centre that enabled me to carry out this work are greatly appreciated.

## TABLE OF CONTENTS

	Page
List of Figures. ....	V
List of Tables. ....	X
List of Abbreviation. ....	XI
Abstract. ....	XIII
Introduction. ....	1
Aim of work. ..	20
Materials and Methods. ..	22
A - Materials. ....	22
1 - Tick material. ....	22
2 - Preparation of the camel plasma. ....	22
3 - Chemicals. ....	22
4 - Buffers. ....	23
B - Methods. ....	23
I - Preparation of crude egg, larval and nymphal extracts of the camel tick <i>H. dromedarii</i> for developmental profiles. ....	23
II - Analyses. ....	24
1 - Clotting time assays. ....	24
2 - Enzyme and inhibitor assays. ....	25
3 - Protein determination. ....	29
4 - Colorimetric determination of peptide concentration. ....	31
III - Preparation of columns for chromatography. ....	33
1 - Ion exchange chromatography. ....	33
2 - Gel filtration chromatography. ....	34
IV - Purification. ....	39
1 - Purification of the anticoagulants from the embryonic stage of the camel tick <i>H. dromedarii</i> .. ....	39
2 - Purification of thrombin inhibitor from the

---

nymphal stage of the camel tick <i>H. dromedarii</i> . ... ..	40
3 - Purification of FXa inhibitor from the nymphal stage of the camel tick <i>H. dromedarii</i> . ... ..	41
V - Electrophoresis. ... ..	42
1 - Native polyacrylamide gel electrophoresis. ... ..	42
2 - Sodium dodecyl sulfate polyacrylamide gel electrophoresis (SDS-PAGE). ... ..	44
3 - Isoelectric focusing (IEF). ... ..	47
VI - Statistical analyses. ... ..	51
<b>Results.</b> ... ..	<b>54</b>
1 - The changes of the anticoagulants specific activity during developmental stages of the camel tick <i>H. dromedarii</i> . ... ..	54
2 - The changes of thrombin inhibitor and FXa inhibitor specific activities during developmental stages of the camel tick <i>H. dromedarii</i> . ... ..	54
3 - Purification of the camel tick <i>H. dromedarii</i> embryonic anticoagulants. ... ..	61
4 - Effect of NaCl concentration on the PT anticoagulant activity. ... ..	71
5 - Molecular weight of the embryonic anticoagulants. ... ..	71
6 - Spectral analysis. ... ..	73
7 - Reaction of the peptide anticoagulants with the ninhydrin. ... ..	73
8 - Effect of the embryonic peptide anticoagulants on the intrinsic and extrinsic coagulation pathways. ... ..	73
9 - Effect of the embryonic peptide anticoagulants on the amidolytic activity of thrombin and FXa. ... ..	80
10 - Effect of varying concentrations of the embryonic peptide anticoagulant P6 on the amidolytic activity of thrombin. ... ..	80
11 - Kinetics of thrombin inhibition by P6 anticoagulant. ... ..	80
