## ***ACKNOWLEDGMENT***

---

The author would to express his deep appreciation and sincere gratitude to ***Prof.Dr. Raafat Sorour Abd El- Aal***, (Professors of Soil Science) Department of Soils, Faculty of Agriculture, Moshtohor, Zigzag University, (Benha Branch); and ***Prof. Dr. Somaya Ahmed Hassanein***, Deputy Director of Soils, Water and Environment Research Institute, Agricultural Research Center, Ministry of Agriculture, for proposing the problem, sincere guidance, supervision and continuous encouragement during the preparation and carrying out this work.

Deep thanks are also due to ***Prof. Dr. Hassan Hamza Abbas***, (Professors of Soil Science) Department of Soils, Faculty of Agriculture, Moshtohor, Zigzag University, (Benha Branch);for sincere help and support.

Thanks are also extended to ***Dr. ADEL MOHAMMED KHALEFA*** Researcher, Soils, Water and Environment Research Institute, Agricultural Research Center, Ministry of Agriculture, for his help during experimentation as well as for stimulating criticism.

Special thanks are also due to my family for encouragement during the preparation and carrying out this work.

To all who helped in carrying out this work, the author extends his gratitudes.
